1. Downloads and Releases

Information on Lucene Java Downloads and Releases.

1.1. Official Release

Official releases are usually created when the developers feel there are sufficient changes, improvements and bug fixes to warrant a release. Due to the voluntary nature of Lucene, no releases are scheduled in advance.

Both binary and source releases are available for download from the Apache Mirrors

1.2. Nightly Build Download

Nightly builds are based on the trunk version of the code checked into SVN

Download

1.3. Source Code

Subversion The sourcefiles are now stored using Subversion (see <http://subversion.tigris.org/> and <http://svnbook.red-bean.com/>)

```
svn checkout http://svn.apache.org/repos/asf/lucene/java/trunk  
lucene/java/trunk
```
