1. Introduction

The Department of Veterans Affairs (VA) Voluntary Service (VAVS) operates one of the largest volunteer programs in the Federal Government, supplementing staff and resources in all areas of patient care and support. VAVS' mission is to provide a structured volunteer program under the management of VA compensated employees in cooperation with community resources to serve Veterans and their families with dignity and compassion.

The Voluntary Service System (VSS) is an Enterprise web application that allows staff to track volunteers, assignments, schedules, hours, and the affiliated organizations. The VSS Enhancement project tracks donations and provides information on volunteer data for a variety of purposes. As mandatory requirements for on-boarding volunteers (including security) increase, significant improvements are needed to meet these demands.

The term "user" throughout this document refers to Voluntary Service staff members, not actual volunteers.

❗ This User Guide was drafted in a test environment and therefore the data is not active.

1.1 Purpose

The purpose of this VSS Enhancements User Guide is to provide summaries and step-by-step instructions for all VSS user screens. The intent of this document is to familiarize users with the functionality released with VSS*5*3.

The VSS User Guide is a reference manual used in conjunction with the online help in the VSS application. The User Guide provides an overview similar to the online help with the steps and procedures in a print form.

In addition, VAVS staff uses VSS to track the thousands of volunteers used for the national rehabilitation events. The VSS User Guide may be accessed on-line through the Vista Documentation Library (VDL) at the following address:

<http://www.va.gov/vdl/application.asp?appid=135>

- **This guide only includes what is completed through the most current Software build in Production. Future functionality is captured and provided at a later date.**

1.1.1 Document Orientation

The VSS User Guide and Artifact Repository for VSS can be accessed through the following link: <http://www.va.gov/vdl/application.asp?appid=135>

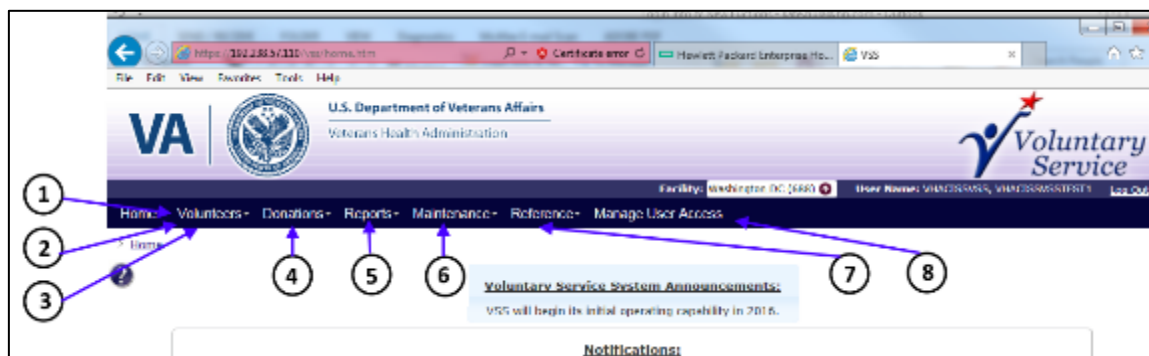

1.1.2 Organization of the Manual

Future updates to this document include sections corresponding to the different organizations that use the VSS application; Central Office (CO), the Enterprise Management Center (EMC), and the Voluntary Service Timekeeping stations.

The full VSS Menu includes the following areas of functionality:

1. Volunteer Records - for viewing and editing volunteer master records.
2. Time Posting - for recording hours of regular and occasional volunteers.
3. Awards - for issuing awards to volunteers.
4. Donations - for tracking donations to a Veterans Health Administration (VHA) facility.
5. Reports - for generating reports on various aspects of a facility's activities and personnel.
6. Maintenance - for tailoring the VSS application to a site's needs (e.g., entering local services, organizations, and programs).
7. Reference – for accessing important links, policies, procedures and other publications directly from VSS Web.
8. User Administration - for viewing and assigning security roles to system users.

Figure 1 - VSS Home Page and Menu Descriptions

1.1.3 Assumptions

This Guide includes the following assumptions:

- VSS*5*3 incorporates Standard Data Services lookup tables so that all current sites such as the Veterans Integrated Service Networks, Veterans Affairs Medical Centers, and Community Based Outpatient Clinics (CBOCs) are available for users and updated periodically.
- Military time is the standard for user interface (UI) input. The user may have the ability to set preferences which customizes the output display.
- All times entered and displayed are in the user's local time zone, which is synchronized when the user logs into the application.
- The VA standard inactive period of 15 minutes applies to this system. The user is

automatically logged out unless they choose to remain active. The VSS application (and its interfaces) is running on the most current platform supported by OI&T.

- The Structured Query Language (SQL) Extensible Mark-up Language 3.0 functionality is replaced. According to Enterprise Operations (EO), when users are moved off the SQL Server 2008 to SQL Server 2012, the functionality is not supported.

2. System Summary

VSS is an Enterprise web application that tracks volunteers, their assignments, schedules, hours, and their affiliated organizations. The new VSS enhancements track donations and provide information regarding volunteer data for a variety of purposes. For additional VSS information, refer to the Table below.

Table 3 - VSS System Information

VSS System Information	
System Name:	Voluntary Service System v5*1
System Type:	Enterprise Web Application
Hosting Type	Enterprise Operations Managed
Information Security Officer:	Robert Caldwell, Robert.Caldwell@va.gov

2.1 System Configuration

New system features proposed for the VSS Enhancements project are categorized as functional or non-functional.

Functional requirements represent new features or functions requested by the business. Non-functional requirements represent documentation, disaster recovery, 508 compliance, security, and system performance requirements.

3. Getting Started

Over 80,000 volunteers contribute more than 11 million hours of service to Veterans annually. Currently, VSS does not support the ability to categorize this volume of volunteers. Due to increased demands for on-boarding security checks, health screenings, and training, VSS enhancements reduce administrative overhead by automating tracking, and notifying VAVS Program Managers when mandatory requirements have been met.

3.1 Screen Elements

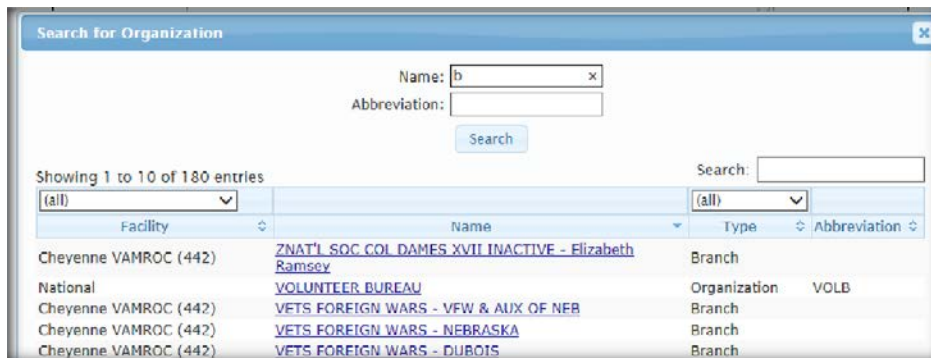

VSS uses a graphical User Interface. Screen access is limited by the system role assigned (user, manager, or administrator) and by the type of site you belong to: the CO, EMC, Game station, or Timekeeping station. Common screen elements include the following:

Data Grids used throughout this document include:

Filter Functionality: Allows you to enter a value or partial value, such as a Name or Abbreviation, to filter through or the ability to display values in ascending and descending order.

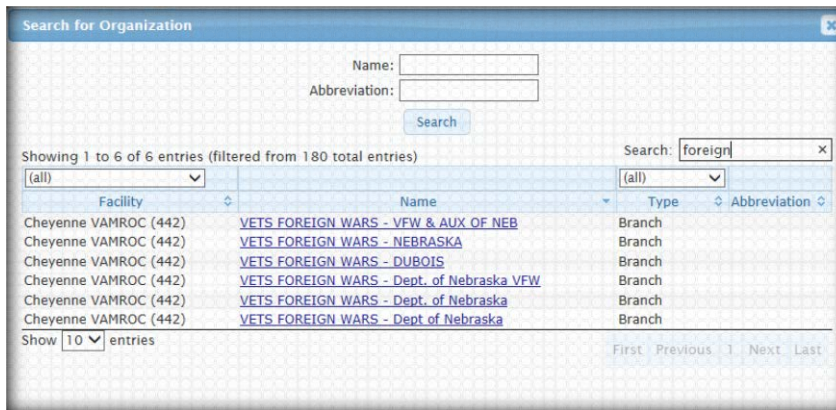

Search Button: Searches for the criteria entered in the text fields (i.e., Name or Abbreviation in the example below) and displays a list of results that match the criteria.

Figure 2 - Describing How to Use the Search Options

The Search text field enables you to search for any value in the results, narrowing down a match quicker on the Search box. This search is executed against all information currently being displayed in the list.

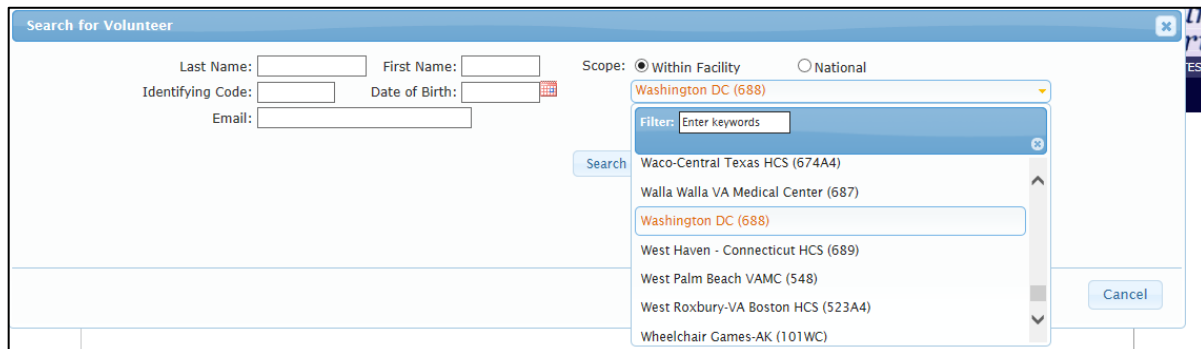

Figure 3 - Searching for Options

Field: Used for entering text or numbers.

Dropdown or Pulldown List: Some options are available in a dropdown list. When you click on the option, the list expands and then select the option you want. If the list is long, click on the up or down arrows on the bar to scroll through the list.

Figure 4 - Dropdown Menu

Radio Button: Radio buttons are options, one of which can be selected.

3.2 Performing Tasks

Most of the work performed in VSS is done with buttons and links. The function of a button is indicated in its name. Links are actions that navigate you to screens. For example, a click on this button to add a new donation.

Figure 5 – Add Donation Button

3.2.1 Button/Link Definitions

Activate - The **Activate** link is used in specific screens and initiates an action. This volunteer has at least one active assignment at any facility.

October 2017

Add - The **Add** link is used to add a new item to a list or to the database.

Advance Page - The Advance Page is an option to direct users to a specific page(s) (i.e., First, Next, and Last).

Assign/Assignment - Used for posting or assigning.

Cancel - The **Cancel** link exits the screen and returns you to the previous screen without saving the information.

Clear - The Clear button is used to erase entries or reset fields on a screen. It is not used to remove data from the database.

Close - The **Close** link closes a screen or popup window.

Delete - The **Delete** link is used to remove a record from the database.

Display - After specifying what to include in a report, the **Display** button enables you to see the report on the screen.

Edit - The **Edit** button is used to view or change information in an existing record.

Excel, PDF, and Print - The options are for creating documents or printing.

🔵 When using Internet Explorer to print, the user must manually set the print option to **landscape** for reports or data grids to include all content. Export options for Word/PDF to landscape can be controlled by the system.

Exit - The **Exit** button takes you to the opening of the VSS screen where the station dropdown list is located. In multiple screen tasks, the **Exit** button takes you back to the previous screen or the first screen in the process.

Inactive - **Inactive** status does not have any active assignments at any facility. A volunteer that stops volunteering at one location should not be prevented from volunteering at another facility. The volunteer should have all their assignments set to inactive. The volunteer should **NOT** be terminated.

Log in - The user role(s) depends on how a user can **log in** to VSS. An administrator must grant access for one or more VSS user access roles and applies to one or more facilities per user.

New - The **New** link is used when creating a new record in the database such as a new program, service code, volunteer, etc.

Next - When there are multiple screens for performing a particular task, the **Next** button navigates a user to the next screen in the sequence.

OK – The **OK** status is action confirmation.

Select - **Select** represents a pending action, choice, or decision.

Submit –The **Submit** button sends modified or new information to the database, or navigates the user to another screen.

Terminate - A volunteer termination would happen in rare instances and should be reserved for situations when it is known the volunteer will not return or should not return. For example, the volunteer has passed away or has been deemed unfit for service for health or minor behavior issues. To terminate a volunteer, select the **Terminate** button. A termination date is required. Termination date cannot be prior to the current date or on a date that the volunteer has time logged. For example, if a volunteer is to be terminated today but has accrued volunteer hours, the termination date must be the following date.

Terminated With Cause - If a volunteer is to be terminated with cause, meaning there is a more serious reason to terminate their engagement, for example, abusing a patient, stealing, etc., select the **Terminate with Cause** checkbox. Only a person with site or national administrator rights can clear a termination with cause. In both instances, a comment is recommended.

3.2.2 Screen Messages

The next table reflects some of the VSS Screen messages that the user sees throughout the system.

Table 4 - Screen Messages Table

3.3 Logging On

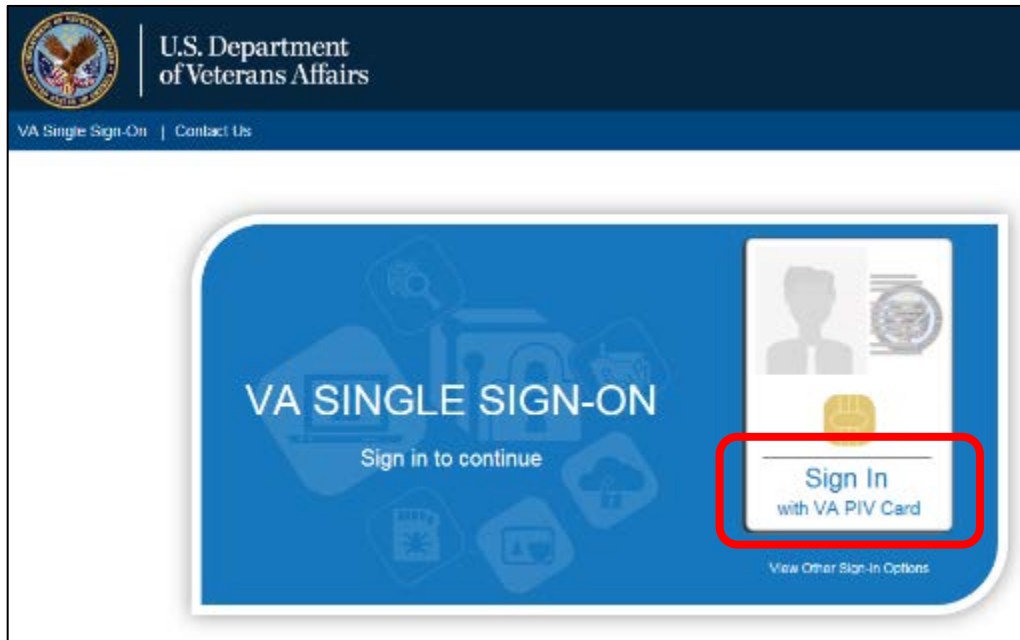

Users can access VSS using a web browser via single sign-on capabilities. Single Sign-On Internal (SSOi) is an authentication service provided by Identity Access Management (IAM) and designated for operations-based applications such as VSS. This service provides an extra layer of security when accessing the application, while reducing time associated with multiple logon/logoff activities. A PIV card is required, unless an exception to use VA User Credentials is allowed.

- Upon successful login, the user is directed to the **Select/Change Facility Screen** or to the **VSS Web Home Page**. If a user is assigned to multiple facilities and has not yet selected a default facility, the user must select the appropriate facility before proceeding.
- Refer to **Select/Change Facility** section for additional information. If a user is only assigned to one facility, the **VSS Web Home Page** displays for that facility. Once a user has selected the default facility, the **VSS Web Home Page** displays it. The system then uses this facility in all subsequent functions.

3.3.1 SSOi with PIV

1. Ensure your PIV card is inserted in the card reader.
2. Using the web browser, access VSS through URL: <https://vaww.vss.med.va.gov/>
3. The **VA Single Sign-On Screen** displays. Click **Sign In with VA PIV Card**.
 - If the **VA Single Sign-On Screen** is not displaying using Internet Explorer, ensure SSL 2.0 and SSL 3.0 are both unselected in the browser security settings. In your browser's top right corner, click the **Tools** icon and select **Internet Options**. Click the **Advance** tab and ensure the options are unselected.

Figure 6 - Single Sign-On with PIV Card

4. The system will verify and read the PIV card. If found, the **Windows Security** box displays with the list of certificates associated with the PIV card.
5. Select the **certificate** and click **OK** to display the **ActivClient Login** window.

Figure 7 - Selecting a PIV Certificate

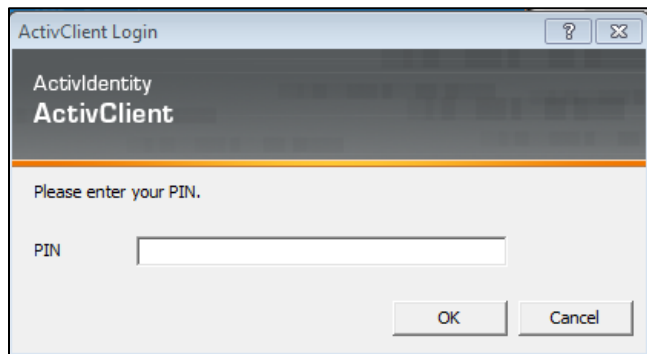

- If more than one certificate displays, select **Click here to view certificate properties** link to display the **Certificate Details** box. Select the Certificate Path tab and scroll to ensure the certificate ends **internal PIV Authentication**.

Figure 8 - Certificate Details

6. Enter your **Personal Identification Number (PIN)** and click **OK**.
 - If the incorrect PIN is entered, an error message displays and the user has six more attempts before being locked out and will need to be unlocked by calling the VA National Service Desk at 1-855-673-4357.

Figure 9 - Entering PIV Pin in ActivClient Box

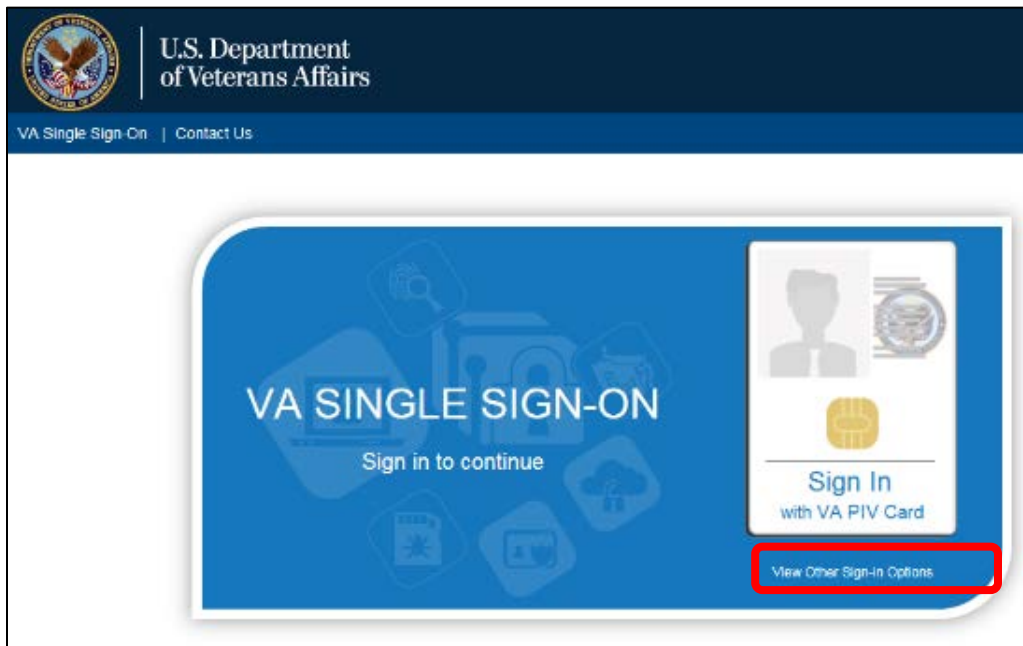

7. Once the system verifies the PIV card and PIN match, the **Select/Change Facility Screen** displays or the **VSS Home Page**.
 - If the user is *only* authorized to a single facility, the system defaults to the authorized facility. The user does not have to select it upon login. The System recognizes this access and uses the selected facility in all subsequent functions
 - If the user is authorized to access multiple facilities:
 - If the user has previously selected a default facility, the user does not have to select a facility upon login. The system defaults to the specified default facility and uses this facility in all subsequent functions. To change the facility, click the **Facility Name Link** in the header bar to display the **Select/Change Facility** page

3.3.2 Using VA Network ID and Password

In some cases, a user may sign-in with their **VA Network Username and Password**. This is only to be utilized when a PIV exemption is required. User must call VA Help Desk and request this exemption for this option to be utilized

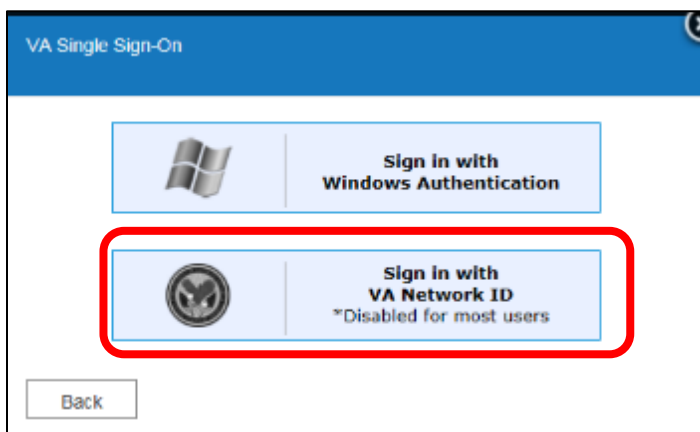

8. On the **VA Single Sign-On Screen**, click the **View Other Sign-On Options** link to display the **VA Single Sign-On** box.

Figure 10 – Signing In Using VA Network ID and Password

9. Click **Sign in with VA Network ID**.

10. The **VA Single Sign-On** box displays text fields to enter your **VA Network ID** and **Password**. Click **Sign-In**.

Figure 12 - Enter VA Network ID and Password

11. The system will verify the user and be redirected to the **Select/Change Facility Screen** or the **VSS Home Page**.

3.3.3 Windows Authentication

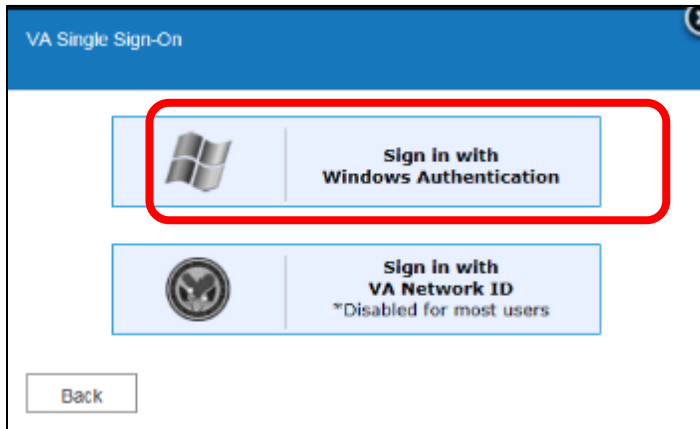

12. On the **VA Single Sign-On Screen**, click the **View Other Sign-On Options** link to display the **VA Single Sign-On** box.

Figure 13 - Signing In with Windows Authentication

13. Click **Sign in with Windows Authentication**.

Figure 14 – Selecting the Signing In with Windows Authentication Option

14. The system will verify the user and be redirected to the **Select/Change Facility Screen** or the **VSS Home Page**.

3.3.4 Select/Change Facility

If a user is authorized to work at multiple facilities and the user has not yet selected a default facility, the **Select/Change Facility Screen** displays after login. This screen displays a list of authorized facilities and can be accessed at any time by authorized users. If the user does not have a default facility on file, the system recalls the last facility visited and highlights that facility the next time the user logs in.

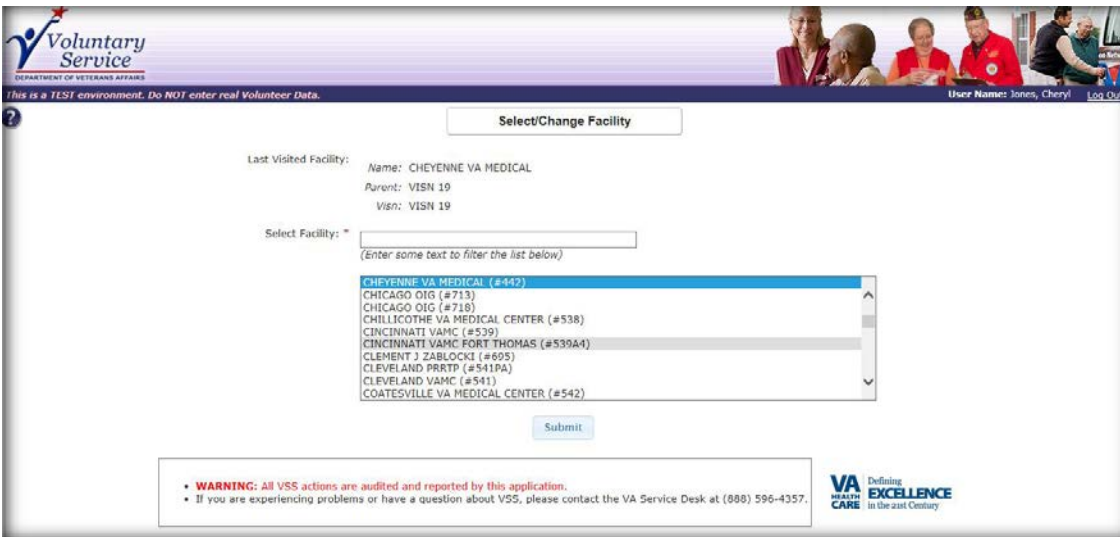

❶ VSS utilizes user access roles to control access to application functionality (facility).

1. From the **Select/Change Facility Screen**, select the appropriate facility from the list to access VSS Web (Example: Cheyenne VAMC (#442) in the **screenshot** below is selected).
2. Click on the **up** or **down** arrows on the scroll bar to scroll through the list. To filter through the list, enter the three digit facility code or any part of the facility name in the **Select Facility** text box.
3. For an easier selection, the last facility accessed is highlighted in the **Select Facility** list.
4. Click **Submit**.

Additional information that displays on the screen includes:

- Last Facility Visited:
 - Name: In this example, Cheyenne VA Medical
 - Parent: Veterans Integrated Service Networks (VISN)
 - VISN: 19VA VHA is divided into 21 geographical regions or areas called VISNs. In this example VISN 19 represents the VA Rocky Mountain Network.

Figure 15 - Select/Change Facility Screen

3.4 Exit System

The user must click the **Log Out** link located above the **VSS Menu Bar**. A confirmation message is displayed, click **OK** to confirm.

Figure 16 - Confirmation Message to Exit VSS

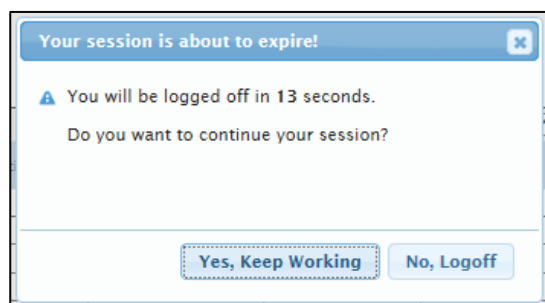

Once confirmed, the user is logged out of VSS and returns to the **Login** page. User may exit their web browser once logged off. If not confirmed, the system returns to screen displayed, when logout was requested.

3.5 Automatic Timeout

The user is automatically logged out of the system after 60 minutes of inactivity. A warning message displays, counting down from 30 seconds until a user is logged off the application. A user may click the **Yes. Keep Working** button, to stop the countdown and continue working. If the system automatically logs off, any work in progress is not retained. User will have to login again using SSOi with their PIV card and PIN or other options.

Figure 17 - Session About to Expire Message

3.6 VSS Web Home Page

The **VSS Web Home Page** displays once the user is successfully logged in. From the home page, the user can access VSS functionality using the menu options, based upon the access role assigned.

i The example displayed in the next Figure is a Test Environment Banner and will not be seen in Production.

- The **Facility Name** and **Facility Number** that the current user is working in are displayed in the header.
- The **User Name** is displayed in the top right corner of the application header.
- The **Log Out** link is available to exit VSS.
- The Footer section is the area at the bottom of VSS application screen. The section contains an audit message, contact information for questions or problems, application version, and copyright date.

3.6.1 Announcements

Any important program announcements will display in the **Announcements** box.

3.6.2 Notifications

Users can view and manage notifications on volunteer and system activities, such when an e-donation from Pay.gov is received, from the VSS Homepage. In the **Notifications List**, messages display by severity and include a brief description and the user who issued the activity. Volunteer notifications allow the user to directly navigate to the **Volunteer Profile** and view activity or clear the notification from the list in the **Actions** column.

- Only e-donations, LEIE Matches, and Kiosk change are available on the Notifications List on the VSS Home Page. All other notifications are located on the **Requirement Notifications Screen**.
- Some notifications (i.e., LEIE Notifications) can be cleared manually on the VSS Home Page. These notifications have a default timeout to keep the list update-to-date, avoiding a long backlog.
- In some instances, notifications calculated by the system will no longer be listed when resolved through VSS.

- Click the **Requirement Notifications link** to view additional notifications on the **Requirement Notifications Screen**.
 - **Note:** The **Requirement Notification Screen** can also be accessed under the Volunteers Menu by clicking on the menu option.

The following displays in the **Notification List**:

- Each notification in the **Severity** column displays a status of **High, Medium** or **Low** and a color coded icon.
 - High = Red
 - Medium = Yellow
 - Low = Not color coded.
- **Name** – Brief description of the notification. The bullet point below displays an additional explanation.
- **Details** – Includes which Volunteer initiated the activity. Click the **name link** to view the **Volunteer Profile**.
- **Originating Facility**
- **Created Date**
- **Removal Date**
- **Actions** – Click the **arrow** button to view the activity (i.e., **View Volunteer** or **View E-Donations Received** displays in the dropdown) or clear the notification.
- Filters are available for all columns.
- Edit volunteer requirements, view data changes, or clear notifications.
- **Excel, PDF, and Print** enables a user to export and print notifications.

3.6.3 VSS Menu Bar

The **VSS Menu Bar** at the top of the screen allows access to functions that a user can perform, according to role assigned to the user. Example 1 in the **Figure** refers to the **VSS Menu Bar**.

Breadcrumb Link - As a user navigates back and forth through the application, the names of screens display at the top left of the screen. A user can click the **Breadcrumb link** and go to that

location. Example 2 in the **Figure** refers to the **Breadcrumb link**.

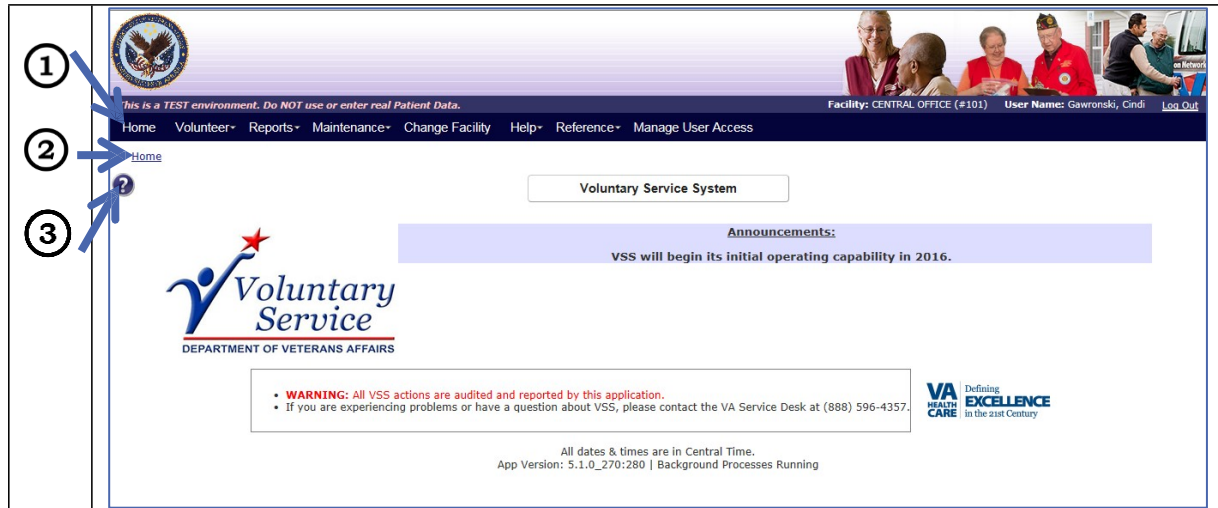

Help – Clicking the **Help** icon  on each screen displays the **online help page** that is specific to that screen. A user can access the online help for step-by-step procedures on how to utilize the functionality of VSS. Example 3 in the **Figure 3** refers to the **Help** icon.

Figure 19 - VSS Menu Screen

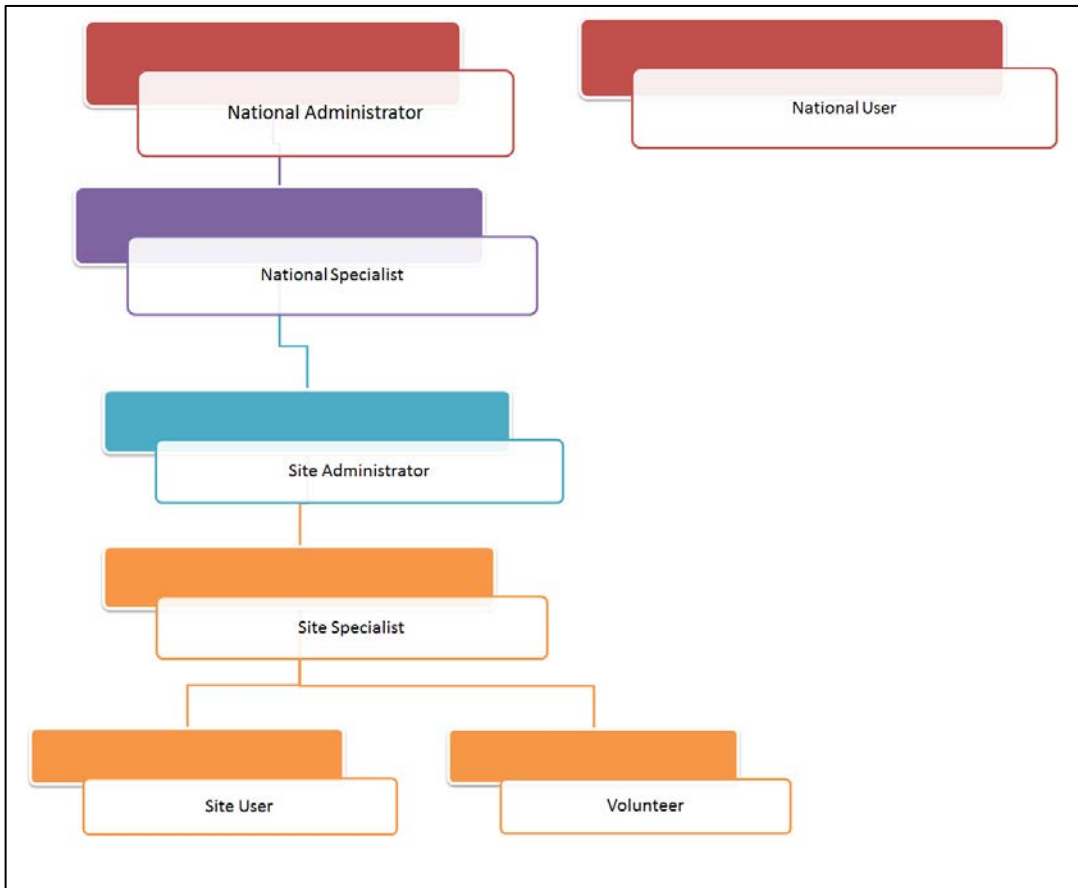

3.7 Permission Levels

VSS application utilized by the Voluntary Service Office staff utilizes an access role granted to the user for each facility to control access to application functionality. Each user access role has a set of predefined permissions associated with it and the user **must** be assigned a user access role before using the VSS application.

The next **Figure** represents the Permission Hierarchy for VSS. The National Administrator is the highest level and is responsible for nationwide VSS administration. This includes granting all levels of user access and maintaining all national lists and reports.

For more information on the access roles, refer to the CRUD Matrix in section 13 within this document.

Figure 20 - Permission Hierarchy

3.8 User Access Levels

VSS is designed for primary and secondary users to easily track volunteers, assignments, schedules, hours, and their affiliated organizations as described in the next table.

Table 5 - User Access Levels Table

Type of User	Description	Responsibilities
Primary Users	Voluntary Service Staff	<ul style="list-style-type: none"> Volunteer Management, Timekeeping, and Donation Tracking.

Primary Users	National Administrator	<ul style="list-style-type: none"> • Voluntary supervised programs; tracks Voluntary Services at all VHA facilities. • Creates basic information for new VHA sites or edits information for existing sites. The station information resides in the institution file. • VSS National Administrator shall have the ability to update/edit National Advisory Committee (NAC) information.
Secondary Users	Volunteers (contractor or employee)	<ul style="list-style-type: none"> • Take mandatory training, transport patients, work with Veterans at the National Games, and other volunteer duties, including entering their time and printing meal tickets, when applicable.

4. Volunteers

Users with the following roles are permitted to use the **VSS Volunteers Menu** option.

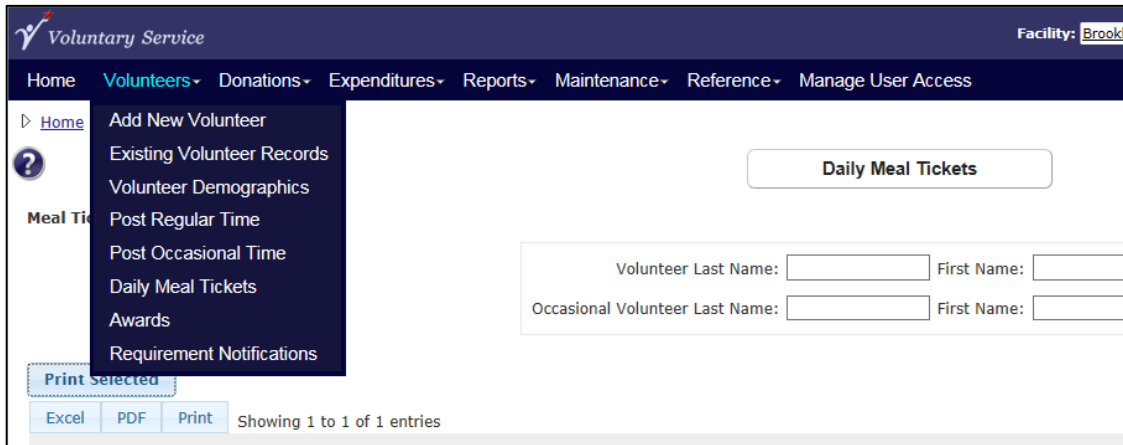

- **National Administrator (Only if logged into a local facility)**
- **National Specialist (Only if logged into a local facility with Read Only access)**
- **Site Administrator**
- **Site Specialist**
- **Site User (Read Only access)**

From the **VSS Menu Bar**, select **Volunteers**. The following dropdown options are listed:

- **Add New Volunteer**
- **Existing Volunteer Records**
- **Post Regular Time**
- **Post Occasional Time**
- **Daily Meal Tickets**
- **Awards**
- **Requirement Notifications**

- ❗ Names used throughout this document in the screenshots are examples only and are not valid names.

Figure 21 - Volunteers Menu Options

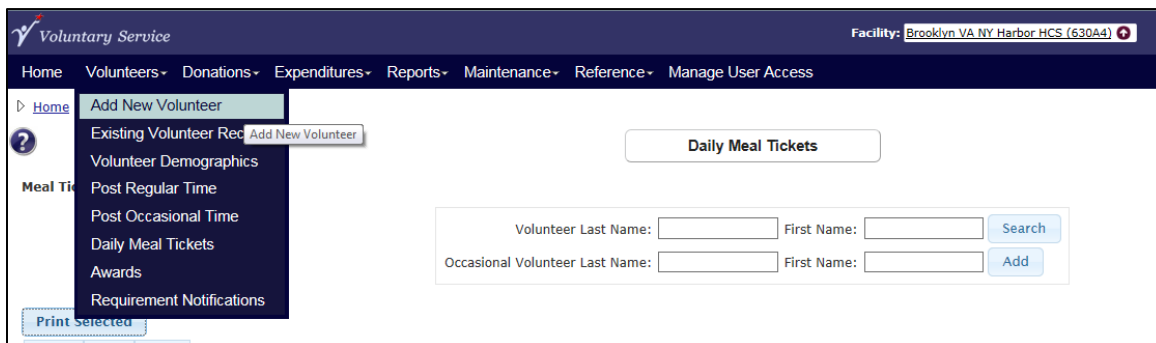

4.1 Add New Volunteer

With the appropriate permissions assigned, you can add a new volunteer to the VSS application. But first, you must perform a search to verify if the user exists in the database.

The high-level process for creating a new volunteer is:

- From the **Volunteers Menu**, select **Add New Volunteer** to display the **Add New Volunteer Screen**.

Figure 22 - New Volunteer Menu Option

- Search for existing volunteers thoroughly to ensure a duplicated **Volunteer Profile** is not created.
 - ❗ **Note:** The system will always perform a duplicated volunteer search based on the “Lastname + DOB” and “Firstname + DOB” matching criteria when creating or modifying a Volunteer Profile.
- If a volunteer is not found, the **Add New Volunteer** button is available to create the new volunteer profile.
- Use the **Edit Volunteer Screen** to Add Assignments and Organizations. A volunteer

cannot log in or get meals without at least one active Assignment and one active Organization.

4.1.1 Search for an Existing Volunteer

Searchable Fields for Add New Volunteer

- **Last Name** - Enter the Last Name.
- **First Name** - Enter the First Name.
- **Scope** - Search within a Facility or Nationally.
 - When adding a new volunteer, the **National** option is auto selected, locked, and cannot be changed.
 - When searching for an existing volunteer to edit, the **Within Facility** and **National** options are available to use.
- **Identifying Code (IC)** - The user's sign-in code and is based on when the volunteer was added. The IC is alphanumeric. In the example below, L represents letter. N represents number.
 - Existing users ICs remain (i.e., LNNNN).
 - For users that previously had duplicate ICs, the user with the oldest entry will keep the original IC. The other users will have an extra number at the end of their original IC (i.e., LNNNNN).
 - New user ICs are randomly assigned a six digit code that is three letters and three numbers (i.e., LLLNNN).
- **Date of Birth (DOB)** - Calendar displayed:
 - If the user clicks on the calendar, the current month displays with the current year. You can change the information by entering a two digit month, two digit days, and four digit years.
 - Another option is to use the forward and backward arrows to select the month and date, and enter the four digit year.
 - When using accessibility tools, the user can directly type in the date.
- **Email** - Optional; Search existing volunteers by matching the email address.
- **Include Inactive Volunteers** - This option is selected and locked. When adding a new volunteer a user must view all "*Inactive Volunteer*" matches in the **Search** to help avoid duplicating an existing volunteer.

4.2 Edit Volunteer

The **Volunteer Profile** displays the following information specific to the volunteer:

- **Name** - The Volunteer Name. Click  to edit the name.
- **Entry Date** – This is a *Read Only* field calculated by the system. The system date is used when a new volunteer was created. Migrated data has static entry dates that were previously entered potentially before VSS existed.
- **Years Volunteering** – This is a *Read Only* field calculated by the system as every fiscal year the volunteer has logged time at least once, in addition to every year prior to FY2002.
- **Primary Facility** – If the volunteer has **Assignments** at more than one facility, then all the facilities with active assignments are available in the dropdown. If a volunteer has no assignments, the default value is the facility the user is currently working in.
- **Primary Organization** – If the volunteer has more than one organization then all the active organizations display. If a volunteer has no organization assigned, the system displays this message, “*Please add at least one organization.*” A Primary Organization is established in the **Organization section** of the **Volunteer Profile**.
- The **Print** button displays at the top of the profile and prints all details on the Volunteer Profile in order for staff members to have a printable reference sheet.

Within the **Edit Volunteer Screen** are multiple sections representing different functional aspects of the volunteer. The sections shown may vary depending on your screen zoom range, and may show more than one column. In this example, two columns appear at 75% screen zoom range. Enter all required fields on the **Edit Volunteer Screen.**” On this screen a message displays, “*The volunteer was created successfully.*”

4. If the **Search** returns no results, a display message displays, “*Sorry, no volunteers were found that matched the specific criteria*” on the screen.

4.4 Volunteer Demographics

The **Volunteer Demographic Screen** provides users with a collective list of volunteers demographic and profile information. The list is customizable, allowing a user to define which information they want to see for an active or inactive volunteer, which facility, and add any restrictions. Customizations are based on roles, as National roles can choose which facility, nationally or assigned, to view in the list. Users with facility only roles are limited to the current logged in facility. Facility users do not have access to view the menu option.

In the Volunteer Demographic Screen, National roles can choose either the logged in facility or all volunteers nationally. Users with Facility Only roles are limited to the current logged in facility. Facility users will not see the option to toggle nationally/facility only.

This report combines the current VSS reports: New Volunteers, Sign-In Code List, Telephone List, Terminated Volunteers, and Alphabetical Volunteers, as well as provide additional columns and reporting formats in an adhoc manner.

1. From the **Volunteer Menu**, select **Volunteer Demographics** to display the **Volunteer Demographics Screen**.

5.3.1 Read Only Donations

Donations that meet the following criteria cannot be edited or updated. Donations are displayed in *Read Only* format:

- All donations must be entered for the current fiscal year (Oct 1 – Sept 30) by the end of the fiscal year (Sept 30). Users are allocated two weeks (+ 14 days grace period) after the October 2017

fiscal year end to make any needed corrections for the previous fiscal year.

- If Donation Date is in previous fiscal year (Example: date < 10/1/14) - *Read Only*.
- If Donation Date is in this fiscal year (Example: date >= 10/1/14 and <= 09/30/15)
If Current date > 10/14/15 – *Read Only*.
- If the donation is for a facility other than the current working facility, the donation is available for display only. The user cannot update it without changing their working facility.
 - If Inactive Organization/Local Branch is Donor, the donations are *Read Only*.
 - If Inactive Organization/Local Branch is affiliated with a Donation, the donation is *Read Only*.

5.3.2 Change Donor – Donation Details Screen

The **Change Donor** buttons is only available when editing and updating a donation on the **Donation Details Screen**. If the user has not updated any of the Donation Detail information currently captured, the button is enabled and can be selected. This allows the user to change the Donor associated with this donation, to another Donor regardless of Donor Type by navigating to the **Donor Search Screen**.

- Once a new Donor has been selected, the updated Donor information is displayed with a confirmation message, “*Are you sure you want to move this donation to the new Donor?*”
 - If confirmed, this Donation is associated with the new Donor. If not confirmed, this donation remains with the previous Donor information.
- If changes have been made to the **Donation Detail Screen** the Change Donor feature is not available and is disabled. The user has to post the changes first before the button is enabled.

Figure 110 - Changing Donor on the Donation Detail Screen

The screenshot shows the 'Donation Detail' screen. At the top, there are links for 'Edit Donor' and 'Edit Donation'. Below this is a 'Donation Detail' header. The 'Donor' section includes fields for Donor Type (Individual), Name (donor_CT), Address (123 4444 CT), Email, and Phone. A 'Change Donor' button is visible below the Donor information. The 'Donation' section includes Facility (Dallas-North Texas HCS (549)), Donation ID (1758847), Donation Date (04/17/2017), Donation Type (Check), Check Number (12345), and Check Date (04/14/2017). An 'Assign GPF' button is located at the bottom of the Donation section.

5.3.3 Merge Donor or Make Anonymous

Merge Donor or **Make Anonymous Buttons** provide the ability to merge two existing donors into one from the **Edit Donor Screen**. Within this screen, all donations are moved from the source donor the user is currently viewing, into the target donor and deletes the source donor.

- All donations for the source donor are moved to the target donor regardless of the facility

where it was recorded, the fiscal year of the donation and the facility the user is working in at the time the merge is executed.

- Any donor can be merged with any other donor. The source and target donor does not have to have the same Donor Type.
- If the Donor Type for the source Donor = Organization, it **must** have a status of **Active** to be eligible for the merge. If the Organization is Inactive; the merge feature is not available.
- If the Donor Type for the target Donor = Organization, it **must** have a status of **Active** to be eligible for the merge. If the organization is Inactive; the user receives the message “Target Donor Organization is inactive, please choose a different target Donor.”

Only National or Site Administrators in the local facilities has access to the **Merge Donor** button.

7.1.5 View Excluded Entities

The Office of the Inspector General publishes a List of Excluded Individuals/Entities (LEIE) of individuals and entities currently excluded from participation in Medicare, Medicaid, and all other Federal health care programs. Any individuals/entities who have been reinstated are removed from the LEIE list.

1. From the **Reports Menu** dropdown list, select **Volunteers>View Excluded Entities** to display the **Excluded Entity Matches Screen**.

Figure 136 - Excluded Entity Matches Screen

The screenshot shows the 'Excluded Entity Matches' screen. At the top, it indicates 'LEIE source data last updated: 5/9/2016' and 'LEIE process last executed: 5/31/2016'. Below this is a table with 10 columns: Volunteer, Facility, LEIE Name, SSA, 42 USC Code, Exclusion Date, Description, VSS Address, LEIE Address, VSS Date of Birth, and LEIE Date of Birth. The table contains five entries, each representing a match between a volunteer and an excluded entity. The first entry is for Howard, Alice Qv at Cheyenne VAMROC (442), with a conviction relating to patient abuse or neglect. The other entries are for Zyderfeld, Mary Ann, McWilliams, Monica, Kissam, Jeffrey R, and Abate, Suzanne, all at Tuscaloosa VA Medical Center (679), with license revocation or suspension descriptions.

The **Excluded Entity Matches Screen** provide a list of existing Active volunteers (Active = volunteers who have their Primary Facility = to the facility the user is working in OR who have an active assignment at the facility the user is working in AND are not TERMINATED) that have an entry on the LEIE file that matches the volunteer's first name, last name, suffix, and date of birth.

The **All Excluded Entities Screen** provides a list of all excluded entities received in the input file (regardless of whether or not there was a match to an existing volunteer).

Screen Information

LEIE Source Data Last Updated: This date is when the table was last updated with new values and not when the file was last retrieved (daily). The file is updated once a month therefore VSS pulls the file daily and updates the VSS table with values.

The following fields are displayed for each match:

View Excluded Entities Report

- Volunteer Name
- Facility
- LEIE Name
- SSA
- 42 USC Code
- Exclusion Date – Date this person was added to the LEIE file.

- Exclusion Description
- VSS Address composite
- LEIE Address composite
- VSS DOB
- LEIE DOB
- If there are no Volunteers that match the LEIE file the user receives a message “*No Excluded Entities were found for facility (Facility name (#))*”. The link to “View all LEIE data” takes the user to “All Excluded Entities.”

Figure 142 - Donations Menu Options

7.2.1 Manage Letter Templates

All **Thank You Letter** templates initially include default text in the letter. Facilities may choose to use the default text or modify the template(s).

1. From the **Reports Menu** dropdown list, select **Donations > Manage Letter Templates** to display the **Manage Letter Template Screen**.
2. The user is shown a list of the template types and has an option of templates. Each facility currently has the ability to generate 5 types of **Thank You Letters**.

This is based on the Donation Type. Letter Type 2 (Family Contact) is composed of two different letters. Therefore, there are 6 different letter templates that a user may modify:

- Type 1 - Cash/Check/Credit Card/E-Donate In Memory Of
- Type 2 (a) - Family Contact (To Donor)
- Type 2 (b) - Family Contact (To Family)
- Type 3 - Cash/Check/Credit Card/E-Donate Not in Memory Of
- Type 4 - Activity Donation
- Type 5 - Item Donation

3. All default text for templates is based on the templates saved for CO (#101). Changes can

be made to the CO template to update the default text (appropriate permissions are*required). Any changes made to the CO templates changes the default text for all sites without customized templates.

4. Upon making a selection, the user is presented with a screen to edit the selected template and click **Submit** to save changes.

Physical locations are used within Voluntary Service as part of the assignment. These assignments represent different physical mailing addresses and are managed as part of the facility. Examples are: Cemeteries, CBOCs, or warehouses. The Main Facility is the default option at every facility.

Physical locations cannot be deleted if volunteers have logged time against an assignment. The locations must be inactivated instead. Inactivating a physical location also activates all of the associated assignments and associated volunteer assignments. If a user wants to reactivate an assignment or volunteer assignment after reactivating a physical location, it must be done manually.

Physical Location Data Fields

- Location Name
- Address
- Contact Information
- Volunteers: Contains the volunteers count:
 - Active - All volunteers with an active assignment for the location.
 - Total - All volunteers with an assignment of any active/inactive status.
- **Status** – Indicates and an Active or Inactive facility, plus a user can inactive the location and all volunteer assignments. Click the **Active** icon to inactivate location and volunteer assignments.

Kiosks Data Fields

- Default Language (English) – This is the facility specific welcome text that displays to volunteers on the Kiosk login screen.
- Alternate Language (Spanish) – This is the Spanish language equivalent welcome text that displays on PC Kiosk login screen.
- Kiosk Location – For each Kiosk at a facility an entry must be made to this table. The location is where the Kiosk is physically located at the facility. The system automatically names the default entry as is **Main** but should change to accurately represent where the Kiosk is located. Additional Kiosk information must be entered here before local information technology can set them up for use at the facility floor. Expected values are descriptive locations where you place the Kiosks (e.g. Recreation Room, VSS Office, and Main Entry).
- Registered – If the Kiosk is not registered, it displays on the **Station Selection Screen** on the Kiosk and can be selected. Once the Kiosk setup is complete, the registered value is set to **Yes** and will no longer be listed on the **Station Selection Screen** on the Kiosk. If the Kiosk is offline, the user can click the **Registered** box to remove the registration on the **Kiosk Details** window.
- Printer Status – Displays if Kiosk printer is currently functioning properly. Clearly marked Kiosks are important for identifying purposes should a problem arise.
- Queued Print Jobs – Number of queued print jobs. Normally this value is 0 or 1.
- Last Error – This is a system error message from the Kiosk designed to assist Tier 2 and Tier 3 Support in trouble shooting, also printer errors (e.g., out of ink or paper, other issues). If there are Kiosk issues and this field contains a value, include it with your Helpdesk ticket.
- Click **Add Kiosk** to add a new Kiosk entry on the **Kiosk Details** box. Enter the new Kiosk Location name (required) to identify the Kiosk and then click **Submit**. The new Kiosk displays in the Kiosk List.
 - This must be established in order to setup the kiosk at the facility.
 - The same kiosk name cannot be entered twice and the following message “*Another kiosk exists with this location name. Please choose unique kiosk location names.*” will display.

Figure 155 - Adding a New Kiosk in the Kiosk Details Box

The screenshot shows a dialog box titled "Kiosk Details". It features a text input field for "Location:" with an asterisk indicating it is required. Below the input field is a checkbox labeled "Registered". At the bottom of the dialog, there are two buttons: "Submit" and "Cancel".

- Action – **Edit** Kiosk or **Delete** icon. If deleted, the Kiosk needs to be reset with a new ID, recreating it with the same name will not work.
 - **Edit** – Edit Kiosk name or register/unregister an existing one in the **Kiosk Details** box.
 - **Delete** – Delete an existing Kiosk. If the user attempts to delete the Kiosk, the following message displays, “Are you sure you want to delete this kiosk? Deleting this entry will disable the kiosk currently configured for it. If the kiosk is being moved, please name it instead. The kiosk will need to be reconfigured by IT staff before it will work with a new entry.” If the user chooses **OK**, the Kiosk will be deleted.

Meal Ticket Settings Data Fields

- Number of Meals - The number of meals offered varies between canteens. For example, the canteen opens for breakfast and lunch, but the program may only provide 1 meal a day, so the volunteer has to choose which meal. This setting should not exceed the number of meals the canteen provides daily (if your canteen only provides breakfast and lunch, it should not be set to 3).
- Meals Allowed on Days - Select the **Saturday**, **Sunday**, or **Holidays** checkboxes.
- Meal Authorization Type - If your facility does not have active Kiosks you can set the Meal Authorization Type to **List**. This indicates that the Meal Ticket Form is delivered to the canteen manually each day. Select **Ticket** to indicate Meal Tickets are provided.
- Meal Price - This is the maximum value of the meal tickets. The price is the same for all meals served.
- (Required) Hours - Each subsequent meal must require more hours than the previous one.
- (Required) Cutoff times for meals - Cutoff times are set in military time and descend chronologically for each subsequent meal.

- Example - Volunteer with 3 meals for canteen that serves Breakfast 7am-10am, Lunch 11am-2pm and Dinner 4pm-7pm.
 - The cutoff time for 1 meal would be 1900 because the last meal is dinner, but the cutoff time for 2 meals would be 1400 because they could only eat lunch and dinner. The cutoff time for the third meal would be 1000 because the only way to eat all three meals is to arrive at the canteen for breakfast before 10:00 a.m.

Donation Settings and General Post Fund Data Fields

- Voluntary Service Signature: The name of the program manager at the facility who signs the letters.
- Director's Signature: The name of the (usually non-VAVS staff) senior level staff member who signs high value donation thank you letters. This person does not have to be a director, but the term for that role in VSS is Director.
- Set Value Amount: The donation value threshold that determines whether the thank you letter prints out with the Program Manager or Director's signature line. Values above the threshold are printed with the Director's name for signing.
- General Posting Fund (GPF): Donations may be directed to these accounts. Items added to this list display for selection on donations. A GPF can only be deleted if there are no associated donations; otherwise it may only be inactivated. Inactive GPFs do not show up for selection on new donations.
 - Click **Add GPF** to add a general posting fund in the **General Post Fund Details** box.

8.2 Manage Organizations

1. From the **Maintenance Menu**, select **Manage Organizations** to display the **Organization List Screen**. This screen displays and provides the ability to view a list or Search for existing organizations that are established at either the National or Local level.

Figure 161 - Manage Organizations Menu Option

8.2.1 Organization List

From the **Organization List Screen** the user is able to view a list of all existing organizations or navigate to view the detail for an existing organization or create a new organization. The user also has the capability of exporting the list.

The **Organization List Screen** displays the Facility, Code, Name, Abbreviation, Type, NAC Committee Member flag, Annual Joint Review (AJR) Month, NAC Executive Committee Flag,

NAC Membership Status, and Status for each existing organization.

1. The **Organization List Screen** contents depend on the facility the user is currently working in. For example:
 - If user is working in the National facility (i.e. CO (#101):
 - The list includes organizations with a National scope.
 - The list displays in ascending order of Organization (Display) Name.
 - If user is working in another facility:
 - The list includes both the National and the Local Organizations.
 - The National Organizations are displayed first in ascending order by Organization (Display) Name followed by Local Organizations within the Facility in ascending order by Organization (Display) name.
 - The user can filter to include the organizations within the working facility or the national organizations.
2. The **Organization List Screen** only includes organizations with a status of Active initially. The user can filter to include Inactive organizations and sort the columns:
 - The list can be narrowed by applying filter values for Facility, Organization Type, NAC Member, NAC Executive Member, NAC Membership Status, AJR Month, and Organization Status columns.
 - If filter values have been applied, reset to All to reinitialize the list.
 - The list can be exported with any filters applied and as is when exported. The export into PDF defaults to Landscape mode.
 - The user can execute a Search (i.e. find any characters anywhere in any column of the list) to narrow the list to only organizations that match the Search criteria. This Search is executed against all data currently being displayed.

Figure 162 - Organization List Screen

The screenshot shows the 'Organization List' screen. At the top, there are navigation links: Home, Volunteers, Donations, Expenditures, Reports, Maintenance, Reference, and Manage User Access. Below these is a breadcrumb trail: Home > List Organizations. A search bar is located on the right. The main content is a table with the following columns: Facility, Name, Abbreviation, Type, NAC Member, AJR Month, NAC Executive Member, NAC Status, and Status. The table displays 10 entries, all with a status of 'Active'. The first entry is '29TH DIVISION ASSOC' with a National facility, Civic type, and no NAC membership. The last entry is 'Air Compassion for Veterans' with a National facility, Academic type, NAC Member status, and 'Good-Donor Member' NAC status.

10. Manage User Access

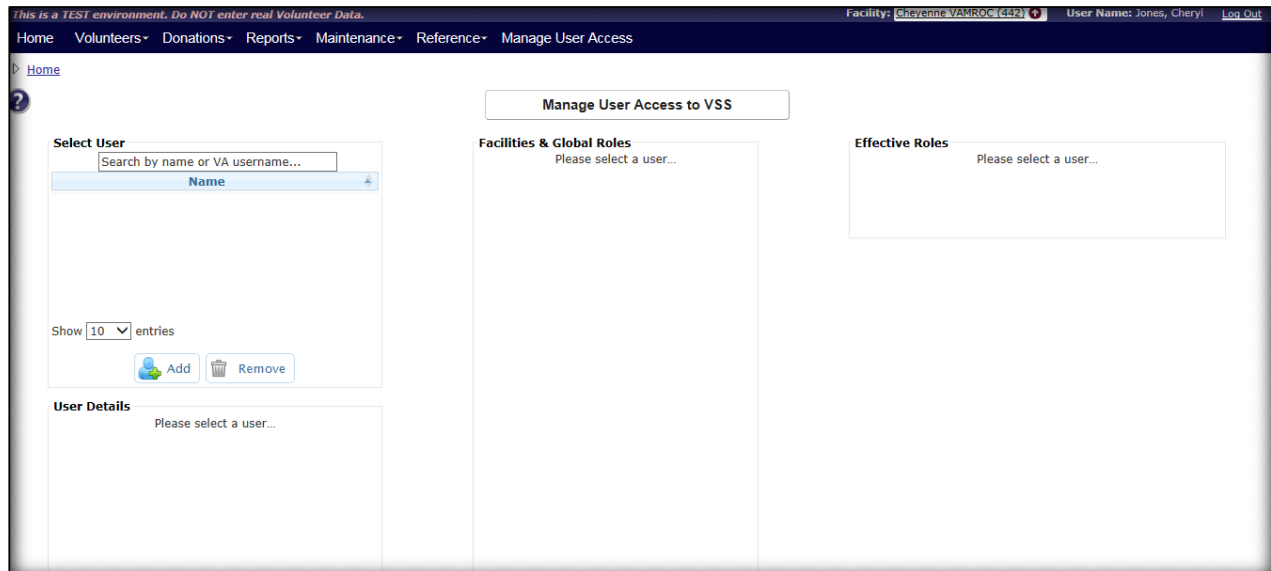

Users with the following access roles are permitted to use this menu option.

- **National Administrator**
- **National Specialist**
- **National User**
- **Site Administrator**

- **Site Specialist**
- **Site User**

From the **VSS Menu**, select **Manage User Access** to display the **Manage User Access to VSS Screen**.

Figure 197 – Manage User Access to VSS Screen

10.1 Manage User Access

The **Manage User Access to VSS Screen** can only be accessed by the National Administrator, National Specialist, Site Administrator, or Site Specialist. This screen is used to assign roles to site users. The role determines what data the user can access. The term **User** refers to Voluntary Service staff members, not volunteers. Volunteers are administered through the **Add Volunteers** and **Edit Volunteers** screens.

- **Note:** User can only grant roles and assign facility(s) when they are assigned a **Global Role** under the **Facilities and Global Roles** section. If user only has **Customized** roles, they cannot grant access, but they have access to VSS.

National Administrator can grant the following roles and any facility:

- National Administrator
- National Specialist
- National User
- Site Administrator
- Site Specialist
- Site User
- Volunteer

National Specialist can grant the following roles and facility(s) to which they are assigned:

- National User

- Site Administrator
- Site Specialist
- Site User
- Volunteer

Site Administrator can grant the following roles and facility(s) to which they are assigned:

- Site Specialist
- Site User
- Volunteer

Site Specialist can grant the following roles and facility(s) to which they are assigned:

- Site User
- Volunteer

10.1.1 Select User

1. In the **Select User** text field, search by name or VA username. When the name displays, click the **name link** to view facility access and roles.
 - To add a new user, click the **Add** button. The Search for User box displays first, to enable a user to perform a search before a duplicate user is added. If duplicate name is not displayed, the new user can be added.
2. Once a user has been selected, the following sections are listed:
 - User Details
 - Facilities and Global Roles (Roles Available & Roles Assigned)
 - Facilities Available & Facilities Assigned
 - Effective Roles
3. Ensure the Enabled checkbox in the User Details section is selected.

10.1.2 Assign Roles and Facilities

4. In the **Facilities & Global Roles** section, select a role from **Roles Available** and click the **arrow** button to move it to **Roles Assigned**.
 - Click the **All** button to assign ALL roles.
 - Each user **MUST** have at least one Role assigned.
5. Select a facility from **Facilities Available** or search for a facility in the text box and click the **arrow** button to move it to **Facilities Assigned**.
 - Click the **All** button to assign ALL facilities.
 - Each user **MUST** have at least one facility assigned.
2. The **Effective Role** section provides a grid of which roles and facilities are assigned to the users.

10.1.3 Unlock User

6. If the **Locked** checkbox is selected, the user has three unsuccessful login attempts and is unable to log into the VSS for one hour. The “Lock” will clear automatically after the user has been locked out for one hour or an authorized user can unselect the **Locked** checkbox to

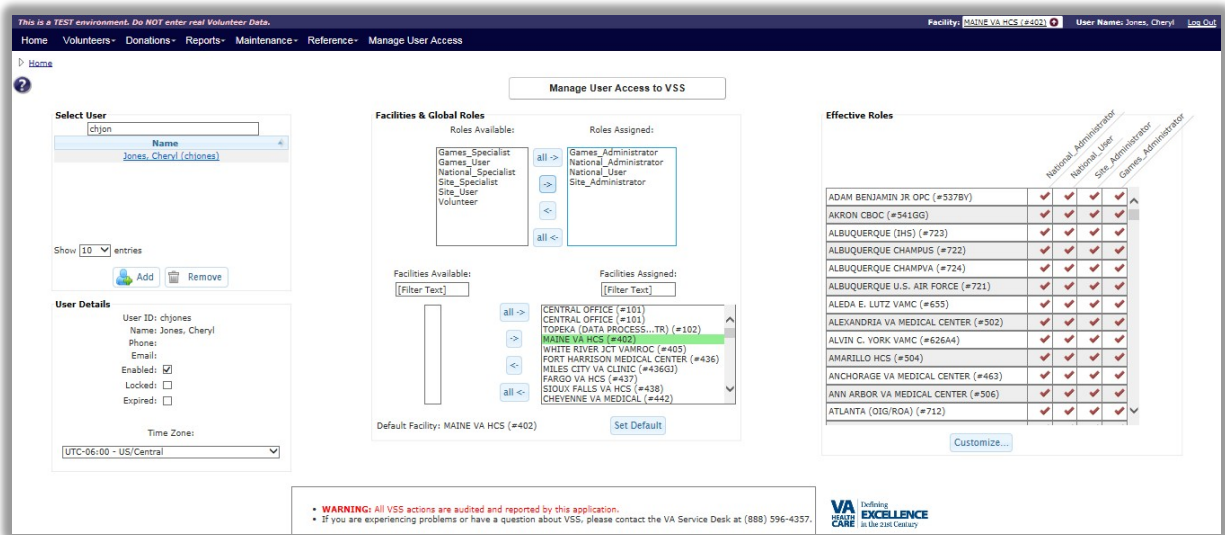

unlock the user.

7. Users, who have not logged in within the past six months, either at their current station or any other station are automatically inactivated and no longer have access to the system at any station. User activation/inactivation is national in scope and is by user, not by station.
8. If a user is activated or inactivated at one station, their access at every station where roles are assigned is affected.

10.1.4 Time Zone

9. Time zone is set on the **User Management** screen. Times shown throughout the system are based on this setting and do not automatically update to reflect time zone changes of users on travel.

11. Help

Click the **Help** icon in the VSS application to view additional information about the screen.

12. Troubleshooting

If screen display issues occur when working in VSS Web, enable Compatibility Mode in the browser. This issue may occur when using Internet Explorer browsers.

To manually enable the setting:

1. Open VSS in Internet Explorer.
2. Click the **Tools** option.
3. Click **Compatibility View Settings** under Add this Website.
4. Add the VSS Web URL site to the list.
5. Click **Add**.

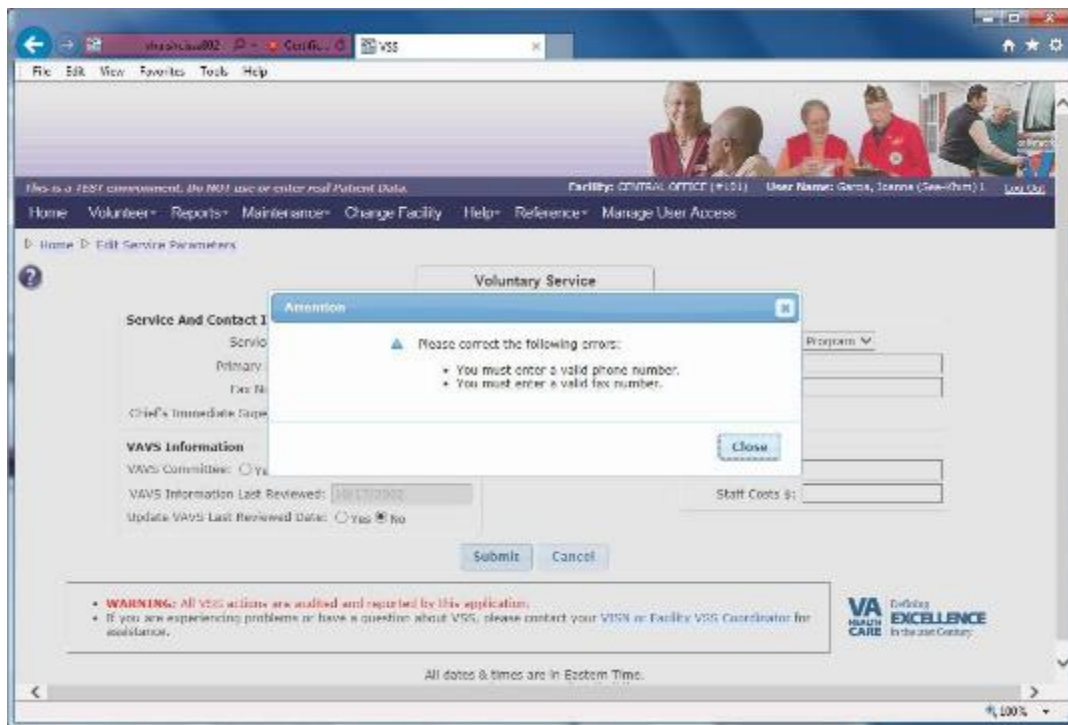

12.1 Special Instructions for Error Correction

If the application displays an error at the time of log on or if there are error messages that are **NOT** part of data entry (e.g., a system error message), contact the VA Service Desk to log a Remedy ticket. Technical Personnel provides content for error messages with the system.

- Call 1-855-673-4357
- Email VASD@va.gov

Refer to the next **Figure** for an example of an error message. “**Attention**” displays on the screen.
