How to Use this Manual

Throughout this *Assigning Person Class to Providers User Guide* (i.e., Patch Supplement for Kernel Patches XU*8.0*27, 377, and 531), advice and instructions are offered regarding the use of the Assigning Person Class to Providers and the functionality it provides for Veterans Health Information Systems and Technology Architecture (VistA).

REF: Consult the Kernel documents for the following information related to the Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27, 377, and 531):

- *Kernel Technical Manual*—Implementation and maintenance for Assigning Person Class to Providers (e.g., routines, files, options, interfaces, software product security)
- *Kernel Developer's Guide*—Application Program Interfaces (APIs).

All Kernel documentation is available on the VA Software Document Library (VDL) at: <http://www.va.gov/vdl/application.asp?appid=10>

Intended Audience

The intended audience of this manual is the following stakeholders:

- Users responsible for assigning person class to providers.
- Product Development (PD)—VistA legacy development teams.
- Information Resource Management (IRM)—System administrators at Department of Veterans Affairs (VA) sites who are responsible for computer management and system security on the VistA M Servers.
- Product Support (PS)—Personnel who support Kernel-related products.

Legal Requirements

CAUTION: To protect the security of VistA systems, distribution of this software for use on any other computer system by VistA sites is prohibited. All requests for copies of Kernel and Kernel-related products for non-VistA use should be referred to the VistA site's local Office of Information Field Office (OIFO).

Otherwise, there are no special legal requirements involved in the use of Kernel.

Disclaimers

This manual provides an overall explanation of the use, maintenance, and implementation of the Assigning Person Class to Providers software (Kernel Patches XU*8.0*27, 377, and 531); however, no attempt is made to explain how the overall VistA programming system is integrated and maintained. Such methods and procedures are documented elsewhere. We suggest you look at the various VA home pages on the Internet and VA Intranet for a general orientation to VistA. For example, go to the Office of Information and Technology (OIT) VistA Development Intranet Website.

DISCLAIMER: The appearance of any external hyperlink references in this manual does not constitute endorsement by the Department of Veterans Affairs (VA) of this Website or the information, products, or services contained therein. The VA does not exercise any editorial control over the information you may find at these locations. Such links are provided and are consistent with the stated purpose of this VA Intranet Service.

Documentation Conventions

This manual uses several methods to highlight different aspects of the material:

- Various symbols are used throughout the documentation to alert the reader to special information. The following table gives a description of each of these symbols:

Table 2. Documentation symbol descriptions

Symbol	Description
	NOTE/REF: Used to inform the reader of general information including references to additional reading material.
	CAUTION/RECOMMENDATION/DISCLAIMER: Used to caution the reader to take special notice of critical information.

- Descriptive text is presented in a proportional font (as represented by this font).
- Conventions for displaying TEST data in this document are as follows:
 - The first three digits (prefix) of any Social Security Numbers (SSN) will begin with either "000" or "666".
 - Patient and user names will be formatted as follows: [Application Name]PATIENT,[N] and [Application Name]USER,[N] respectively, where "Application Name" is defined in the

Approved Application Abbreviations document and "N" represents the first name as a number spelled out and incremented with each new entry. For example, in Kernel (KRN) test patient and user names would be documented as follows: KRNPATIENT,ONE; KRNPATIENT,TWO; KRNPATIENT,THREE; etc.

- "Snapshots" of computer commands and online displays (i.e., screen captures/dialogues) and computer source code, if any, are shown in a *non*-proportional font and may be enclosed within a box.
- Sample HL7 messages, "snapshots" of computer online displays (i.e., roll-and-scroll screen or character-based screen captures/dialogues) and computer source code, if any, are shown in a *non*-proportional font and enclosed within a box.
- User's responses to online prompts will be **bold** typeface and highlighted in yellow (e.g., **<Enter>**).
- Emphasis within a dialogue box will be **bold** typeface and highlighted in blue (e.g., **STANDARD LISTENER: RUNNING**).
- Some software code reserved/key words will be **bold** typeface with alternate color font.
- References to "**<Enter>**" within these snapshots indicate that the user should press the **<Enter>** key on the keyboard. Other special keys are represented within < > angle brackets. For example, pressing the **PF1** key can be represented as pressing **<PF1>**.
- Author's comments are displayed in italics or as "callout" boxes.

NOTE: Callout boxes refer to labels or descriptions usually enclosed within a box, which point to specific areas of a displayed image.

- This manual refers to the M programming language. Under the 1995 American National Standards Institute (ANSI) standard, M is the primary name of the MUMPS programming language, and MUMPS will be considered an alternate name. This manual uses the name M.
- Descriptions of direct mode utilities are prefaced with the standard M ">" prompt to emphasize that the call is to be used *only in direct mode*. They also include the M command used to invoke the utility. The following is an example:

```
>D ^XUP
```
- All uppercase is reserved for the representation of M code, variable names, or the formal name of options, field/file names, and security keys (e.g., the XUPROGMODE security key).

Documentation Navigation

This document uses Microsoft® Word's built-in navigation for internal hyperlinks. To add **Back** and **Forward** navigation buttons to your toolbar, do the following:

1. Right-click anywhere on the customizable Toolbar in Word 2007 (not the Ribbon section).
2. Select **Customize Quick Access Toolbar** from the secondary menu.
3. Press the drop-down arrow in the "Choose commands from:" box.
4. Select **All Commands** from the displayed list.
5. Scroll through the command list in the left column until you see the **Back** command (green circle with arrow pointing left).
6. Click/Highlight the **Back** command and press **Add** to add it to your customized toolbar.
7. Scroll through the command list in the left column until you see the **Forward** command (green circle with arrow pointing right).
8. Click/Highlight the Forward command and press **Add** to add it to your customized toolbar.
9. Press **OK**.

You can now use these **Back** and **Forward** command buttons in your Toolbar to navigate back and forth in your Word document when clicking on hyperlinks within the document.

NOTE: This is a one-time setup and will automatically be available in any other Word document once you install it on the Toolbar.

How to Obtain Technical Information Online

Exported VistA M Server-based software file, routine, and global documentation can be generated through the use of Kernel, MailMan, and VA FileMan utilities.

NOTE: Methods of obtaining specific technical information online will be indicated where applicable under the appropriate section.

REF: For further information, see the *Kernel Technical Manual*.

Help at Prompts

VistA M Server-based software provides online help and commonly used system default prompts. Users are encouraged to enter question marks at any response prompt. At the end of the help display, you are

immediately returned to the point from which you started. This is an easy way to learn about any aspect of VistA M Server-based software.

Obtaining Data Dictionary Listings

Technical information about VistA M Server-based files and the fields in files is stored in data dictionaries (DD). You can use the List File Attributes option on the Data Dictionary Utilities submenu in VA FileMan to print formatted data dictionaries.

REF: For details about obtaining data dictionaries and about the formats available, see the "List File Attributes" chapter in the "File Management" section of the *VA FileMan Advanced User Manual*.

Assumptions

This manual is written with the assumption that the reader is familiar with the following:

- VistA computing environment:
 - Kernel—VistA M Server software
 - VA FileMan data structures and terminology—VistA M Server software
- Microsoft Windows environment
- M programming language

Reference Materials

Readers who wish to learn more about Kernel should consult the following:

- *Assigning Person Class to Providers, Supplement to Patch Description (Kernel Patches XU*8.0*27, 377, and 531)* (this manual)
- *Kernel Release Notes*
- *Kernel Installation Guide*
- *Kernel Systems Management Guide*
- *Kernel Developer's Guide*
- *Kernel Technical Manual*
- *Kernel Security Tools Manual*
- Kernel VA Intranet Website

This site contains other information and provides links to additional documentation.

Orientation

- The Health Information Management team maintains the PERSON CLASS file (#8932.1) and updates to related documents, such as the Department of Veterans Affairs' (VA) version of the Person Class Taxonomy Codes.
- VHA DIRECTIVE 2012-003; January 12, 2012: Person Class File Taxonomy:
http://www.va.gov/vhapublications/ViewPublication.asp?pub_ID=2477
(Document/link maintained on the VHA Forms, Publications and Record Management website.)
- Washington Publishing Company (WPC) Code Lists and X12 Registry (reference website):
<http://www.wpc-edi.com/reference/>

VistA documentation is made available online in Microsoft Word format and in Adobe Acrobat Portable Document Format (PDF). The PDF documents *must* be read using the Adobe Acrobat Reader, which is freely distributed by Adobe Systems Incorporated at the following Website: <http://www.adobe.com/>

VistA documentation can be downloaded from the VA Software Document Library (VDL) Website: <http://www.va.gov/vdl/>

VistA documentation and software can also be downloaded from the Product Support (PS) anonymous directories.

1 Introduction

1.1 Overview

This document is the *Assigning Person Class to Providers User Guide*. It provides the required steps to enter Person Class data.

In order to use the Assigning Person Class to Providers software, the following Veterans Health Information Systems and Technology Architecture (VistA) M Server Kernel patches *must* be installed (listed in patch number order):

- XU*8.0*27—Originally, developed to provide the functionality that enabled facilities to assign Person Class information. This patch was released on 08/14/1996.
- XU*8.0*377—Developed in order to update the Person Class data and related documentation. This patch was released on 10/24/2005.
- XU*8.0*531—Developed in order to update the Person Class data and related documentation. This patch was released on 02/17/2010.

As of October 1996, VHA facilities were required to report each ambulatory encounter and/or ancillary service. Provider, procedure, and diagnosis information is included in the minimum data set reported to the National Patient Care Database (NPCD). The provider information reported is the "Person Class" defined for all providers associated with ambulatory care delivery.

To comply with this requirement, all VA Medical Center (VAMC) providers were assigned a Profession/Occupation code (i.e., Person Class), so that a Person Class could be associated with each ambulatory patient encounter by October 1, 1996.

NOTE: The Health Information Management team maintains the PERSON CLASS file (#8932.1) and updates to related documents, such as the Department of Veterans Affairs' (VA) version of the Person Class Taxonomy Codes.

REF: For a list of new, updated, inactivated, and reactivated VA Person Class codes released with Kernel Patches XU*8.0*377 and XU*8.0*531, see "[Appendix A—Person Class Codes: New, Updated, Inactivated, and Reactivated.](#)"

REF: For a list of the latest Provider Taxonomy Codes, see the Washington Publishing Company (WPC) Code Lists and X12 Registry (reference website): <http://www.wpc-edi.com/reference/>

1.2 HCFA Provider Codes

The Health Care Financing Administration (HCFA) provider classification system or taxonomy adopted by VHA is hierarchical and classifies providers into aggregate groupings:

- Services
- Provider types
- Areas of specialization or focus

The taxonomy represents a one-to-many relationship to the individual provider. Many occurrences of the taxonomy may apply to a single provider. For example, a provider who trains in Internal Medicine and specializes in Cardiology may appear with specialties in both Internal Medicine and Cardiology (two occurrences of the taxonomy relating to one provider). VHA assigns only one Person Class to each provider, and in the example above, Cardiology would be the assigned Person Class as it is the more specific.

The PERSON CLASS Multiple field (200.05#) in the NEW PERSON file (#200) contains entries that reflect the assignment of HCFA taxonomy to providers. Each entry contains three data elements:

- PERSON CLASS field (#.01)—Pointer to PERSON CLASS file (#8932.1).
- EFFECTIVE DATE field (#.02)—Date the code took effect.
- EXPIRATION DATE field (#.03)—Date the code ceased/expired/was replaced.

Entry of a new person in the NEW PERSON file (#200) asks for input of the following information:

- PERSON CLASS Multiple.
- Current Occupation/Profession.
- (optional) History.

1.3 Interfaces

The Assigning Person Class to Providers software (i.e., Kernel Patches XU*8.0*27, 377, and 531) allows for interfaces with the entire VistA clinical software developed in-house. It also allows for interfaces with the QuadraMed Encoder Product Suite, which is a Commercial-Off-The-Shelf (COTS; *non-VA*) software product.

REF: For more information on QuadraMed products, see the QuadraMed website at:
<http://www.quadramed.com>

2 Enter/Edit Person Class Data

Kernel Patches XU*8.0*27, 377, and 531 enable users to enter or edit Person Class data for providers in three easy steps:

1. [Identify All Active Providers.](#)
2. [Identify Providers with Inactive Person Class Entries.](#)
3. [Assign Person Class to Providers.](#)

2.1 Identify All Active Providers

2.1.1 Overview

Identify all active providers currently associated with VA clinics (e.g., physicians, nurses, psychologists, social workers, etc.) for whom you need to enter Person Class information.

Use the User PC build Print option [XUSER PC BUILD] to print a list of active providers who need to have the Person Class data entered:

- This option is *not* attached to a menu.
- This option can be assigned to any user by adding it to the secondary menu of those users who will be working on this project; it can then be removed when the project is complete.

This option prints a list of users in the NEW PERSON file (#200) who are both a provider and active on the system, which means the user *must*:

- Hold the PROVIDER security key.
- Have a current Verify code.

The report from this option displays the following data for each individual listed:

- Name
- Provider Class
- Provider Type

REF: To list providers with Inactive Person Class entries in the PERSON CLASS file (#8932.1), see the "[Identify Providers with Inactive Person Class Entries](#)" section.

REF: To print entries in the PERSON CLASS file (#8932.1), see "[Appendix B—Printing VA Person Class Data.](#)"

REF: To view the current Health Care Provider Taxonomy Code Set, see the Washington Publishing Company (WPC) Code Lists and X12 Registry (reference website): <http://www.wpc-edi.com/reference/>

The lists on this site are maintained by the following organizations:

- Centers for Medicare and Medicaid Services (CMS)
- National Uniform Claim Committee (NUCC)
- Committees that meet during standing X12 meetings

2.1.2 Procedure

To identify all active providers, perform the following procedure:

NOTE: This procedure is done only once. It is only needed for the printout of a worksheet to record information on paper for faster data entry later.

1. At the "Select OPTION NAME:" prompt, select the **User PC build Print** option [XUSER PC BUILD].
2. At the "DEVICE:" prompt, press **Enter** to display the report directly to the screen or enter a specific device.
3. The system displays the report as shown in [Figure 1](#):

Figure 1. User PC build Print option—Sample user dialogue and report

```

Select OPTION NAME: USER PC BUILD PRINT <Enter> User PC build Print
DEVICE: <Enter> Network
    
```

NEW PERSON PROVIDER LIST			JAN 30, 2014 11:01	PAGE 1
NAME	PROVIDER CLASS		PROVIDER	TYPE
KRUSER, ONE D	PHYSICIAN			FULL TIME
KRUSER, TWO				
KRUSER, THREE L	DENTIST			FULL TIME
KRUSER, FOUR A	PHARMACIST			PART TIME
KRUSER, FIVE W	PHYSICIAN			
KRUSER, SIX L	NURSE PRACTITIONER			FULL TIME

In this example ([Figure 1](#)), the KRNUSER,TWO provider entry is missing the Provider Class information.

2.2 Identify Providers with Inactive Person Class Entries

2.2.1 Overview

Use the List Inactive Person Class Users option [XU-INACTIVE PERSON CLASS USERS] to list providers who currently have inactive Person Classes and need to be assigned new Person Classes. This option is located under the User Management menu [XUSER]

2.2.2 Procedure

To list providers with inactive Person Class entries, perform the following procedure:

NOTE: This procedure is done only once. It is only needed for the printout of a worksheet to record information on paper for faster data entry later.

1. From the **User Management** menu [XUSER], select the **List Inactive Person Class Users** option [XU-INACTIVE PERSON CLASS USERS].
2. At the "Do you want to list active users only? NO//" prompt, enter **YES**.
3. At the "DEVICE: HOME//" prompt, press **Enter** to display the report directly to the screen or enter a specific device.
4. The system displays a list of providers, if any, with inactive Person Class entries ([Figure 2](#)).

Figure 2. List Inactive Person Class Users option—Sample user dialogue and report

```
Select User Management <TEST ACCOUNT> Option: LIST INACTIVE <Enter> Person
Class Users
Do you want to list active users only? NO// YES

DEVICE: HOME// <Enter> Network
Report on Feb 06, 2014 Page 1

User name:           Currently has the inactive Person Class IEN^NAME:
-----
Number of users: 0
```

2.3 Assign Person Class to Providers

2.3.1 Overview

Assign the appropriate Person Class to each provider associated with the clinics.

Use the Person Class Edit option [XU-PERSON CLASS EDIT] to enter or edit the Person Class for a provider. This option is located under the User Management menu [XUSER].

Once the Person Class has been entered for any provider, you can enter an additional or new Person Class by using the Person Class Edit option:

- The data input task is a simple one and can be assigned to anyone who will perform this task.
- This function allows only one active provider type during any one period of time.
- If the Enter on Duty Date is known, it should be entered in the Effective Date field. If the Enter on Duty Date is *not* known and the individual has been at the facility at least a year, we suggest that you enter a date one year prior to the current date.
- When you add a new Person Class entry to a provider who already has one defined, it is not necessary to enter the Expired Date of the previous Person Class. The application automatically inserts the Effective Date of the new Person Class as the Expired Date of the previous Person Class.
- Previous entries *must* remain on file for historical and legal purposes. You *cannot* delete or replace old entries. That is, you *cannot* modify the Person Class field itself.

2.3.2 Procedure

To enter or edit Person Class data, perform the following procedure:

1. From the **User Management** menu [XUSER], select the **Person Class Edit** option [XU-PERSON CLASS EDIT].
2. At the "Select NEW PERSON NAME:" prompt, enter the name of the provider whose Person Class data you wish to edit, as shown in [Figure 3](#):

Figure 3. Person Class Edit option—Sample user dialogue

Select NEW PERSON NAME: **KRNUSE , TWO**

3. The system opens the Edit of Person Class ScreenMan form, as shown in [Figure 4](#):

Figure 4. Edit of Person Class ScreenMan form—Displaying current Person Class data for a provider

Edit of Person Class

NAME: KRUSER,TWO

Person Class	Effective	Expired
Technologists, Technicians & Other Tec	DEC 7,2005	JAN 7,2006
Emergency Medical Service Providers	JAN 7,2006	DEC 7,2007
Other Service Providers	DEC 7,2007	JAN 8,2008
Allopathic and Osteopathic Physicians	JAN 8,2008	

Technologists, Technicians and Other Technical Service Providers
 Spec/Tech, Pathology
 Laboratory Management, Diplomate

Press <PF1>H for help Insert

In this case, the provider has four assigned Person Classes. The most recent and currently active Person Class is *Allopathic and Osteopathic Physicians*.

- a. In the ScreenMan form, use the **Arrow** or **Tab** keys to select the Person Class data line.
- b. Once the line is highlighted, expanded descriptive text for that Person Class appears near the bottom of the screen ([Figure 4](#)).

- f. The screen displays that specialty added under Person Class. The system automatically inserts today's date in the **Effective** date field, as shown in [Figure 6](#). You can edit that date or leave it as is.

Figure 6. Edit of Person Class ScreenMan form—Adding a new specialty (2 of 3)

Edit of Person Class		
NAME: KRUSER,TWO		
Person Class	Effective	Expired
Technologists, Technicians and Other Tec	DEC 7,2005	JAN 7,2006
Emergency Medical Service Providers	JAN 7,2006	DEC 7,2007
Other Service Providers	DEC 7,2007	JAN 8,2008
Allopathic and Osteopathic Physicians	JAN 8,2008	
Podiatric Medicine and Surgery Service P	JAN 30,2014	
COMMAND: Press <PF1>H for help Insert		

- g. Tab over to the **Expired** date field of the *new* Person Class. The system automatically inserts today's date in the **Expired** date field of the *previously active* Person Class, as shown in [Figure 7](#). You can edit that date or leave it as is.

Figure 7. Edit of Person Class ScreenMan form—Adding a new specialty (3 of 3)

Edit of Person Class		
NAME: KRUSER,TWO		
Person Class	Effective	Expired
Technologists, Technicians and Other Tec	DEC 7,2005	JAN 7,2006
Emergency Medical Service Providers	JAN 7,2006	DEC 7,2007
Other Service Providers	DEC 7,2007	JAN 8,2008
Allopathic and Osteopathic Physicians	JAN 8,2008	JAN 30, 2014
Podiatric Medicine and Surgery Service P	JAN 30,2014	
COMMAND: Press <PF1>H for help Insert		

NOTE: When re-entering previous (old) entries you *must* first save the Effective date, and then go back in to enter the Expired Date. For example, if you used the Remove a person class entry option [XU-PERSON CLASS REMOVE] and have to re-enter old entries, you *must*:

1. Enter an Effective date.
2. Save it.
3. Enter an Expired date.
4. Save it.

REF: For more information on re-entering previous (old) entries, see Section [3.1](#).

2.4 Deactivate/Reactivate a User

To deactivate or reactivate a user, use the following options located on the User Management menu [XUSER]:

- Reactivate a User option [XUSERREACT]—Used when a provider returns to a VA site.
- Deactivate a User option [XUSERDEACT]—Used when a provider leaves a VA site.

For example, when a provider (e.g., a medical student) rotates out, you can deactivate their account via the Deactivate a User option [XUSERDEACT]. The Reactivate a User option [XUSERREACT] gives you the opportunity to edit a provider's Person Class information. If the provider rotates in again, their Person Class information can be updated when they are reactivated.

REF: For more information on deactivating and reactivating users, see the "Deactivating and Reactivating Users" section in the *Kernel Systems Management Guide*, which is located on the VA Software Document Library (VDL) at: <http://www.va.gov/vdl/application.asp?appid=10>

3 Special Handling—Correcting Person Class Data

CAUTION: The tasks in this section should only be performed by authorized users or Information Resource Management (IRM) personnel!

Most of these options are meant to be used for only critical Person Class data errors.

3.1 Removing Person Class Entries

To remove incorrect Person Class entries from the Person Class Multiple in the NEW PERSON file (#200), IRM should use the Remove a person class entry option [XU-PERSON CLASS REMOVE] to delete all of the Person Class entries and then have the user re-enter them correctly (Section [2.2](#)).

CAUTION: The PERSON CLASS Multiple holds a history, and under normal use, entries should *not* be removed.

Also, if the Person Class entries go back a few years the previous Person Class entries could be inactive, which prevents the user from entering it. In this case, the old Person Class entry would have to be re-activated via VA FileMan.

You can log a Remedy ticket to get assistance from the Health Systems Platform (HSP) team.

3.2 Reactivating Person Class Entries

3.2.1 Overview

Users *cannot* select "Inactive" entries in the PERSON CLASS file (#8932.1). If an entry needs to be reactivated it requires special handling.

3.2.2 Procedure

To manually reactivate a Person Class entry, perform the following procedure:

1. In Programmer Mode in VistA, retrieve the Internal Entry Number (IEN) for the Person Class entry to be reactivated.

Figure 8. Retrieving the IEN for the Person Class file entry to be reactivated

```
>D ^%G
Device: <Enter>
Right margin: 80 => <Enter>
Screen size for paging (0=nopaging)? 24 => <Enter>
For help on global specifications DO HELP^%G
Global ^USC(8932.1,"G","203BP0103Y "
^USC(8932.1,"G","203BP0103Y ",79)=" "
```

In this example, 79 is the IEN for the User Class file entry to be reactivated.

2. In Programmer Mode in VistA, set the Person Class entry back to **Active**:

Figure 9. Setting Person Class file entry to "a" (Active)

```
>S $P(^USC(8932.1,79,0),"^",4)="a"
```

3. Perform the following field edits:
 - "Stuff "a" value in the X12 CODE field.
 - Delete the DATE INACTIVATED field.
 - a. From VA FileMan, select the **Enter or Edit File Entries** option [DIEDIT].
 - b. At the "INPUT TO WHAT FILE: *PERSON CLASS*/" , enter **PERSON CLASS**.
 - c. At the "EDIT WHICH FIELD: ALL/" prompt, enter **6///203BP0103Y**. This stuffs an X12 CODE value in the X12 CODE field.
 - d. At the "THEN EDIT FIELD:" prompt, enter **DATE INACTIVATED**.
 - e. At the "THEN EDIT FIELD:" prompt, press **Enter** when your entries are complete.

- f. At the "Select PERSON CLASS PROVIDER TYPE:" prompt, enter the **Provider Type** (e.g., using the IEN).
- g. At the "...OK? Yes//" prompt, verify it is the correct entry and enter **YES**.
- h. At the "DATE INACTIVATED: MAY 30,2006//" prompt:
 - i. Save/Notate (write down) the current date value for re-use in **Step 5j**.
 - ii. Enter an **At-Sign (@)** to delete the date.
- i. At the "SURE YOU WANT TO DELETE?" prompt, enter **YES**.

Figure 10. Stuffing the X12 CODE and deleting the DATE INACTIVATED fields

```
Select OPTION: ENTER OR EDIT FILE ENTRIES
INPUT TO WHAT FILE: PERSON CLASS// <Enter>
EDIT WHICH FIELD: ALL// 6////203BP0103Y <Enter> X12 CODE
THEN EDIT FIELD: DATE INACTIVATED
THEN EDIT FIELD: <Enter>
Select PERSON CLASS PROVIDER TYPE: ~79 <Enter> Physicians (M.D. and D.O.)
      Physician/Osteopath
      Pathology, Anatomic & Laboratory Medicine
      ...OK? Yes// <Enter> (Yes)
DATE INACTIVATED: MAY 30,2006// @
SURE YOU WANT TO DELETE? Y <Enter> (Yes)
```

4. The user should re-add the entry by following the procedure in Section [2.3.2](#).

Figure 11. Adding the entry using the Person Class Edit option

```
Select NEW PERSON NAME: KRUSER, FIFTY

                                Edit of Person Class
NAME: KRUSER, FIFTY
```

Person Class	Effective	Expired
Physicians (M.D. and D.O.)	JUL 17,2013	

5. Once complete, re-edit the entry STATUS, DATE INACTIVATED, and X12 CODE fields:
 - a. From VA FileMan, select the **Enter or Edit File Entries** option [DIEDIT].
 - b. At the "INPUT TO WHAT FILE: PERSON CLASS//" prompt, enter **PERSON CLASS**.
 - c. At the "EDIT WHICH FIELD: ALL//" prompt, enter **STATUS**.
 - d. At the "THEN EDIT FIELD:" prompt, enter **DATE INACTIVATED**.
 - e. At the "THEN EDIT FIELD:" prompt, enter **X12 CODE**.
 - f. At the "THEN EDIT FIELD:" prompt, press **Enter** when your entries are complete.
 - g. At the "Select PERSON CLASS PROVIDER TYPE:" prompt, enter the **Provider Type**. Pressing the <Spacebar><Enter> keys inserts the last used Provider Type.
 - h. At the "...OK? Yes//" prompt, verify it is the correct entry and enter **YES**.
 - i. At the "STATUS: Active//" prompt, enter **INACTIVE**.

- j. At the "DATE INACTIVATED: JUL 17,2013//" prompt, enter the saved date value from **Step 3h**.
- k. At the "X12 CODE: 203BP0103Y//" prompt, enter an **At-Sign (@)** to delete the X12 CODE.
- l. At the "SURE YOU WANT TO DELETE?" prompt, confirm the delete by entering **YES**.

Figure 12. Editing the entry fields: STATUS, DATE INACTIVATED, and X12 CODE

```
Select OPTION: ENTER OR EDIT FILE ENTRIES
INPUT TO WHAT FILE: PERSON CLASS// <Enter>
EDIT WHICH FIELD: ALL// STATUS
THEN EDIT FIELD: DATE INACTIVATED
THEN EDIT FIELD: X12 CODE
THEN EDIT FIELD: <Enter>

Select PERSON CLASS PROVIDER TYPE: <Spacebar><Enter> Physicians (M.D. and
D.O.)      203BP0103Y
                Physician/Osteopath
                Pathology, Anatomic & Laboratory Medicine
                ...OK? Yes// <Enter> (Yes)
STATUS: Active// I <Enter> Inactive
DATE INACTIVATED: JUL 17,2013// 5 30 06 <Enter> (MAY 30, 2006)
X12 CODE: 203BP0103Y// @
                SURE YOU WANT TO DELETE? Y <Enter> (Yes)
```

3.3 Editing Reactivated Person Class Data

To edit Person Class data for reactivated entries, you can use the Person Class Edit option [XU-PERSON CLASS EDIT] (Section [2.3.2](#)) or Edit an Existing User option [XUSEREDIT] on the User Management menu [XUSER]. If you are using the Edit an Existing User option [XUSEREDIT], the Person Class data is located on the third screen, as shown in [Figure 13](#):

4 Appendix A—Person Class Codes: New, Updated, Inactivated, and Reactivated

4.1 Person Class Code Changes

This appendix contains a list of the new, updated, inactivated, and reactivated Person Class codes as of Kernel Patch XU*8.0*531 (released on 02/17/2010).

- [New Person Class Codes.](#)
- [Updated Person Class Codes.](#)
- [Inactivated Person Class Codes.](#)
- [Reactivated Person Class Codes.](#)

REF: For a list of the latest Provider Taxonomy Codes, see the Washington Publishing Company (WPC) Code Lists and X12 Registry (reference website): <http://www.wpc-edi.com/reference/>

REF: To print entries in the PERSON CLASS file (#8932.1), see "[Appendix B—Printing VA Person Class Data.](#)"

4.2 New Person Class Codes

- [Patch XU*8.0*377](#).
- [Patch XU*8.0*531](#).

4.2.1 Patch XU*8.0*377

The following table lists all *new* Person Class codes released with Kernel Patch XU*8.0*377 (released on 10/24/2005):

Table 3. New Person Class Codes—Kernel Patch XU*8.0*377

4.3 Updated Person Class Codes

[Table 5](#) lists all updated Person Class codes released with Kernel Patch XU*8.0*531 (released on 02/17/2010). Updated data includes the following:

- Definition (indicated by superscript "1" in the IEN column; data not displayed in [Table 5](#))
- Classification (indicated by superscript "2" in the IEN column)
- Area of Specialization (indicated by superscript "3" in the IEN column)
- CMS Specialty Code (indicated by superscript "4" in the IEN column)

NOTE: Some entries may have multiple updates; for those items, there will be multiple superscripts separated by a comma.

5 Appendix B—Printing VA Person Class Data

If you have VA FileMan access, use VA FileMan's Print File Entries option [DIPRINT] to print the PERSON CLASS file (#8932.1) entries, so that you have the classifications and codes.

NOTE: This task is done only once.

5.1 Report Sorted by Provider Type

To print entries in the PERSON CLASS file (#8932.1) sorted by Provider Type, perform the following procedure:

1. From VA FileMan, select the **Print File Entries** option [DIPRINT].
2. At the "OUTPUT FROM WHAT FILE:" prompt, enter **PERSON CLASS**.
3. At the "SORT BY: PROVIDER TYPE//" prompt, enter **PROVIDER TYPE;S2;C1** and confirm by selecting the appropriate number.

The "**;S2;C1**" portion of the entry formats the report to display the Provider Type in the first column on the second line for each entry.

4. At the "START WITH PROVIDER TYPE: FIRST//" prompt, press **Enter** to accept the default.
5. At the "WITHIN PROVIDER TYPE, SORT BY:" prompt, press **Enter** to accept the default.
6. (*Optional*) At the "FIRST PRINT FIELD:" prompt, enter a single question mark "?". Then, at the "Do you want the entire 15-Entry FIELD List?" enter **YES** to get a list of fields from which to choose.
7. At the "FIRST PRINT FIELD:" prompt, enter **NUMBER**.
8. At the "THEN PRINT FIELD:" prompt, enter **AREA OF SPECIALIZATION;W25;"SPECIALTY"** and confirm by selecting the appropriate number.

The "**;W25;SPECIALTY**" portion of the entry formats the report to title the data column as "SPECIALTY" and wrap the text to the next line after 25 characters.

9. At the "THEN PRINT FIELD:" prompt, enter **VA CODE**.
10. At the "THEN PRINT FIELD:" prompt, enter **X12 CODE**.
11. At the "THEN PRINT FIELD:" prompt, enter **STATUS;L8**.

The "**;L8**" portion of the entry formats the report to left justify and truncate the length of the display to 8 characters.

12. At the "THEN PRINT FIELD:" prompt, press **Enter** to complete your entries.

13. At the "Heading (S/C): *PERSON CLASS LIST*//" prompt, press **Enter** to accept the default report heading or enter a DIFFERENT heading.
14. At the "STORE PRINT LOGIC IN TEMPLATE:" prompt, press **Enter** or enter a name of a print template to store your selections if you want to run this report again.
15. At the "DEVICE:" prompt, press **Enter** to display the report directly to the screen or enter a specific device.
16. The system displays the report as shown in [Figure 15](#).

5.2 Report Sorted by VA Code

To print entries in the PERSON CLASS file (#8932.1) sorted by VA Code, perform the following procedure:

1. From VA FileMan, select the **Print File Entries** option [DIPRINT].
2. At the "OUTPUT FROM WHAT FILE:" prompt, enter **PERSON CLASS**.
3. At the "SORT BY: PROVIDER TYPE//" prompt, enter **VA CODE**
4. At the "START WITH VA CODE: FIRST//" prompt, press **Enter** to accept the default.
5. At the "WITHIN VA CODE, SORT BY:" prompt, press **Enter** to accept the default.
6. At the "FIRST PRINT FIELD:" prompt, enter **NUMBER**.
7. At the "THEN PRINT FIELD:" prompt, enter **STATUS;L8**.
8. At the "THEN PRINT FIELD:" prompt, enter **VA CODE**.
9. At the "THEN PRINT FIELD:" prompt, enter **X12 CODE**.
10. At the "THEN PRINT FIELD:" prompt, enter **SPECIALTY CODE**.
11. At the "THEN PRINT FIELD:" prompt, enter **PROVIDER TYPE;S1;C1** and confirm by selecting the appropriate number.
12. At the "THEN PRINT FIELD:" prompt, enter **CLASSIFICATION;S1;C1** and confirm by selecting the appropriate number.
13. At the "THEN PRINT FIELD:" prompt, enter **AREA OF SPECIALIZATION; S1;C1;"SPECIALTY"** and confirm by selecting the appropriate number.
14. At the "THEN PRINT FIELD:" prompt, press **Enter** to complete your entries.
15. At the "Heading (S/C): PERSON CLASS LIST//" prompt, press **Enter** to accept the default report heading or enter a different heading.
16. At the "STORE PRINT LOGIC IN TEMPLATE:" prompt, press **Enter** or enter a name of a print template to store your selections if you want to run this report again.
17. At the "DEVICE:" prompt, press **Enter** to display the report directly to the screen or enter a specific device.
18. The system displays the report.

Figure 16. Printing Person Class File Entries—Sorted by VA Code: Sample user dialogue

```

Select OPTION: PRINT FILE ENTRIES

OUTPUT FROM WHAT FILE: PERSON CLASS// <Enter>
SORT BY: PROVIDER TYPE// VA CODE
START WITH VA CODE: FIRST// <Enter>
  WITHIN VA CODE, SORT BY: <Enter>
FIRST PRINT FIELD: NUMBER
THEN PRINT FIELD: STATUS;L8
THEN PRINT FIELD: VA CODE
THEN PRINT FIELD: X12 CODE
THEN PRINT FIELD: SPECIALTY CODE
THEN PRINT FIELD: PROVIDER TYPE;S1;C1
  1 PROVIDER TYPE
  2 PROVIDER TYPE CODE
CHOOSE 1-2: 1 <Enter> PROVIDER TYPE
THEN PRINT FIELD: CLASSIFICATION;S1;C1
  1 CLASSIFICATION
  2 CLASSIFICATION CODE
CHOOSE 1-2: 1 <Enter> CLASSIFICATION
THEN PRINT FIELD: AREA OF SPECIALIZATION;S1;C1;"SPECIALTY"
  1 AREA OF SPECIALIZATION
  2 AREA OF SPECIALIZATION CODE
CHOOSE 1-2: 1 <Enter> AREA OF SPECIALIZATION
THEN PRINT FIELD: <Enter>
Heading (S/C): PERSON CLASS LIST// <Enter>
STORE PRINT LOGIC IN TEMPLATE: <Enter>
DEVICE: <Enter> Network

```

REF: For sample data, see [Table 4](#).

5.3 Report of Classifications Only

To print entries in the PERSON CLASS file (#8932.1) for Classification codes only, perform the following procedure:

1. From VA FileMan, select the **Print File Entries** option [DIPRINT].
2. At the "OUTPUT FROM WHAT FILE:" prompt, enter **PERSON CLASS**.
3. At the "SORT BY: PROVIDER TYPE//" prompt, enter **CLASSIFICATION CODE**.
4. At the "START WITH CLASSIFICATION CODE: FIRST//" prompt, press **Enter** to accept the default.
5. At the "WITHIN CLASSIFICATION CODE, SORT BY:" prompt, press **Enter** to accept the default.
6. At the "FIRST PRINT FIELD:" prompt, enter **CLASSIFICATION CODE;N**.

The ";N" portion of the entry formats the report to suppress consecutive duplicate values.

7. At the "THEN PRINT FIELD:" prompt, press **Enter** to complete your entries.
8. At the "Heading (S/C): PERSON CLASS LIST//" prompt, press **Enter** to accept the default report heading or enter a DIFFERENT heading.
9. At the "DEVICE:" prompt, press **Enter** to display the report directly to the screen or enter a specific device.
10. The system displays the report.

Figure 17. Printing Person Class File Entries—Classification codes: Sample user dialogue

```
Select VA FileMan Option: PRINT <Enter> File Entries

OUTPUT FROM WHAT FILE: PERSON CLASS// <Enter>
SORT BY: PROVIDER TYPE// CLASSIFICATION CODE
START WITH CLASSIFICATION CODE: FIRST// <Enter>
  WITHIN CLASSIFICATION CODE, SORT BY: <Enter>
FIRST PRINT FIELD: CLASSIFICATION CODE;N
THEN PRINT FIELD: <Enter>
Heading (S/C): PERSON CLASS LIST// <Enter>
DEVICE: <Enter>
```

Enter your device choice here (e.g., the screen/terminal, a printer identifier, etc.).
