# Introduction

---

The first release of templates for the Caregiver Support Program occurred in Spring and Fall 2011 followed by a release of additional templates in Fall of 2015. In response to feedback from Caregiver Support Coordinators, providers and others in the field, adjustments and modifications were made to improve the overall process.

**Two new reminder dialogs were created and are being distributed with this update:**

VA-CSP CLIN ELIG CHILD NOTE

VA-CSP CLIN ELIG FOR PRIMARY FAMILY CG PROGRAM

UPDATE\_2\_0\_2 contains 1 Reminder Exchange entry:

**UPDATE\_2\_0\_2 VA – CAREGIVER ELIG**

**1. Make the Dialogs able to be attached to a Personal or Shared template or to be able to attach the dialog to a progress note title.**

From the Reminders Manager Menu:

Select Reminder Managers Menu Option: **CP CPRS Reminder Configuration**

- CA Add/Edit Reminder Categories
- CL CPRS Lookup Categories
- CS CPRS Cover Sheet Reminder List
- MH Mental Health Dialogs Active
- PN Progress Note Headers
- RA Reminder GUI Resolution Active
- TIU TIU Template Reminder Dialog Parameter**
- DL Default Outside Location
- PT Position Reminder Text at Cursor

Select CPRS Reminder Configuration Option: **TIU TIU Template Reminder Dialog Parameter**

Reminder Dialogs allowed as Templates may be set for the following:

- 1 User       USR [choose from NEW PERSON]
- 3 Service    SRV [choose from SERVICE/SECTION]
- 4 Division   DIV [choose from INSTITUTION]
- 5 System     SYS [NATREM.FO-SLC.MED.VA.GOV]

Enter selection: *Choose the appropriate number for your site. Your site may do this by System or other levels. The example below uses SYSTEM level*

Setting Reminder Dialogs allowed as Templates for System:

Select Display Sequence: **?**

- 148           VA-VETERANS CHOICE NOTE
- 149           VA-TBI SCREENING

*When you type a question mark above, you will see the list of #'s (with dialogs) that are already taken. Choose a number **NOT** on this list. For this example, looking above I see the number 150 is not present, so I will use 150.*

Select Display Sequence: **150**

Are you adding 150 as a new Display Sequence? Yes// **Y YES**

Display Sequence: 150// **<Enter>** 150

Clinical Reminder Dialog: **type in the name of the dialog**

**VA-CSP CLIN ELIG FOR** PRIMARY FAMILY CG PROGRAM then **<enter>**

reminder dialog NATIONAL

OK? Yes// **<Enter>** (Yes)

**Repeat this process for the child note reminder Dialog:** VA-CSP CLIN ELIG CHILD NOTE.

## 2. Setup of Note titles

You will need to create a new note title for each dialog included in this patch.

*All note titles are to be mapped to the following VHA Enterprise Standard Title:*  
**CAREGIVER CERTIFICATE**

The new **parent** note title that needs to be created is:

CAREGIVER PROGRAM CLINICAL ELIGIBILITY ASSESSMENT

The new **child** note title that needs to be created is:

CAREGIVER PROGRAM CLINICAL ELIGIBILITY ASSESSMENT CHILD NOTE

**Note:** The new parent note title CAREGIVER PROGRAM CLINICAL ELIGIBILITY ASSESSMENT will replace the previous note titled Caregiver Program Veteran's Eligibility Assessment. Please coordinate with the Caregiver Support Coordinator at your facility to inactivate the old note title and associated reminder dialog after they have trained providers on the new note.

We understand many sites utilize existing naming conventions for document definitions, including Interdisciplinary notes. Facilities with these guidelines already in place are allowed to continue using local naming conventions.

Although **the NAME field for each title must remain as indicated in this document**, sites may modify the Print Name of each title to follow local policy. This is done by first inactivating and then editing the note title using the document definitions menu after it has been created.

Comprehensive information on Creating Document Definitions can be found beginning on page 47 of the [TIU/ASU Implementation Guide](#)

**Associate the reminder dialogs with the note title in CPRS.**

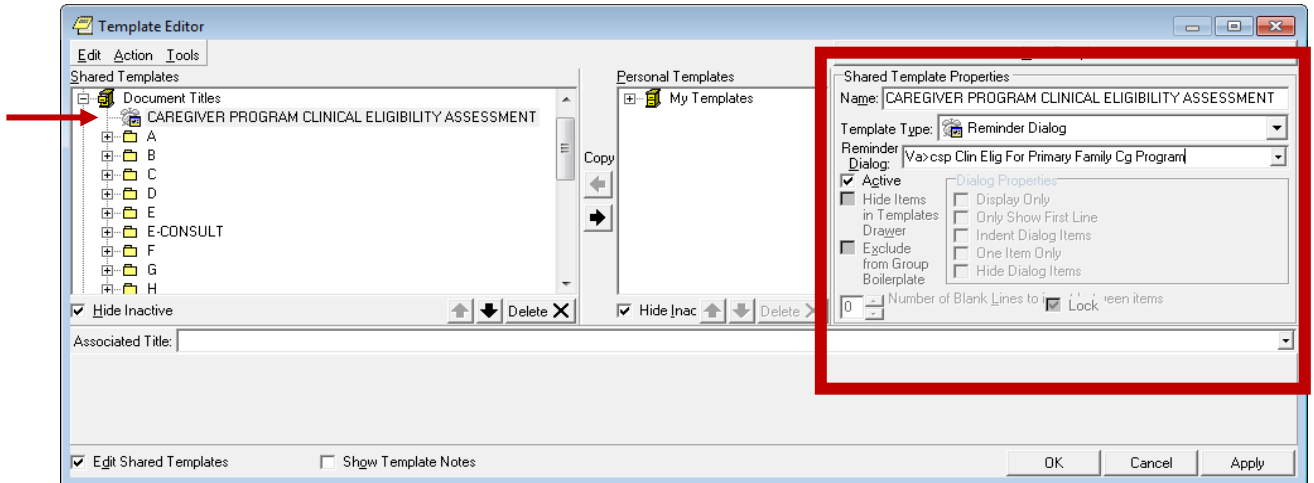

To do this, go to Template Editor, then Document Titles, select the appropriate folder (if applicable), and choose New Template (top right-hand corner).

Type in the following information:

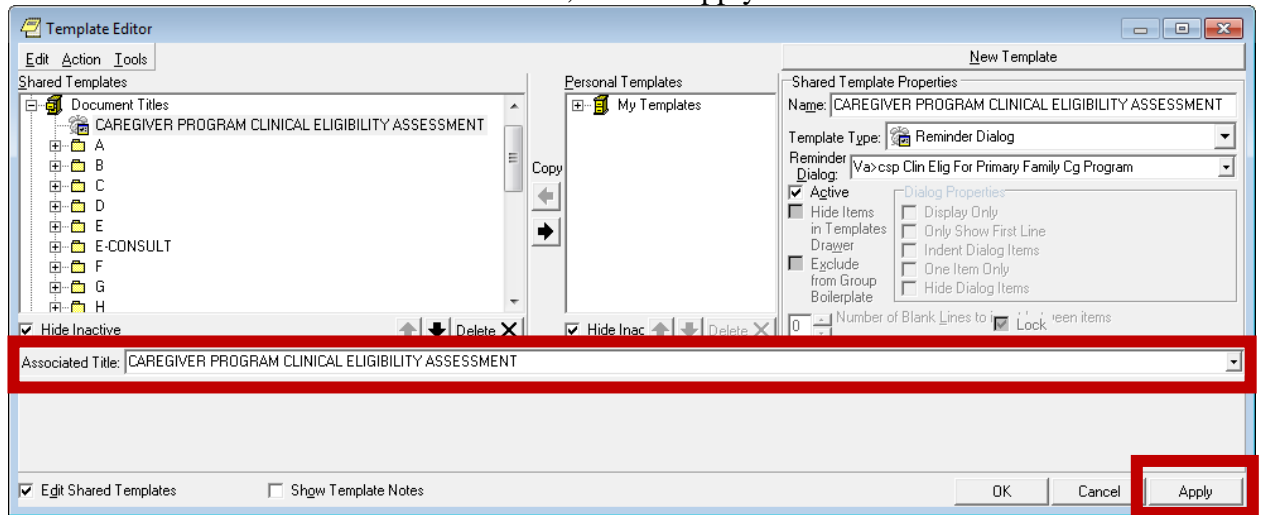

Name: CAREGIVER PROGRAM CLINICAL ELIGIBILITY ASSESSMENT

Template Type: Reminder Dialog

Reminder Dialog: VA-CSP CLIN ELIG FOR PRIMARY FAMILY CG PROGRAM

Next, type in the Associated Title, which in this case is CAREGIVER PROGRAM CLINICAL ELIGIBILITY ASSESSMENT, and hit Apply:

Repeat the above steps with the following information:

Name: CAREGIVER PROGRAM CLINICAL ELIGIBILITY ASSESSMENT  
CHILD NOTE

Template Type: Reminder Dialog

Reminder Dialog: VA-CSP CLIN ELIG CHILD NOTE

After the above has been completed, you are done setting up the Caregiver Program Clinical Eligibility templates.

## **Interdisciplinary Notes – Additional Information**

Interdisciplinary Notes are a feature of Text Integration Utilities (TIU) for expressing notes from different care givers as a single episode of care. They always start with a single note by the initial contact person (e.g., triage nurse, attending) and continue with separate notes created and signed by other providers and attached to the original note.

### **The Parent Note**

You start any interdisciplinary note with a parent note. A parent is a note title that includes an ASU (Authorization/Subscription Utility) rule allowing attachments. Your facility should have set up these titles with unique names that allow you to easily identify them.

Only certain members of your team should start Interdisciplinary Notes. To establish a parent note for a patient and a specific episode of care, all they do is create a note with the proper title, and sign it.

### **The Child Note(s)**

*Continue an interdisciplinary note by attaching one or more child notes to the parent note. The intention is for each child note to be by a different provider involved in this episode of care. Again your facility has established a number of notes with unique titles to act as child notes.*

**Above information taken from page 42 of the [TIU Coordinator & User Manual](#)**

### **SIDE NOTE:**

The child note will be entered into CPRS by the Caregiver Support Coordinators (CSCs). If the interdisciplinary process is new to you and/or your facility, you may want to familiarize yourself with the process for attaching a child note to the parent note, in case they have questions related to this.

Information related to entering and maintaining Parent/Child Interdisciplinary Notes can be found on pages 42-48 of the [TIU Coordinator & User Manual](#).

We also are providing the CSCs some guidance for this.

Note: At the time of release, the program office was made aware of an additional letter in the word “participating” contained within the dialog text for the element VA-CSP GP ELIGIBILITY CRITERIA 4 REV. It does not appear in the progress note. The element will be updated in a future clinical reminder update file.
