Introduction

Package Status Update, January 2014:

This package's status has been changed to Class 3 Software, and will no longer be supported nationally.

In the Package file (#9.4), this application is known as Patient Assessment Documentation (PADP). The package namespace is NUPA. The PADP software application enables Registered Nurses (RNs) to document, in a standardized format, patient care during an inpatient stay. Although the content is standardized for use across the VA system, some parameters can be set to support the unique processes at individual medical centers.

PADP consists of a KIDS build, NUPA 1.0, and four (4) Delphi GUI templates in three executables. PADP also adds to VistA new health factors, fourteen (14) files, thirty-six (36) parameters, and five (5) printouts.

Printouts

1. **The Daily Plan[®]**
Nurse and patient collaborate on patient's care for the day
Located in Interdisciplinary Plan of Care, view CP tab
2. **Plan of Care**
Information shared among patient care staff and patient
Located in Interdisciplinary Plan of Care, view CP tab
3. **Discharge Plan**
Post hospital care information shared by the staff and with the patient
Located in Interdisciplinary Plan of Care, view CP tab
4. **Belongings**
List of belongings the patient brought into the medical center and disposition of the items
Located in Admission – RN Assessment/Admission - Nursing Data Collection
5. **Safe Patient Handling**
Lists staff and equipment required to safely move/transfer patients
Located on the Function tab in Admission - RN Assessment, RN Reassessment, and Interdisciplinary Plan of Care, view CP tab

Benefits

- **Standardized Documentation of Inpatient Care**
PADP provides Registered Nurses a standardized format to document patient care that contains parameters that can be set to support the unique processes at individual medical centers.
- **Links to Other Packages**
PADP interfaces directly with several VistA applications, including Computerized Patient Record System (CPRS), Clinical Reminders, Consult Tracking, Mental Health Assessment, Vitals, and Patient Care Encounter (PCE). The linkage between the packages and PADP is transparent to users, but requires setup and coordination by the IRM office and the Clinical Coordinators. For technical information on the previously mentioned packages, refer to the technical and user manuals of the individual packages.

Implementation and Maintenance

Implementation and maintenance of PADP includes installation of the KIDS build, three (3) executables, and four (4) help files into a folder on a server and placement in CPRS on the Tools menu.

Note: Objects also pull data into the templates from the Laboratory and other packages as read-only.

Anonymous Software and Documentation

PADP software and documentation files are available in the following names and formats:

Document File Description	File Names	FTP Mode
KIDS Build	NUPA_1_0.KID	ASCII
Executable and Help files	NUPA.ZIP	Binary
PADP Installation Guide	NUPA1_0IG.DOCX NUPA1_0IG.PDF	
PADP Technical Manual	NUPA1_0TM.DOCX NUPA1_0TM.PDF	
PADP Admission – RN Assessment User Manual	NUPA1_0_AUM.DOCX NUPA1_0_AUM.PDF	
PADP RN Reassessment User Manual	NUPA1_0_RUM.DOCX NUPA1_0_RUM.PDF	
PADP Admission – Nursing Data Collection User Manual	NUPA1_0_DCUM.DOCX NUPA1_0_DCUM.PDF	
PADP Interdisciplinary Plan of Care User Manual	NUPA1_0_IUM.DOCX NUPA1_0_IUM.PDF	

Retrieve these files via FTP from download.vista.med.va.gov, which transmits the files from the first available FTP server (preferred method). You can also retrieve the files directly from one of the following FTP sites:

OIFO	FTP Address	Directory
Albany	ftp.fo-albany.med.va.gov	[anonymous.software]
Hines	ftp.fo-hines.med.va.gov	[anonymous.software]
Salt Lake City	ftp.fo-slc.med.va.gov	[anonymous.software]

Documentation for NUPA Version 1.0 is also available on

VA Software Documentation Library in the Clinical Section
<http://www4.va.gov/vdl/>

For complete installation instructions, refer to the *PADP Installation Guide*.

- The IRM support staff installs the KIDS build and then unzips the **NUPA.ZIP** file and places the files in a designated folder on an application server, i.e.:
\\vhaxxxmul##\VISTA_Software\CPRS\NursingAssessment
- The files contained in the NUPA.ZIP are:
 - a. Admassess.exe
 - b. Admassess_Shift.exe
 - c. Admassess_Careplan.exe
 - d. Admassess_CRC.txt
 - e. borlndmm.dll
 - f. Nupa1_0um help DC.chm
 - g. Nupa1_0um help R.chm
 - h. Nupa1_0um help IPofC.chm
 - i. Nupa1_0um help A.chm

TASKMAN Option

Schedule NUPA PURGE SAVED NOTES Option

1. Information from notes saved for later: Nursing Admission Data Collection, RN Admission Assessment and RN Reassessment, is in the NUPA SAVED NOTES file (#1927.09).
2. To purge the NUPA SAVED NOTES file (#1927.09) on a regular basis, the IRM staff must set up the purge option. This will purge any saved (unsigned) information older than five days.
3. Queue option NUPA PURGE SAVED NOTES to run via Taskman's Schedule/Unschedule Options (XUTM SCHEDULE) menu to run on a daily basis shortly after midnight.

```
Select OPTION to schedule or reschedule: NUPA PURGE SAVED NOTES          Purge Saved
Notes Over 5 Days Old
...OK? Yes// (Yes)

Edit Option Schedule

Option Name: NUPA PURGE SAVED NOTES
Menu Text: Purge Saved Notes Over 5 Days Ol          TASK ID: 2885947

Delphi GUI Templates in Three (3) Executables

Admission – RN Assessment Template

The Admission – RN Assessment template can be set up as a single template or subdivided into two templates, resulting in two progress notes. As a single template, one progress note, the **RN Admission Assessment** note, is generated. The content of the note is the complete assessment including belongings, unit orientation and vital signs.

The executable, **Admassess.exe**, contains the Admission - RN Assessment template and the Admission - Nursing Data Collection template.

1. **Admission - RN Assessment**

The note contains information that can be collected only by a registered nurse.

2. **Admission - Nursing Data Collection**

The note contains information that can be collected by any nursing personnel: Belongings, Orientation to the Unit, and Vital Signs.

RN Reassessment Template

The executable, **Admassess_Shift.exe**, contains the RN Reassessment template.

RN Reassessment

The note allows RNs to document the condition of the patient on a regular basis and any time during the inpatient stay.

Interdisciplinary Plan of Care Template

The Interdisciplinary Plan of Care provides a template for all patient care staff to enter problems, goals and interventions. It is accessible for each admission after the RN Admission Assessment note is uploaded and signed in VistA or CPRS.

The executable, **Admassess_Careplan.exe**, contains the Interdisciplinary Plan of Care template.

Interdisciplinary Plan of Care

The Interdisciplinary Plan of Care interfaces with admission and reassessment data, and allows additional information to be entered by the RN and other health care personnel (physicians, social workers, chaplain, etc.). All clinical staff can enter information into the Plan of Care. The Plan of Care can be printed and given to the patient when appropriate.

NUPA Parameters

There are thirty-six (36) PADP parameters that are accessed through the [XPAR EDIT PARAMETER] option and are located in the PARAMETER DEFINITION FILE (#8989.51).

1	NUPA 508	508 Text
2	NUPA AUTOSAVE TIME	Number of minutes until autosave
3	NUPA CHAPLAIN CONSULT	Chaplain Consult
4	NUPA COLLECTION TABS TOO	DISPLAY DATA COLLECTION TABS TOO?
5	NUPA COSIG FOR STUDENTS	COSIG FOR STUDENTS
6	NUPA CURRENT MEDS DATES	Dates back for current meds
7	NUPA DIAB NURSE CONSULT	Diabetes Nurse Consult
8	NUPA DISCH PLAN CONSULT	Discharge Planning consult name
9	NUPA HOME CARE CONSULT	Home Care consult name
10	NUPA MAX HEIGHT	Maximum height to allow
11	NUPA MAX WEIGHT	Maximum weight to allow
12	NUPA MIN HEIGHT	Minimum height to allow
13	NUPA MIN WEIGHT	Minimum weight to allow
14	NUPA NURSE REHAB CONSULT	Rehab consult name
15	NUPA NURSE REST CONSULT	Nurse Restorative consult name
16	NUPA NUTRITION CONSULT	Nutrition consult name
17	NUPA PCE TAB	Display the PCE Tab
18	NUPA PRESSURE ULCER SITE	Pressure ulcer site
19	NUPA PSA TEST DATANAME	PSA Dataname
20	NUPA RESPIRATORY CONSULT	Respiratory consult name
21	NUPA SAVE MORE THAN ONE NOTE	Save more than one note?
22	NUPA SEND DIAB NURSE CONS	Send Diabetes Nurse Consult
23	NUPA SEND DISCH PLAN CONSULT	Send Discharge Planning Consult
24	NUPA SEND HOME CARE CONSULT	Send Home Care Consult
25	NUPA SEND NURSE REHAB CONSULT	Send Nurse Rehab consult
26	NUPA SEND NURSE REST CONSULT	Send Nurse Rest. consult
27	NUPA SEND RESPIRATORY CONSULT	Send respiratory consult
28	NUPA SEND TELEHEALTH CONSULT	Send Telehealth Consult
29	NUPA SEND WOMENS H CONSULT	Send Women's Health consult
30	NUPA SOCIAL WORK CONSULT	Social Work consult name
31	NUPA SPEECH CONSULT	Speech consult name
32	NUPA TABSAVE	Number of tab switches before auto-save
33	NUPA TELEHEALTH CONSULT	Telehealth Consult name
34	NUPA TIMEOUT	Assessment Timeout
35	NUPA WOMENS HEALTH CONSULT	Women's Health Consult name
36	NUPA WOUND CARE CONSULT	Wound care consult

**Note: All required parameters must be set up before the PADP templates will open.
If not, an error message notifies you that the parameter is not set up properly.**

Parameter that cannot be edited

1	NUPA 508	508 Text
---	----------	----------

Parameters that control consults

The following parameters control consults that can be ordered from the PADP templates.

The following parameters control Required consults

NUPA CHAPLAIN CONSULT	Chaplain Consult
NUPA NUTRITION CONSULT	Nutrition consult name
NUPA PRESSURE ULCER SITE	Pressure ulcer site
NUPA SOCIAL WORK CONSULT	Social Work consult name
NUPA SPEECH CONSULT	Speech consult name
NUPA WOUND CARE CONSULT	Wound care consult

The following parameters control optional consults

The optional consults are controlled by the NUPA SEND parameters.

Controlling Consults

NUPA SEND DIAB NURSE CONS	Send Diabetes Nurse Consult
NUPA SEND DISCH PLAN CONSULT	Send Discharge Planning Consult
NUPA SEND HOME CARE CONSULT	Send Home Care Consult
NUPA SEND NURSE REHAB CONSULT	Send Nurse Rehab consult
NUPA SEND NURSE REST CONSULT	Send Nurse Rest. consult
NUPA SEND RESPIRATORY CONSULT	Send respiratory consult
NUPA SEND TELEHEALTH CONSULT	Send Telehealth Consult
NUPA SEND WOMENS H CONSULT	Send Women's Health consult

Optional Associated Consults

Enter the Associated Consult Specialty in the parameter for each Controlling Consult Parameter you will use in your PADP templates.

NUPA DIAB NURSE CONSULT	Diabetes Nurse Consult
NUPA DISCH PLAN CONSULT	Discharge Planning consult name
NUPA HOME CARE CONSULT	Home Care consult name
NUPA NURSE REHAB CONSULT	Rehab consult name
NUPA NURSE REST CONSULT	Nurse Restorative consult name
NUPA TELEHEALTH CONSULT	Telehealth Consult name
NUPA WOMENS HEALTH CONSULT	Women's Health Consult name

Set up Consult Parameters

To set up the parameters, perform the following steps.

1. Review the consults in your system.
2. Identify the consult specialties that you order via the notes: RN Admission Assessment and RN Reassessment.
3. Access the PADP parameters using the Edit Parameter Values [XPAR EDIT PARAMETER] option.
 - a. Select Menu Option: IR CPRS Configuration (IRM).
 - b. Select CPRS Configuration (IRM) Option: XX General Parameter Tools.
 - c. Select General Parameter Tools Option: `EP Edit Parameter Values` ←
4. Parameters can be set at three levels: System, Division, or Location
5. PADP first checks at the lowest level: Location, then Division, and lastly the System.
 - If you are a single division medical center, set the parameter at **System** or **Division** level. Associate the System or Division with the appropriate consult.
 - If there is only one consult for a Specialty for the entire system or division, set the parameter at the **System** or **Division** level. Associate the System or Division with the appropriate consult.
 - If there is one consult for a Specialty per Division, set the parameter at the **Division** level. Associate each Division with the appropriate consult.
 - If there is more than one consult per Specialty for a **Division**, like one social work consult for Med/Surg units and another one for Mental Health/Psych units, set the parameter at the **Location** (MAS bed section, ward) level. Associate each Location with the appropriate consult.

Examples

Set One Consult Service per Specialty in the System

```
Select PARAMETER DEFINITION NAME:  NUPA CHAPLAIN CONSULT
```

```
NUPA CHAPLAIN CONSULT may be set for the following:
```

```
 1  Division      DIV      [choose from INSTITUTION]
 2  Location      LOC      [choose from HOSPITAL LOCATION]
 3  System        SYS      [TEST.BRONX.MED.VA.GOV]
```

```
Enter selection: 3  System
```

```
Select SYSTEM NAME: TEST.BRONX.MED.VA.GOV
```

```
----- Setting NUPA CHAPLAIN CONSULT for System:
```

```
Consult name: CHAPLAIN
```

Set One Consult Service per Specialty per Division for Multi-division Sites

```
Select PARAMETER DEFINITION NAME:  NUPA CHAPLAIN CONSULT
```

```
NUPA CHAPLAIN CONSULT may be set for the following:
```

```

1  Division      DIV      [choose from INSTITUTION]
2  Location      LOC      [choose from HOSPITAL LOCATION]
3  System        SYS      [TEST.BRONX.MED.VA.GOV]
Enter selection: 1 Division
Select INSTITUTION NAME: Bronx VAMC DIVISION ONE

----- Setting NUPA CHAPLAIN CONSULT for Division: BRONX VAMC -----
Consult name: CHAPLAIN DIVISION ONE

```

You can set up another consult for another division in the system by setting up a second Chaplain Consult for VAMC Division Two. Use the same name for the consult as used in Division Two.

```

Select PARAMETER DEFINITION NAME:  NUPA CHAPLAIN CONSULT

NUPA CHAPLAIN CONSULT may be set for the following:

1  Division      DIV      [choose from INSTITUTION]
2  Location      LOC      [choose from HOSPITAL LOCATION]
3  System        SYS      [TEST.BRONX.MED.VA.GOV]
Enter selection: 1 Division
Select INSTITUTION NAME: Bronx VAMC DIVISION TWO

----- Setting NUPA CHAPLAIN CONSULT for Division: BRONX VAMC -----
Consult name: CHAPLAIN DIVISION TWO

```

Set One Consult Service per Specialty per Hospital Location

In many medical centers, there are no centralized services to manage specialties, like Social Work or Nutrition. Because each clinician works only with patients from assigned Nursing Units, ordered consults must go to a specific clinician to promote prompt response and safe patient care. This process is supported by the ability to set up consults services at the Hospital Locations associated with Nursing Units.

Example

There are two MAS hospital locations associated with the Nursing Unit Spinal Cord Units, 1D and 1E. Set the parameter for each MAS hospital location, so that patients in either Hospital Location generate the same consult service per specialty: NUTRITION INPT SCI.

Setting for Location: 1D:

```

Select PARAMETER DEFINITION NAME:  NUPA NUTRITION CONSUSLT

NUPA NUTRITION CONSULT may be set for the following:

1  Division      DIV      [choose from INSTITUTION]
2  Location      LOC      [choose from HOSPITAL LOCATION]
3  System        SYS      [TEST.BRONX.MED.VA.GOV]

```

```
Enter selection: 2 Location HOSPITAL LOCATION
Select HOSPITAL LOCATION NAME: 1D
```

```
----- Setting NUPA NUTRITION CONSULT for Location: 1D -----
Consult name: NUTRITION INPT SCI
```

Setting for Location: 1E:

```
Select PARAMETER DEFINITION NAME: NUPA NUTRITION CONSULT
```

```
NUPA NUTRITION CONSULT may be set for the following:
```

- | | | | |
|---|----------|-----|---------------------------------|
| 1 | Division | DIV | [choose from INSTITUTION] |
| 2 | Location | LOC | [choose from HOSPITAL LOCATION] |
| 3 | System | SYS | [TEST.BRONX.MED.VA.GOV] |

```
Enter selection: 2 Location HOSPITAL LOCATION
Select HOSPITAL LOCATION NAME: 1E
```

```
----- Setting NUPA NUTRITION CONSULT for Location: 1E -----
Nutrition consult name: NUTRITION INPT SCI
```

When a Nutrition Consult is ordered for a patient on Nursing Unit SCI, a NUTRITION INPT SCI consult is ordered and displays on the CPRS Orders tab. No other inpatient nutritionist receives the consult alert, only the nutritionist associated with the consult NUTRITION INPT SCI.

Parameters that control other options

```
NUPA AUTOSAVE TIME      Number of minutes until autosave
Value: Number of minutes of before an autosave will occur. Range 3-10.
```

```
NUPA COLLECTION TABS TOO
Allows display of the Orient and Vital Signs tabs in the Admission Assessment.
Enter "Y" or "N" in value field.
```

```
NUPA COSIG FOR STUDENTS
Require co-signatures for students:
Enter either "Y" or "N" in value field.
```

```
NUPA CURRENT MEDS DATES
Dates back for current meds: //
This is the number of days back to display the active meds. If you enter 45 days,
for example, the assessment will search for meds that were active from today to 45
days ago.
```

```
NUPA MAX HEIGHT
Maximum height to allow: //
This is the maximum height in inches that the nurses can enter into the Height field
```

on the Vitals tab.

NUPA MAX WEIGHT

Maximum weight to allow: //

This is the maximum weight in pounds that the nurses can enter into the Weight field on the Vitals tab.

NUPA MIN HEIGHT

Minimum height to allow: //

This is the minimum height in inches that the nurses can enter into the Height field on the Vitals tab.

Minimum weight to allow: //

This is the minimum weight in pounds that the nurses can enter into the Weight field on the Vitals tab.

NUPA PRESSURE ULCER SITE

Value: vaww1.va.gov/nursing/docs/npuap_press_ulcer_stages_rev_2-07.doc

Linkage to website for pressure ulcer staging.

NUPA PSA TEST DATANAME

PSA Dataname:

This is the Data Name of the PSA (PROSTATE SPECIFIC ANTIGEN) test at your site. This is found in ^DD(63.04), not in the Lab Test file (#60). For additional Lab information refer to the Laboratory Package manuals located on the VA Software Documentation Library in the Clinical Section: <http://www4.va.gov/vdl/> .

NUPA SAVE MORE THAN ONE NOTE

Value: // Enter either 'Y' or 'N' in value field.

Allows nurses to save notes on more than one patient in the RN Assessment and Re-assessment.

NUPA TABSAVE

Number of tab switches before auto-save: //

Number of times that the user can switch tabs or pages before the program will autosave their data. Default is 5. Range can be 5-20.

NUPA TIMEOUT

Assessment Timeout: //

Number in minutes that the program will time out after no action.

File List and Related Information

Files and Descriptions

The NUPA KIDS build installs the following files.

Global	Name
^NUPA(1927.09	NUPA SAVED NOTES
^NUPA(1927.2	NUPA ASSESSMENT PROBLEMS

File #	File Name	File Description
1927.09	NUPA SAVED NOTES	The Nursing Admission Data Collection , RN Admission Assessment , and RN Reassessment notes are saved in this file while moving from tab to tab. The Save and exit option stores this file.
1927.2	NUPA ASSESSMENT PROBLEMS	Multidisciplinary problems are stored in this file. This is the file from which you select problems while documenting patient care.
1927.23	NUPA PLAN DESCRIPTION TABS	Descriptions of the tabs to which problems are related, are stored in this file. Example: CV (Cardiovascular) Chest Pain
1927.24	NUPA ASSESSMENT INTERVENTIONS	Interventions for problems are stored in this file. This is the file from which you select interventions while documenting patient care.

File #	File Name	File Description
1927.3	NUPA ASSESSMENT DESCRIPTIONS	Descriptions of the various patient problems in nursing language are stored in this file.
1927.32	NUPA PCE INFO	Before the Health Factors are loaded into PCE, they are stored in this file. (This file is empty until Health Factors are loaded onto the system.)
1927.4	NUPA CARE PLANS	Interdisciplinary Care Plans are stored in this file.
1927.401	NUPA CARE PLAN PRESSURE ULCERS	Skin pressure ulcer information is saved in this file.
1927.4011	NUPA CARE PLAN SKIN ALT TYPES	Skin alteration information is saved in this file.
1927.402	NUPA CARE PLAN IVS	IV information is stored in this file.
1927.403	NUPA CARE PLAN GI/GU DEVICES	GI device information is stored in this file.
1927.41	NUPA COMPONENT ITEMS	Various items related to available choices in the Care Plan are stored in this file.
1927.5	NUPA CARE PLAN TEXT CHANGE LOG	Changes made to the Care Plan are stored in this file; includes what changed, when it changed, and by whom it was changed.
1927.6	NUPA DISCHARGE PLANNING GOAL COMMENTS	Discharge planning goal comments are stored in this file.

Routines

Namespace: NUPA

XUPRROU (List Routines) prints a list of any or all of the NUPA routines. This option is on the XUPR-ROUTINE-TOOLS menu on the XUPROG (Programmer Options) menu, which is a sub-menu of the EVE (Systems Manager Menu) option.

Example

```
Select Systems Manager Menu Option: programmer Options
Select Programmer Options Option: routine Tools
Select Routine Tools Option: list Routines
Routine Print
Want to start each routine on a new page: No// [ENTER]
routine(s) ? > NUPA*
```

The first line of each routine contains a brief description of the general function of the routine. Use the Kernel option, First Line Routine Print [XU FIRST LINE PRINT], to print a list of only the first line of each NUPA subset routine.

```
Select Systems Manager Menu Option: programmer Options
Select Programmer Options Option: routine Tools
Select Routine Tools Option: First Line Routine Print
PRINTS FIRST LINES
routine(s) ? >NUPA*
```

```
All Routines? No => No
```

```

Exported Options

Menu Options and File Access needed

1. The following NEW option is allocated to the clinical staff that will enter data into any of the four PADP templates. This should be assigned as a secondary menu option.

Option	Option Name	Description
NUPA Assessment GUI RPC	NUPA Assessment GUI	This option is assigned to all staff who will enter data into any of the four (4) templates

2. The following option is allocated to the IRM or to the CAC/ADPAC to set up files and parameters.

Option	Option Name	Description
Edit Parameters	XPAR Edit Parameters	This menu allows the editing of NUPA parameters

3. The following OPTIONAL access is allocated to the IRM or to the CAC/ADPAC to set up files for Clinical Reminders on the PCE tab in the Admission – RN Assessment template and the RN Reassessment Template.

Option	Option Name	Description
Enter/Edit File	Fileman access with Nn	This option allows the setup of Clinical Reminders on the PCE tab in the <ul style="list-style-type: none">• Admission – RN Assessment template• RN Reassessment template

Edit File NUPA PCE INFO

Inpatient Nursing Reminders are edited using NUPA PCE INFO file (#1927.32). This functionality is **optional**.

1. If your site decides to use this functionality, the person entering the information needs access to Fileman and needs **Nn** to go into the File Manager Access Code field in the NEW PERSON file (#200) and will also need the following access added to file #1927.32 -- **Read, Write, Delete, and Laygo access**.
2. At sites that do not authorize the CACs to use Fileman, an IT person must work with the CAC to complete the setup.

Examples that follow are from one medical center and are presented here only as an example.

```
Enter or Edit File Entries
Print File Entries
Search File Entries
Inquire to File Entries
List File Attributes
```

```
Select File Manager Option: ENTER or Edit File Entries
INPUT TO WHAT FILE: NUPA PCE INFO//
EDIT WHICH FIELD: ALL//
```

Example 1 **Advance Directives Education**

```
Select NUPA PCE INFO NAME: Advance Directives Education
...OK? Yes// (Yes)

NAME: Advance Directives Education
ASK HAD: YES// (did the patient have it someplace else)
HAD HEALTH FACTOR: ADVANCE DIRECTIVES ADEQUATELY EDUCATED//
HAD EDUCATION TOPIC: ADVANCE DIRECTIVES//
ASK RECEIVED PREVIOUSLY: YES//
RECEIVED PREV HEALTH FACTOR: ADVANCE DIRECTIVES ADEQUATELY EDUCATED//
RECEIVED PREV EDUCATION TOPIC: ADVANCE DIRECTIVES//
RECEIVED PREV ASK DATE: YES//
RECEIVED PREV ASK LOC: YES//
ASK DECLINED: YES//
DECLINED HEALTH FACTOR: ADVANCE DIRECTIVE SCREENING REFUSED //
DECLINED EDUCATION TOPIC:
ASK N/A: YES//
N/A HEALTH FACTOR:
N/A EDUCATION TOPIC:
QUESTION TEXT:
```

Example 2 **Pain Education**

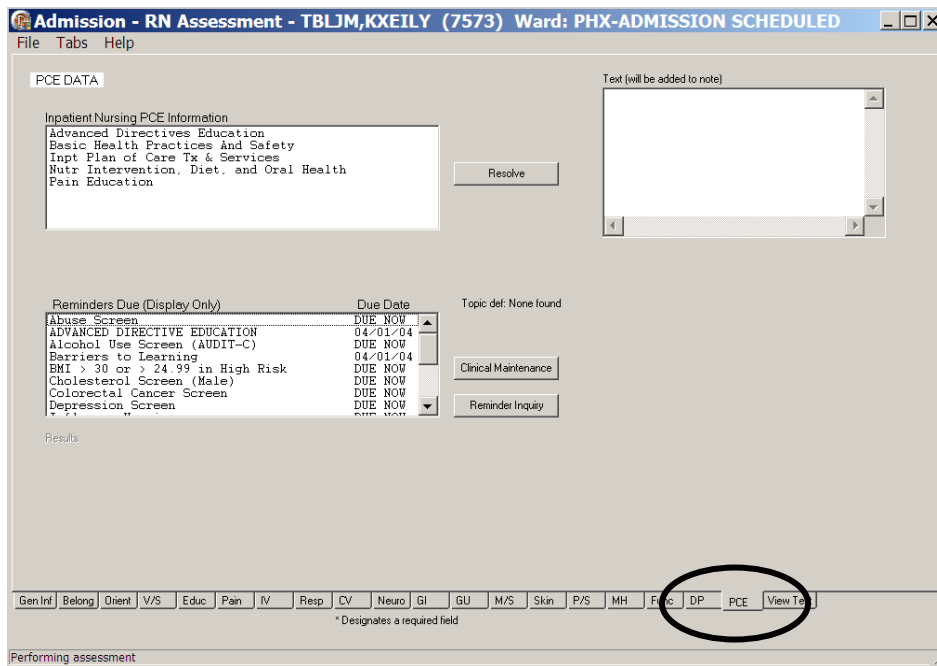

```
Select ASSESSMENT REMINDER NAME: Pain Education
...OK? Yes// (Yes)

NAME: Pain Education//
ASK HAD: YES//
HAD HEALTH FACTOR: PHE PAIN RN ASSESSMENT//
HAD EDUCATION TOPIC: PAIN EDUCATION//
ASK RECEIVED PREVIOUSLY: YES//
RECEIVED PREV HEALTH FACTOR: PHE PAIN RN ASSESSMENT //
```

RECEIVED PREV EDUCATION TOPIC: PAIN EDUCATION//
 RECEIVED PREV ASK DATE: YES//
 RECEIVED PREV ASK LOC: YES//
 ASK DECLINED: YES//
 DECLINED HEALTH FACTOR: REFUSED//
 DECLINED EDUCATION TOPIC: PAIN ED DECLINED//
 ASK N/A: YES//
 N/A HEALTH FACTOR: PAIN ED NOT APPLICABLE//
 N/A EDUCATION TOPIC: PAIN ED NOT APPLICABLE//
 QUESTION TEXT:

How it looks on the PADP template

1. Click **Resolve** on the PCE DATA window.

Admission - RN Assessment, PCE DATA, PCE tab window

2. Click **Resolve** on the Resolve Reminder window.

Resolve Reminder Pain Risk, Mgmt, and Assessment

* Received?

Patient had Pain Risk, Mgmt, and Assessment at this encounter

Patient declined Pain Risk, Mgmt, and Assessment at this encounter

Pain Risk, Mgmt, and Assessment not applicable

Remote Procedure Calls (RPCs)

A Remote Procedure Call (RPC) is a procedure called from the client (the user's workstation) communicating to the server (the M database). The nursing assessment templates require the following new RPCs to facilitate communication between the templates and the server.

```
1  NUPA CAREPLAN HISTORY
2  NUPA CAREPLAN PROBLEM HISTORY
3  NUPA CAREPLAN PROBS
4  NUPA DLOOK
5  NUPA DP COMMENT HISTORY
6  NUPA FILE
7  NUPA GET COMPONENTS
8  NUPA GET GI DEVICES

Archiving

There is no archiving for the Patient Admission Assessment Package.

External Relationships

Required Packages - Minimum

PADP requires that the following software is installed and fully patched.

Package	Namespace	Minimum Version
Clinical Reminders	PXRM	2.0*5
CPRS	OR	1.0.27.90
	OR	3.0*243
Kernel	XU	8.0
MailMan	XM	8.0
Text Integration Utilities	TIU	1.0
VA FileMan	DI	22.0
Vitals/Measurements	GMRV	5.0*22
Adverse Reaction Tracking	GMRA	4.0*42
Consult Request Tracking	GMRC	3.0*1
Remote Procedure Call	XWB	1.1*47
MHA DLL (Mental Health Assistant DLL)	YS*5.01*98	
Mental Health Assistant	All YS* patches	
Patient Care Encounter	PX	1

Database Integration Agreements

The Database Administrator (DBA) maintains a list of Integration Agreements (IAs) or mutual agreements between software developers that allow the use of internal entry points or other software-specific features not available to the general programming public. A complete list of Integration Agreements (IAs) are under the DBA menu on FORUM.

Non-destructive, read-only component routines are written to present VistA ancillary package data.

The package interacts with, and extracts data from, many other VistA software packages. Permission to use data from the other packages is obtained by completing a written integration agreement with each of the other packages.

```
Select INTEGRATION REFERENCES: nupa
  1  NUPA  5543  PATIENT ASSESSMENT DOCUM  Controlled Subscription
                                     RPC's for NUPA in rtn: NUPABCL
  2  NUPA  5544  PATIENT ASSESSMENT DOCUM  Controlled Subscription
                                     RPC's for NUPA in rtn: NUPABCL1
  3  NUPA  5545  PATIENT ASSESSMENT DOCUM  Controlled Subscription
                                     RPC's for NUPA in rtn: NUPABCL2
  4  NUPA  5569  PCE PATIENT CARE ENCOUNTER  Controlled Subscription
                                     HEALTH FACTORS FOR PADP
```

To obtain the current list of Integration Agreements to which PADP is a custodian, follow the example.

```
Select Integration Agreements Menu Option: 8 <Enter> Custodial Package Menu
  1 ACTIVE by Custodial Package
  2 Print ALL by Custodial Package
  3 Supported References Print All
Select Custodial Package Menu Option: 1 <Enter> ACTIVE by Custodial Package
Select PACKAGE NAME: NUPA
DEVICE: HOME// <Enter> UCX DEVICE Right Margin: 80// <Enter>
```

Internal Relationships

There are no routines, files or options within this VistA software, which cannot function independently.

Additional Useful Information

How to Obtain Technology Information

The namespace of Patient Admission Assessment is NUPA.

Globals

PADP uses the ^NUPA global. Use the Kernel option, List Global [XUPRGL], to print a list of the NUPA globals. This option is on the Programmer Options menu [XUPROG], which is a sub-menu of the Systems Manager Menu [EVE] option.

Example

```
Select Systems Manager Menu Option: programmer Options
Select Programmer Options Option: LIST Global
Global ^NUPA *
```

Inquire To Option File

The Kernel Inquire option [XUINQUIRE] provides information about a specified option(s).

- Option name
- Menu text
- Option description
- Type of option
- Lock (if any)

In addition, all items on an individual menu are listed for each menu option.

XINDEX

XINDEX is a routine that produces a report called the VA Cross-Referencer. This report is a technical and cross-reference listing of one routine or a group of routines.

XINDEX provides

- a summary of errors and warnings for routines that do not comply with VA programming standards and conventions
- a list of local and global variables and in which routines they are referenced
- a list of internal and external routine calls

```
XINDEX is invoked from programmer mode: D ^XINDEX.
When selecting routines, select XXX* .
```

Data Dictionaries Files

The numberspaces for PADP files are 1927.09-1927.6.

- Use the VA FileMan DATA DICTIONARY UTILITIES, option #8 (DILIST, List File Attributes), to print a list of these files.
- Depending on the FileMan template used to print the list, this option prints out all or part of the data dictionary for the PXR files.

Example

```
>D P^DI
VA FileMan 21.0
Select OPTION: DATA DICTIONARY UTILITIES
Select DATA DICTIONARY UTILITY OPTION: LIST FILE ATTRIBUTES
  START WITH WHAT FILE: 1927
                                     (1 entry)
      GO TO WHAT FILE: 1927.5
Select LISTING FORMAT: STANDARD// [Enter]
DEVICE: PRINTER
```

List File Attributes

The FileMan List File Attributes option [DILIST] generates documentation about files and file structure. The *Standard* format allows you to view the Data Dictionary information for a specified file(s):

- File name and description
- Identifiers
- Cross-references
- Files that are pointed to by the file specified
- Files that point to the file specified
- Input templates
- Print templates

In addition, applicable data is supplied for each field in the file: field name, number, title, global location, description, help prompt, cross-reference(s), input transform, date last edited, and notes.

The *Global Map* format of this option generates an output that lists all cross-references for the selected file, global location of each field in the file, input templates, print templates, and sort templates.

KIDS Build and Install Print Options

To print a complete listing of package components, such as routines and options, exported with this software, use the KIDS Build File Print option.

```
>D ^XUP
Setting up programmer environment
```

```
Terminal Type set to: C-VT100

Select OPTION NAME: XPD MAIN      Kernel Installation & Distribution System menu

    Edits and Distribution ...
    Utilities ...
    Installation ...

Select Kernel Installation & Distribution System Option: Utilities

    Build File Print
    Install File Print
    Convert Loaded Package for Redistribution
    Display Patches for a Package
    Purge Build or Install Files
    Rollup Patches into a Build
    Update Routine File
    Verify a Build
    Verify Package Integrity

Select Utilities Option: Build File Print

Select BUILD NAME: NUPA*1.0*0
```

Print Results of the Installation Process

To print out the results of the installation process, use the KIDS Install File Print option.

```
Select Utilities Option: Install File Print
Select INSTALL NAME: NUPA*1.0*0
DEVICE: HOME// ;;999 ANYWHERE
```

Other Kernel Print Options

In addition to the Kernel Installation & Distribution (KIDS) options for routines, files, and so on, other Kernel options can be used to print technical information.

Cross References

There are no non-standard or special cross-references.

Software Product Security

Security is handled by KERNEL. Only the sign-on and menu options mechanisms are utilized; no keys are necessary.

Troubleshooting

Screen Resolution

If the Admission Assessment seems to be too big for the workstation, change the screen resolution using your workstation Display options.

How to Create a Menu Item to Delete Problems and Interventions from Interdisciplinary Care Plan

```
VA FileMan Version 22.0

    1   Enter or Edit File Entries

Select OPTION: 1  ENTER OR EDIT FILE ENTRIES

INPUT TO WHAT FILE: NUPA CARE PLANS//
EDIT WHICH FIELD: ALL// 30  INTERVENTIONS  (multiple)
    EDIT WHICH INTERVENTIONS SUB-FIELD: ALL//
THEN EDIT FIELD: 31  PROBLEMS  (multiple)
    EDIT WHICH PROBLEMS SUB-FIELD: ALL//
THEN EDIT FIELD: W !!, "Be sure to make an addendum to the IDPC note stating what is
    wrong."
THEN EDIT FIELD:
STORE THESE FIELDS IN TEMPLATE: NUPA DELETE PROBLEMS
Are you adding 'NUPA DELETE PROBLEMS' as
a new INPUT TEMPLATE? No// Y  (Yes)
```
