ASSIGNING PERSON CLASS TO PROVIDERS

SUPPLEMENT TO PATCH DESCRIPTION

Patches XU*8.0*27 & 377

August 1996

Revised May 2006

Revision History

Documentation Revisions

The following table displays the revision history for this document. Revisions to the documentation are based on patches and new versions released to the field.

Date	Revision	Description	Author
08/96	1.0	Initial Assigning Person Class to Providers Patch Supplement (i.e., Kernel Patch XU*8.0*27) documentation creation.	Kernel Development Team, San Francisco, CA OIFO
01/27/05	2.0	Reformatted document to follow ISS Style Guide. Reviewed document and edited for the "Data Scrubbing" and the "PDF 508 Compliance" projects. **Data Scrubbing**—Changed all patient/user TEST data to conform to HSD&D standards and conventions as indicated below: • The first three digits (prefix) of any Social Security Numbers (SSN) start with "000" or "666." • Patient or user names are formatted as follows: KRNPATIENT,[N] or KRNUSER,[N] respectively, where the N is a number written out and incremented with each new entry (e.g., KRNPATIENT, ONE, KRNPATIENT, TWO, etc.). • Other personal demographic-related data (e.g., addresses, phones, IP addresses, etc.) were also changed to be generic. **PDF 508 Compliance**—The final PDF document was recreated and now supports the minimum requirements to be 508 compliant (i.e., accessibility tags, language selection, alternate text for all images/icons, fully functional Web links, successfully passed Adobe Acrobat Quick Check).	Thom Blom, Oakland, CA OIFO

Date	Revision	Description	Author
05/31/06	3.1	Assigning Person Class to Providers Patch Supplement renamed and updated based on Kernel Patch XU*8.0*377 and feedback from developer, Ba Tran. This version also includes content updates as per Elizabeth Franchi. **(i)** **NOTE:** The original Person Class Kernel Patch was XU*8.0*27 released on 08/14//96.	Maintenance Development Team, Oakland, CA OIFO: • Project Manager: Jack Schram • Developer: Ba Tran • SQA: Gurbir Singh • Technical Writer: Thom Blom

Orientation

Manual Organization

This supplemental documentation to the Assigning Person Class to Providers (i.e., Kernel Patches XU*8.0*27 & 377) is organized into three major sections based on the following functional divisions for possible inclusion into the Kernel V. 8.0 documentation at a later date:

1. User Guide—End-user information (e.g., user options and data entry).

2. Developer Guide—Programmer-related information (e.g., APIs).

3. Systems Management Guide—Technical Information for IRM (e.g., implementation and ongoing maintenance information).

How to Use this Manual

Throughout this manual, advice and instructions are offered regarding the use of the Assigning Person Class to Providers and the functionality it provides for Veterans Health Information Systems and Technology Architecture (VistA).

This manual uses several methods to highlight different aspects of the material:

- Various symbols are used throughout the documentation to alert the reader to special information. The following table gives a description of each of these symbols:

Symbol	Description
	NOTE/REF: Used to inform the reader of general information including references to additional reading material
	CAUTION/DISCLAIMER: Used to caution the reader to take special notice of critical information

Table ii. Documentation symbol descriptions

- Descriptive text is presented in a proportional font (as represented by this font).

- Conventions for displaying TEST data in this document are as follows:

  − The first three digits (prefix) of any Social Security Numbers (SSN) will begin with either "000" or "666".

  − Patient and user names will be formatted as follows: [Application Name]PATIENT,[N] and [Application Name]USER,[N] respectively, where "Application Name" is defined in the Approved Application Abbreviations document and "N" represents the first name as a number spelled out and incremented with each new entry. For example, in Kernel (KRN) test patient and user names would be documented as follows: KRNPATIENT,ONE; KRNPATIENT,TWO; KRNPATIENT,THREE; etc.

- "Snapshots" of computer online displays (i.e., roll-and-scroll screen captures/dialogs) and computer source code are shown in a *non*-proportional font and enclosed within a box. Also included are Graphical User Interface (GUI) Microsoft Windows images (i.e., dialogues or forms).

  - User's responses to online prompts will be boldface type.

  - The "**<Enter>**" found within these snapshots indicate that the user should press the Enter or Return key on their keyboard.

  - Author's comments are displayed in italics or as "callout" boxes.

    NOTE: Callout boxes refer to labels or descriptions usually enclosed within a box, which point to specific areas of a displayed image.

- Object Pascal code uses a combination of upper- and lowercase characters. All Object Pascal reserved words are in boldface type.

- All uppercase is reserved for the representation of M code, variable names, or the formal name of options, field and file names, and security keys (e.g., the XUPROGMODE key).

How to Obtain Technical Information Online

Exported file, routine, and global documentation can be generated through the use of Kernel, MailMan, and VA FileMan utilities.

NOTE: Methods of obtaining specific technical information online will be indicated where applicable under the appropriate topic.

REF: Please refer to Section II, "Systems Management Guide," in this manual for further information.

Help at Prompts

Kernel has online help and commonly used system default prompts. Users are strongly encouraged to enter question marks at any response prompt. At the end of the help display, you are immediately returned to the point from which you started. This is an easy way to learn about any aspect of Kernel.

To retrieve online documentation in the form of Help in Kernel:

- Enter a single question mark ("**?**") at a field/prompt to obtain a brief description. If a field is a pointer, entering one question mark ("**?**") displays the HELP PROMPT field contents and a list of choices, if the list is short. If the list is long, the user will be asked if the entire list should be displayed. A YES response will invoke the display. The display can be given a starting point by prefacing the starting point with an up-arrow ("**^**") as a response. For example, **^M** would start an alphabetic listing at the letter M instead of the letter A while **^127** would start any listing at the 127th entry.

- Enter two question marks ("**??**") at a field/prompt for a more detailed description. Also, if a field is a pointer, entering two question marks displays the HELP PROMPT field contents and the list of choices.

- Enter three question marks ("**???**") at a field/prompt to invoke any additional Help text that may be stored in Help Frames.

Obtaining Data Dictionary Listings

Technical information about files and the fields in files is stored in data dictionaries. You can use the List File Attributes option on the Data Dictionary Utilities submenu in VA FileMan to print formatted data dictionaries.

> **REF:** For details about obtaining data dictionaries and about the formats available, please refer to the "List File Attributes" chapter in the "File Management" section of the *VA FileMan Advanced User Manual*.

Assumptions About the Reader

This manual is written with the assumption that the reader is familiar with the following:

- VistA computing environment (e.g., Kernel Installation and Distribution System [KIDS])
- VA FileMan data structures and terminology
- Microsoft Windows
- M programming language

It provides an overall explanation of the use, maintenance, and implementation of the Assigning Person Class to Providers Software and the changes contained in Kernel Patches XU*8.0*27 & 377. However, no attempt is made to explain how the overall VistA programming system is integrated and maintained. Such methods and procedures are documented elsewhere. We suggest you look at the various VA home pages on the World Wide Web (WWW) for a general orientation to VistA. For example, go to the Veterans health Administration (VHA) Office of Information (OI) Health Systems Design & Development (HSD&D) Home Page at the following Web address:

http://vista.med.va.gov/

Reference Materials

I. User Guide

This is the User Guide section of this supplemental documentation for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377). It is intended for use in conjunction with the software patches associated with Assigning Person Class to Providers. It details the user-related documentation associated with the Assigning Person Class to Providers software (e.g., overview of the Assigning Person Class to Providers software), management of the Assigning Person Class to Providers software, etc.).

1. Introduction—Assigning Person Class to Providers

As of October 1996, VHA facilities were required to report each ambulatory encounter and/or ancillary service. Provider, procedure, and diagnosis information is included in the minimum data set reported to the National Patient Care Database (NPCD). The provider information reported is the "Person Class" defined for all providers associated with ambulatory care delivery.

To comply with this requirement, all VA Medical Center (VAMC) providers were assigned a Profession/Occupation code (i.e., Person Class) so that a Person Class could be associated with each ambulatory patient encounter by October 1, 1996.

Kernel Patch XU*8.0*27 was originally developed to provide the functionality that enabled facilities to assign Person Class information. Kernel Patch XU*8.0*377 was developed in order to update the Person Class data and related documentation.

REF: For a list of new, inactivated, and reactivated Person class codes released with Kernel Patch XU*8.0*377, please refer to "Appendix A—New, Inactivated, & Reactivated Person Class Codes" in this manual.

REF: For a list of the latest Provider Taxonomy Codes, please visit the following Web address:

http://www.wpc-edi.com/codes/taxonomy

The Department of Veterans Affairs' (VA) version of this file can be found at the following Web address:

http://vaww.metadata.med.va.gov/docs/PersonClassReport.pdf

2. Entering Person Class Data

Kernel Patches XU*8.0*27 and 377 enable users to enter Person Class data for providers in four easy steps:

Step #1—Identify All Providers—Identify all providers currently associated with the clinics (e.g., physicians, nurses, psychologists, social workers, etc.) for whom you need to enter Person Class information.

Step #2——Assign the appropriate Person Class to each provider associated with the clinics.

Step #3—Enter the Person Class—Enter the Person Class by using the User PC build Edit option for the initial assigning of Person Class information for all providers.

Step #4—Edit Person Class—After initial data entry for your providers, edit the Person Class data for any individual as needed.

These steps are described in greater detail in the topics that follow.

Step #1—Identify All Providers

Identify all providers currently associated with the clinics (e.g., physicians, nurses, psychologists, social workers, etc.) for whom you need to enter Person Class information.

- This is a task that will probably be done only once. It is only needed for the printout of a worksheet to record information on paper for faster data entry later.

- Use the User PC build Print option on your secondary menu to print a list of providers who need to have the Person Class data entered. This option can be assigned to any user. The list includes individuals in the NEW PERSON file (#200) who have been assigned the Provider security key and who have a current Verify Code (i.e., they must both be a Provider and be active on the system). The printout will show the PROVIDER CLASS and PROVIDER TYPE for each individual listed.

Example

If you print to your screen, you will see something similar to the following:

```
Select OPTION NAME: USER PC BUILD PRINT <Enter>  XUSER PC BUILD     User PC build
Print
User PC build Print
DEVICE: <Enter>  TELNET TERMINAL
NEW PERSON PROVIDER LIST                         JAN 23,2006  11:57   PAGE 1
                                                                      PROVIDER
NAME                                 PROVIDER CLASS                   TYPE
--------------------------------------------------------------------------------

KRNUSER,ONE D                        PHYSICIAN                        FULL TIME
KRNUSER,TWO
KRNUSER,THREE L                      DENTIST                          FULL TIME
KRNUSER,FOUR A                       PHARMACIST                       PART TIME
KRNUSER,FIVE W                       PHYSICIAN
KRNUSER,SIX L                        NURSE PRACTITIONER               FULL TIME
```

Figure 2-1. User PC build Print option—Sample user dialogue and report

Step #2—Assigning Person Class to Providers

Assign the appropriate Person Class to each provider associated with the clinics.

Print the Person Class file using FileMan print (Print File Entries option), so that you have the classifications and codes. Like Step #Step #1—Identify All Providers, this step is a one-time task.

Example

```
Select VA FileMan Option: PRINT <Enter> File Entries

OUTPUT FROM WHAT FILE: PERSON CLASS// <Enter>
SORT BY: PROVIDER TYPE// PROVIDER TYPE;S2;C1
     1    PROVIDER TYPE
     2    PROVIDER TYPE CODE
CHOOSE 1-2: 1 <Enter>  PROVIDER TYPE
START WITH PROVIDER TYPE: FIRST// <Enter>
  WITHIN PROVIDER TYPE, SORT BY: <Enter>
FIRST PRINT FIELD: NUMBER
THEN PRINT FIELD: AREA OF SPECIALIZATION;W25;"SPECIALTY"
     1    AREA OF SPECIALIZATION
     2    AREA OF SPECIALIZATION CODE
CHOOSE 1-2: 1 <Enter>  AREA OF SPECIALIZATION
THEN PRINT FIELD: AREA OF SPECIALIZATION CODE;W5;"SPECIALTY CODE"
THEN PRINT FIELD: VA CODE
THEN PRINT FIELD: X12 CODE
THEN PRINT FIELD: STATUS;L8
THEN PRINT FIELD: <Enter>
Heading (S/C): PERSON CLASS LIST// <Enter>
STORE PRINT LOGIC IN TEMPLATE: <Enter>
DEVICE: <Enter>  Telnet Terminal    Right Margin: 80// <Enter>
```

> Enter your device choice here (e.g., the terminal, a printer identifier, etc.).

Figure 2-2. Printing the Person Class List—Sample user dialogue

For display purposes, the following report has been abbreviated:

```
PERSON CLASS LIST                              JAN 23,2006  12:09    PAGE 1
  NUMBER  SPECIALTY                SPECIALTY CODE         VA CODE  X12 CODE
  STATUS
-----------------------------------------------------------------------------

PROVIDER TYPE: Allopathic and Osteopathic Physicians
     144                          00000      V115500  390200000X  Active

Report entries skipped here.

Figure 2-3. Person Class List—Sample report

To print only the Classification codes, do the following:

```
Select VA FileMan Option: PRINT <Enter> File Entries

OUTPUT FROM WHAT FILE: PERSON CLASS// <Enter>
SORT BY: PROVIDER TYPE// CLASSIFICATION
     1    CLASSIFICATION
     2    CLASSIFICATION CODE
CHOOSE 1-2: 2 <Enter>  CLASSIFICATION CODE
START WITH CLASSIFICATION CODE: FIRST// <Enter>
  WITHIN CLASSIFICATION CODE, SORT BY: <Enter>
FIRST PRINT FIELD: CLASSIFICATION CODE;N
THEN PRINT FIELD: <Enter>
Heading (S/C): PERSON CLASS LIST// <Enter>
DEVICE: <Enter>  Telnet Terminal     Right Margin: 80// <Enter>
```

Enter your device choice here (e.g., the terminal, a printer identifier, etc.).

Figure 2-4. Printing the Classification codes—Sample user dialogue

Step #3—Enter the Person Class

Enter the Person Class by using the User PC build Edit option for the initial assigning of Person Class information for all providers.

- The data input task is a simple one and can be assigned to anyone who will perform this task. Users should use the User PC build Edit option, which is a rapid data entry capable option.

- The provider classification system or taxonomy adopted by VHA is hierarchical and classifies providers into aggregate groupings:

  - Services

  - Provider Types

  - Areas of Specialization or Focus

  The taxonomy represents a one-to-many relationship to the individual provider. Many occurrences of the taxonomy may apply to a single provider. For example, a provider who trains in Internal Medicine and specializes in Cardiology may appear with specialties in both Internal Medicine and Cardiology (two occurrences of the taxonomy relating to one provider). VHA assigns only one Person Class to each provider, and in the example above, Cardiology would be the assigned Person Class as it is the most specific.

- This function allows only one active provider type during any one period of time.

- You do *not* have to enter a Person Class code for inactive providers.

- If the Enter on Duty Date is known, it should be entered in the Effective Date field. If the Enter on Duty Date is *not* known and the individual has been at the facility at least a year, we suggest that you enter a date one year prior to the current date.

- When you add a new Person Class entry to a provider who already has one defined, it is not necessary to enter the expiration date of the previous Person Class. The program automatically inserts the effective date of the new Person Class as the previous Expiration date.

Example

Select the User PC build Edit option on your secondary menu and enter the name of the individual for whom you want to add or edit Person Class.

```
User PC build Edit

Select NEW PERSON NAME: KRNUSER,TWO <Enter>      TK
Select Person Class: <Enter>
```

Figure 2-5. User PC build Edit option—Sample user dialogue

If you enter a single question mark ("**?**"), the dialogue shows the following help message:

```
Select Person Class: ?
        You may enter a new PERSON CLASS, if you wish
        Don't allow Inactive entries to be selected.

 Answer with PERSON CLASS NUMBER, or PROVIDER TYPE, or CLASSIFICATION, or
     AREA OF SPECIALIZATION, or VA CODE, or X12 CODE
 Do you want the entire PERSON CLASS List?
```

Figure 2-6. User PC build Edit option help—Sample user dialogue

If you say Yes to the prompt "Do you want the entire PERSON CLASS List?" in Figure 2-6, the program will display all Person Class categories, as shown below:

```
 Do you want the entire PERSON CLASS List? Y <Enter>  (Yes)
   Choose from:
   144         Allopathic and Osteopathic Physicians
                    Resident, Allopathic (includes Interns, Residents, Fellows)
   145         Allopathic and Osteopathic Physicians
                    Resident, Osteopathic (includes Interns, Residents, Fellows)
   180         Podiatric Medicine and Surgery Service Providers
                    Assistant, Podiatric
   181         Podiatric Medicine and Surgery Service Providers
                    Podiatrist
   185         Podiatric Medicine and Surgery Service Providers
                    Podiatrist
                        Foot and Ankle Surgery
 .
 .                                          Report entries skipped here.
 .
   501         Other Service Providers
                    Homeopath
   504         Other Service Providers
                    Midwife, Lay
   505         Other Service Providers
                    Naturopath
   512         Behavioral Health and Social Service Providers
                    Psychologist
                        Addiction (Substance Use Disorder)
 Select Person Class:
```

Figure 2-7. Sample Person Class categories list (abbreviated)

The easiest way to do data entry is to enter the number of the Person Class category, as shown below:

```
 Select Person Class: <Enter>

 Select NEW PERSON NAME: krnuser <Enter> ,TWO         TK
 Select Person Class: 144 <Enter>  Allopathic and Osteopathic Physicians
                    Resident, Allopathic (includes Interns, Residents, Fellows)
         ...OK? Yes// <Enter>  (Yes)

   Are you adding 'Allopathic and Osteopathic Physicians' as
     a new PERSON CLASS (the 1ST for this NEW PERSON)? No// Y <Enter>  (Yes)
   Effective Date: DEC 8,2005// <Enter>
   Expiration Date: <Enter>
```

Figure 2-8. Entering a Person Class category—Sample user dialogue

Step #4—Edit Person Class

After initial data entry for your providers, edit the Person Class data for any individual as needed.

- There are three options that can be used to edit Person Class data:
  - Person Class Edit option [XU-PERSON CLASS EDIT]
  - User PC build Edit option [XUSER PC BUILD EDIT], as in Step #3—Enter the Person Class
  - Edit an Existing User option [XUSEREDIT] on the User Management menu [XUSER], locked with the XUPROG security key.

- We recommend using the Person Class Edit option [XU-PERSON CLASS EDIT]. Once the Person Class has been entered for any provider, you can enter an additional or new Person Class by using the Person Class Edit option.

- Previous entries *must* remain on file for historical and legal purposes. You *cannot* delete or replace old entries. That is, you *cannot* modify the Person Class field itself; you may, however, change the Effective or Expired Date.

- When you add a new entry to a provider who already has a Person Class entered, it is not necessary to enter the Expired Date for the previous Person Class. The software automatically inserts the Effective Date of the new Person Class as the Expired Date of the previous Person Class.

Example

Select the Person Class Edit option [XU-PERSON CLASS EDIT] from your menu and you will see the following prompt:

```
Select NEW PERSON NAME:
```

Figure 2-9. Person Class Edit option—Sample user dialogue (1 of 2)

Enter the name of the provider whose Person Class data you wish to edit after the "Select NEW PERSON NAME:" prompt, as shown below:

```
Select NEW PERSON NAME: Krnuser,Two
```

Figure 2-10. Person Class Edit option—Sample user dialogue (2 of 2)

You next see the Edit of Person Class ScreenMan form, as shown below:

```
                        Edit of Person Class

    Laboratory Management, Diplomate

                                      Press <PF1>H for help        Insert
```

Figure 2-11. Edit of Person Class ScreenMan form—Sample user dialogue (1 of 2)

In this case, the user has two assigned Person Classes. Use the arrow or tab keys to select the Person Class data line you wish to edit. Once the line is highlighted, expanded descriptive text for that Person Class appears near the bottom of the screen. If you want to add a new Person Class, tab to the first blank Person Class line and type the name or the number of the specialty.

```
                        Edit of Person Class

NAME: KRNUSER,TWO
_____

Person Class                                       Effective    Expired
 Technologists, Technicians & Other Tec            DEC 7,2005   JAN 7,2006
 Emergency Medical Service Providers               JAN 1,2006   JAN 7,2007
 501

_____

Are you adding 'Other Service Providers' as
    a new PERSON CLASS? No// <Enter>
```

Figure 2-12. Edit of Person Class ScreenMan form—Sample user dialogue (2 of 2)

The message at the bottom of the screen (Figure 2-12) confirms that you want to add a new Person Class. If you answer YES, the screen will show that specialty under Person Class and will insert today's date in the Effective date field. You can edit that date or leave at is and then tab over to the Expired date field of the Person Class.

Deactivate/Reactivate a User

IRM has options to deactivate and reactivate a user on the system:

- Reactivate a User option [XUSERREACT]
- Deactivate a User option [XUSERDEACT]

These options are both located on the User Management menu. They are used when a provider leaves or returns to a VA site.

For example, when someone, such as a medical student, rotates out, IRM deactivates their account via the Deactivate a User option [XUSERDEACT]. The Reactivate a User option [XUSERREACT] gives IRM the opportunity to edit a provider's Person Class information. If the provider rotates in again, their Person Class information can be updated when they are reactivated.

II.   Developers Guide

This is the Developers Guide section of this supplemental documentation for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377). It is intended for use in conjunction with the software patches associated with Assigning Person Class to Providers. It details the programmer-related documentation associated with the Assigning Person Class to Providers software (e.g., APIs exported).

3. Application Program Interfaces (APIs)

$$GET^XUA4A72(): Get Specialty and Subspecialty for a User

Reference Type	Supported
Category	User
IA #	1625
Description	This API was exported with Kernel Patch XU*8.0*27. This extrinsic function returns the "IEN^Profession^Specialty^Sub-specialty^Effect date^Expired date^VA code" for the person identified by the DUZ in effect on the date passed in, in internal VA FileMan format (TODAY if no date passed in). It returns:

    -1—If DUZ does not point to a valid user or user has never had a Person Class assigned.

    -2—If no active Person Class on that date.

This API was made available with Kernel Patch XU*8.0*27.

Format	`$$GET^XUA4A72(duz[,date])`

Input Parameters	duz:	(required) Internal Entry Number (IEN) for the person being checked in the NEW PERSON file (#200).
	date:	(optional) Date in internal VA FileMan format, to indicate effective date for determination.
Output	returns:	Returns:

        -1—If DUZ does not point to a valid user or user has never had a Person Class assigned.

        -2—If no active Person Class on that date.

$$IEN2CODE^XUA4A72(): Get VA Code

Reference Type	Supported
Category	User
IA #	1625
Description	This API was exported with Kernel Patch XU*8.0*27. This extrinsic function returns the VA CODE from the PERSON CLASS file (#8932.1) that corresponds to the Internal Entry Number (IEN) passed in. If the IEN passed in does *not* match a valid entry in the PERSON CLASS file (#8932.1), an empty string is returned.
Format	`$$IEN2CODE^XUA4A72(ien)`
Input Parameters	ien: (required) Internal Entry Number (IEN) in the PERSON CLASS file (#8932.1).
Output	returns: Returns the VA CODE.

III.   Systems Management Guide

This is the Systems Management Guide section of this supplemental documentation for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377). It is intended for use in conjunction with the software patches associated with Assigning Person Class to Providers. It details the technical-related documentation associated with the Assigning Person Class to Providers software (e.g., implementation and maintenance for Assigning Person Class to Providers, routines, files, options, interfaces, product security, etc.).

4. Implementation and Maintenance

Information throughout this manual is meant to help IRM in the implementation and maintenance for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377).

Installation

Follow the appropriate patch installation instructions for Kernel Patches XU*8.0*27 and 377 on FORUM.

Namespace

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) consists of VistA M Server patches that have been assigned to the Kernel namespace (i.e., **XU**):

Files

The following file is exported with the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377). This file was released with Kernel Patch XU*8.0*27.

File Number	File Name	Global Reference	Description
8932.1	PERSON CLASS	^USC(8932.1,	This file contains the Health Care Financing Administration (HCFA) National Provider System Taxonomy of Professions/Occupations. This is a static file and is not expected to grow appreciably in the near future.

Table 4-1. File list—NEW PERSON file (#200, Kernel Patch XU*8.0*27)

REF: For the fields associated with the PERSON CLASS file (#8932.1), please refer to Table 4-2 in this chapter.

REF: For the file security associated with the PERSON CLASS file (#8932.1), please refer to the "File Security" topic in Chapter 5, "Software Product Security" in this manual.

Fields

The PERSON CLASS file (#8932.1) contains the Health Care Financing Administration (HCFA) taxonomy that reflects provider type. It contains the following fields:

Field #	Field Name	Description
.001	NUMBER	This is a number field to allow adding new entries by number.
.01	PROVIDER TYPE	This is Level I of the National Uniform Claim Committee (NUCC) structure of the Provider Taxonomy.
		For more information on the NUCC, please visit the NUCC Web site located at the following Web address:
		http://www.nucc.org/
.011	PROVIDER TYPE CODE	This is Level I, Provider Type—2-byte alphanumeric, consisting of the 1st and 2nd characters of X12 CODE: A code that identifies a major grouping of service(s) or occupation(s) of health care providers.
1	CLASSIFICATION	This is the CMS (X12) Classification (Level II).
1.1	CLASSIFICATION CODE	This is Level II, Classification Code—2-byte alphanumeric consisting of the 3rd and 4th characters of the X12 CODE: A code that identifies more specific services(s) or occupation(s) within the health care provider type. The coding is based on licensed provider classifications.
2	AREA OF SPECIALIZATION	This is Level III in NUCC's structure of the Provider Taxonomy. It is the most specific, but sometimes defines a "sub-category" of Classification.
2.1	AREA OF SPECIALIZATION CODE	This is Level III, Area of Specialization—5-byte alphanumeric consisting of the 5th through 9th characters of the X12 CODE: A code that identifies the provider's specialization, a segment of the population that a health care provider chooses to service, a specific medical service, a specialization in treating a specific disease, or any other descriptive characteristic about the providers practice relating to the services rendered.
3	STATUS	This field will allow old entries to be disabled without removing them from the table.
4	DATE INACTIVATED	This field holds the date that this Provider Class was inactivated.
5	VA CODE	This field holds the 7-character VA assigned code for national rollup.
6	X12 CODE	This is the code assigned by American National Standards Institute (ANSI) X12. X12 published the joint X12N and Centers for Medicare & Medicaid

Field #	Field Name	Description
		Service (CMS) Health Care Provider Taxonomy following the June 1997 X12 meeting.
		NOTE: ANSI X12 subcommittee N covers standards in the insurance industry, including health insurance; hence these are X12N standards.
		"X12N standards include transactions for claims/encounters, attachments, enrollment, disenrollment, eligibility, payment/remittance advice, premium payments, first report of injury, claim status, referral certification/authorization, and coordination of benefits."1
		NOTE: A revised ANSI X12N 837 Professional Health Care Claim Companion Document was created in 2005.
7	RESERVED	This field is only used with a conversion routine for updates to the file. Any data is only used by an update routine.
8	SPECIALTY CODE	This field holds the specialty code associated with the classification.
11	DEFINITION	This field holds a definition of the AREA OF SPECIALIZATION field.
90002	INDIVIDUAL/NON	This field indicates whether the entry is for an Individual or for a Non-Individual, and was added at the request of Indian Health Service (IHS) in their namespace, until the file supporting Non-Individuals can be defined.
		Currently, the X12 CODE definition does not explicitly indicate whether an entry is for an Individual or for a Non-Individual, either in value or structure definition.

Table 4-2. Field List—PERSON CLASS file (#8932.1, Kernel Patch XU*8.0*27)

➢ _____

1 Excerpt taken from the "" topic on the University of Miami; Miller School of Medicine Web site: http://privacy.med.miami.edu/glossary/xd_x12n.htm, last modified May 11, 2005 (RC)

The following field was exported with the Assigning Person Class to Providers software (i.e., Kernel Patch XU*8.0*27):

File Number	File Name	Field Name and Number	Description
200	NEW PERSON	PERSON CLASS field (#.05)	This is a Multiple field. It includes the following subfields: • NUMBER (#.001) • PERSON CLASS (#.01)—Pointer to the PERSON CLASS file (#8932.1) • EFFECTIVE DATE (#2)—The date the PERSON CLASS became effective. • EXPIRATION DATE (#3)—The date the PERSON CLASS is no longer valid. Kernel Patch XU*8.0*27 added the PERSON CLASS field to the following Kernel options: • XUSEREDIT—Edit an Existing User • XUSERNEW—Add a New User to the System • XUSERREACT—Reactivate a User

Table 4-3. Field List—Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 & 377)

Global Mapping, Journaling, and Protection

.There are *no* special global mapping/translation, journaling, and protection instructions for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377).

> **NOTE:** The file PERSON CLASS is in global ^USC. Please be sure to place this global and add it to your translation tables. This is a static file.

Routine(s)

This topic contains a list of the VistA routines exported with the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377). A brief description of each routine is provided.

Routine Name	Routine Description
XU8P377	This routine was exported with Kernel Patch XU*8.0*377. This routine inactivates old Person Class entries.
XU8P377D	This routine was exported with Kernel Patch XU*8.0*377. This routine lists all users that will have their Person Class inactivated by Kernel Patch XU*8.0*377. In the report, the column DISUSER will indicate either of the following: • NO—An active user account. • YES—A non-active user account. Sites must manually update the new Person Class entries for these users.
XUA4A72	This routine was exported with Kernel Patch XU*8.0*27. This routine provides the Person Class APIs. ⓘ For more information on the Person Class APIs, please refer to the Chapter 3, "Application Program Interfaces (APIs)," in this manual.

Table 4-4. Routine list—Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 & 377)

Exported Options

The following options are exported with the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377, listed alphabetically):

Option Name	Option Text	Option Description
XU-PERSON CLASS EDIT	Person Class Edit	This option is located under the User Management menu [XUSER]. This option only allows entry of Person Class data and can be given to any user who needs to edit this data.
XUSER PC BUILD	User PC build Print	This option is used to print the entries of the individuals in the NEW PERSON file (#200) who hold the Provider key *and* have a Verify Code. It prints the following fields: • NAME • PERSON CLASS (Free Text) • PROVIDER TYPE (Set of Codes). **NOTE:** The last two fields may only contain data at sites that have implemented the Decision Support System (DSS). This option is *not* attached to a menu but can be added to the secondary menu of any user who will be working on this project and then removed when the project is complete.
XUSER PC BUILD EDIT	User PC build Edit	This option allows rapid data entry of Person Class data. This option is *not* attached to a menu but can be added to the secondary menu of a user who will be performing data entry and then removed when the project is complete.

Table 4-5. Exported options—Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 & 377)

Archiving and Purging

There are *no* special archiving or journaling instructions for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377).

Callable Routines

There are *no* callable VistA M Server routines exported with the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377).

External Relations

VistA Software Requirements

Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) relies on the following VistA software to run effectively (listed alphabetically):

Software	Version	Description
Kernel	8.0	Server software—Fully patched.
Kernel Toolkit	7.3	Server software—Fully patched.
VA FileMan	22.0	Server software—Fully patched.

Table 4-6. External Relations—VistA software

NOTE: There are *no* other Commercial-Off-The-Shelf (COTS; *non*-VA) products embedded in or requiring special interfaces by the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377), other than those provided by the underlying operating systems.

DBA Approvals and Database Integration Agreements

The Database Administrator (DBA) maintains a list of Integration Agreements (IAs) or mutual agreements between software developers allowing the use of internal entry points or other software-specific features that are not available to the general programming public.

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) is *not* dependent on any specific agreements. However, the Kernel software itself does have IAs.

To obtain the current list of IAs, if any, to which Kernel is a custodian:

1. Sign on to the FORUM system (forum.va.gov).
2. Go to the DBA menu [DBA].
3. Select the Integration Agreements Menu option [DBA IA ISC].
4. Select the Custodial Package Menu option [DBA IA CUSTODIAL MENU].
5. Choose the ACTIVE by Custodial Package option [DBA IA CUSTODIAL].
6. When this option prompts you for a package, enter **KERNEL**.
7. All current IAs to which the software is a custodian are listed.

To obtain detailed information on a specific integration agreement:

1. Sign on to the FORUM system (forum.va.gov).
2. Go to the DBA menu [DBA].
3. Select the Integration Agreements Menu option [DBA IA ISC].
4. Select the Inquire option [DBA IA INQUIRY].
5. When prompted for "INTEGRATION REFERENCES," enter the specific integration agreement number of the IA you would like to display.
6. The option then lists the full text of the IA you requested.

To obtain the current list of IAs, if any, to which Kernel is a subscriber:

1. Sign on to the FORUM system (forum.va.gov).
2. Go to the DBA menu [DBA].
3. Select the Integration Agreements Menu option [DBA IA ISC].
4. Select the Subscriber Package Menu option [DBA IA SUBSCRIBER MENU].
5. Choose the Print ACTIVE by Subscribing Package option [DBA IA SUBSCRIBER].
6. When prompted with "START WITH SUBSCRIBING PACKAGE," enter **KERNEL** (in uppercase). When prompted with "GO TO SUBSCRIBING PACKAGE," enter **KERNEL** (in uppercase).
7. All current IAs to which the software is a subscriber are listed.

Internal Relations

Relationship of Assigning Person Class to Providers Software (i.e., Kernel Patches XU*8.0*27 and 377) with the VistA M Server

Namespace

Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) consists of VistA M Server patches that have been assigned to the Kernel namespace (i.e., **XU**).

Kernel V. 8.0

In order to use the Assigning Person Class to Providers software, the following Kernel patches *must* be installed (listed in patch number order):

- VistA M Server Patch—XU*8.0*27
- VistA M Server Patch—XU*8.0*377

Software-wide and Key Variables

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) does *not* employ the use of software-wide or key variables on the VistA M Server.

SACC Exemptions

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) does *not* have any Programming Standards and Conventions (SAC) exemptions.

5. Software Product Security

Security Management

There are *no* special legal requirements involved in the use for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377).

Mail Groups, Alerts, and Bulletins

Mail Groups

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) does *not* create or utilize any specific mail groups.

Alerts

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) does *not* make use of alerts.

Bulletins

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) does *not* make use of bulletins.

Remote Access/Transmissions

Interfaces

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) allows for interfaces with all of the VistA Clinical Software developed in-house. It also allows for interfaces with the QuadraMed Encoder Product Suite, which is a Commercial-Off-The-Shelf (COTS; *non*-VA) software product.

REF: For more information on QuadraMed products, please refer to the QuadraMed Web site at the following Web address:

http://www.quadramed.com

Electronic Signatures

There are *no* electronic signatures used within the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377).

Security Keys

There are no VistA M Server security keys *directly* exported with the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377).

File Security

The following file is exported with the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377). This file was released with Kernel Patch XU*8.0*27. This file has the following file security:

Number	Name	DD	WR	DEL	LAYGO	AUDIT
8932.1	PERSON CLASS	@	^	@	^	@

Table 5-1. File security

Contingency Planning

All sites should develop a local contingency plan to be used in the event of software/hardware problems in a production (live) environment. The contingency plan must identify the procedure for maintaining functionality provided by this software in the event of system outage.

Official Policies

There are *no* special legal requirements involved in the use for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377).

User should refer to VHA Directive 2005-059, which redefines established policy for assigning Person Class codes to providers in the Veterans Health Information Systems and Technology Architecture (VistA) NEW PERSON File.

REF: VHA Directive 2005-059 is available at the following Web address:

http://www1.va.gov/vhapublications/ViewPublication.asp?pub_ID=60

Distribution for the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27 and 377) is unrestricted.

HCFA Provider Codes

The Health Care Financing Administration (HCFA) provider classification system or taxonomy adopted by VHA is hierarchical and classifies providers into aggregate groupings:

- Services

- Provider types

- Areas of specialization or focus

The taxonomy represents a one-to-many relationship to the individual provider. Many occurrences of the taxonomy may apply to a single provider. For example, a provider who trains in Internal Medicine and specializes in Cardiology may appear with specialties in both Internal Medicine and Cardiology (two occurrences of the taxonomy relating to one provider). VHA assigns only one-Person Class to each provider, and in the example above, Cardiology would be the assigned Person Class as it is the more specific.

The PERSON CLASS Multiple field (200.05#) in the NEW PERSON file (#200) contains entries that reflect the assignment of HCFA taxonomy to providers. Each entry contains three data elements:

- PERSON CLASS field (#.01)—Pointer to PERSON CLASS file (#8932.1).

- EFFECTIVE DATE field (#.02)—Date the code took effect.

- EXPIRATION DATE field (#.03)—Date the code ceased/expired/was replaced.

Entry of a new person in the NEW PERSON file (#200) will ask for input of the aforementioned multiple, the current occupation/profession. Entering a history is optional.

Deactivate/Reactivate a User

The Reactivate option on the User Management menu, used when a provider returns to a VA site (e.g., a medical student), gives the IRM staff the opportunity to edit the Person Class information. For example, when someone, such as a medical student, rotates out, they are deactivated. If they rotate in again, their Person Class information can be updated when they are reactivated.

IRM Edits of Person Class Data

If an IRM staff member is to edit the Person Class data, they should use the Edit an Existing User option on the User Management menu. Person Class data is on the third screen, as shown below:

```
NAME: KRNUSER,THREE                                           Page 3 of 3

Appendix A—New, Inactivated, & Reactivated Person Class Codes

This appendix contains a list of the new, inactivated, and reactivated Person Class codes as of Kernel Patch XU*8.0*377 (released on 10/24/05).

- New Person Class Codes
- Inactivated Person Class Codes
- Reactivated Person class Codes

New Person Class Codes

The following table lists all *new* Person Class codes released with Kernel Patch XU*8.0*377 (released on 10/24/05):

IEN	Status	VHA Code	NUCC Code	Provider Type	Classification	Specialization	CMS Specialty Code
735	Active	V010421	103TP0814X	Behavioral Health and Social Service Providers	Psychologist	Psychoanalysis	
736	Active	V030510	1223X0008X	Dental Providers	Dentist	Oral and Maxillofacial Radiology	30
737	Active	V050500	146D00000X	Emergency Medical Service Providers	Personal Emergency Response Attendant		
738	Active	V060807	152WC0802X	Eye and Vision Services Providers	Optometrist	Corneal and Contact Management	41
739	Active	V070807	167G00000X	Nursing Service Providers	Licensed Psychiatric Technician		
740	Active	V080502	171WV0202X	Other Service Providers	Contractor	Vehicle Modifications	
741	Active	V082300	177F00000X	Other Service Providers	Lodging		
742	Active	V090300	183700000X	Pharmacy Service Providers	Pharmacy Technician		

IEN	Status	VHA Code	NUCC Code	Provider Type	Classification	Specialization	CMS Specialty Code

Table A-1. New Person Class codes with Kernel Patch XU*8.0*377

Inactivated Person Class Codes

The following table list all inactivated Person Class codes released with Kernel Patch XU*8.0*377 (released on 10/24/05):

IEN	VHA Code	X12 Code	Provider Type	Classification	Specialization	Date Inactivated
359	V010300	103S00000N	Behavioral Health and Social Service	Psychoanalyst		7/1/2005
360	V010301	103SA1800N	Behavioral Health and Social Service	Psychoanalyst	Affiliate	7/1/2005
361	V010302	103SA1400N	Behavioral Health and Social Service	Psychoanalyst	Associate	7/1/2005
335	V040100	1327D0700N	Dietary and Nutritional Service	Dietary Manager	Dietary Management	7/1/2005
233	V060801	152WC0800N	Eye and Vision Services	Optometrist	Contact Lens	7/1/2005
309	V070935	163WX1000N	Nursing Service	Registered Nurse	Operating Room	7/1/2005
320	V070946	163WP2200N	Nursing Service	Registered Nurse	Post-Anesthesia	7/1/2005
680	V082200	173W00000X	Other Service	Registered Nurse		7/1/2005
252	V090200	1847P3400N	Pharmacy Service	Technician	Pharmacy	7/1/2005
684	V090201	184700000X	Pharmacy Service	Technician		7/1/2005
537	V100316	364SN0004N	Physician Assistants & Advanced Practice Nursing	Clinical Nurse Specialist	Neonatal, High-Risk	7/1/2005
549	V100332	364SR1300N	Physician Assistants & Advanced Practice Nursing	Clinical Nurse Specialist	Rural Health	7/1/2005
561	V100612	363LP0223N	Physician Assistants & Advanced Practice Nursing	Nurse Practitioner	Pediatrics: Acute Care	7/1/2005
1	V110000	203B00000N	Physicians (M.D. and D.O.)	Physician/Osteopath		7/1/2005
2	V110100	203BA0401N	Physicians (M.D. and D.O.)	Physician/Osteopath	Addiction Medicine	7/1/2005

IEN	VHA Code	X12 Code	Provider Type	Classification	Specialization	Date Inactivated
5	V110200	203BA0200N	Physicians (M.D. and D.O.)	Physician/Osteopath	Allergy	7/1/2005
3	V110300	203BA0201Y	Physicians (M.D. and D.O.)	Physician/Osteopath	Allergy & Immunology	7/1/2005
4	V110301	203BI0005N	Physicians (M.D. and D.O.)	Physician/Osteopath	Immunology, Clinical & Laboratory: Allergy & Immunology	7/1/2005
6	V110400	203BA0300Y	Physicians (M.D. and D.O.)	Physician/Osteopath	Anesthesiology	7/1/2005
