Introduction

The purpose of the Long Term Care Copay Phase II project is to meet the provisions in the Veterans Millennium Health Care and Benefits Act, Public Law 106-117 Medical Care Collections, which authorized the Department of Veterans Affairs to promulgate regulations to collect copayments for extended care services provided to veterans by the VA. Long Term Care Copay Phase I provided functionality to identify patients who financially qualify for LTC Copayment and flag episodes of care and encounters that are LTC-related. Functionality for LTC Copay Phase II includes the following:

- Implement new LTC copayment rates as defined by Public Law 106-117, Section 101.
- Identify episodes/encounters of care related to LTC (via Treating Specialties and DSS Stop Codes) to stop Means Test billing logic and start LTC billing logic.
- Determine if the patient has LTC Copayment Test (10-10EC) information on file; if not, generate a mail message bulletin to alert a designated group of users that the information is needed.
- Determine if the patient is exempt from LTC copayment; if not, obtain the patient's monthly-calculated LTC copayment obligation from the Enrollment Package.
- Create a new LTC Billing Clock to track the patient's first 21 days of LTC services in each 12 month period from the date LTC services began since they are not subject to LTC Copayment (21 free days).
- Create a new LTC Billing Clock Maintenance option to edit the patient's LTC Billing Clock (21 free days).
- Create a new LTC Billing Clock Inquiry option to display data contained in the patient's LTC Billing Clock (21 free days).
- Create a LTC monthly job that will run in the background to evaluate the patient's LTC episodes/encounters, apply special LTC billing rules, create charges not to exceed Enrollment's monthly calculated LTC copayment obligation, and pass the LTC charges to AR.
- Modify the existing Cancel/Add/Edit Patient Charges option to edit LTC charges that fall outside of the LTC Billing Clock (21 free days).
- Modify existing Outpatient/Registration Events Report to include all LTC outpatient activities within a user-specified date range.
- Modify existing Patient Billing Inquiry option to display all LTC data for a specified patient.
- Create a new LTC Single Patient Billing Profile option to display all LTC activity for a specified patient.
- Print LTC Copayment charges the patient's AR patient billing statement.

Patch IB*2*171

The primary purpose of Patch IB*2*171 is to stop Means Test (MT) billing for Long Term Care (LTC) services, and to track those patients receiving LTC services so that they can be billed in the future.

Treating Specialties are used to identify LTC services for inpatients, and Clinic Stop Codes are used to identify LTC services for outpatients. Please refer to the charts that follow for a list of these codes.

Treating Specialty (Inpatient)	Type of Care
31	Institutional Inpatient GEM
32	Institutional Inpatient GEM
33	Institutional Inpatient GEM
34	Institutional Inpatient GEM
35	Institutional Inpatient GEM
37	Institutional Inpatient Domiciliary
80	Institutional Inpatient NHCU
81	Institutional Inpatient NHCU
83	Institutional Inpatient Respite
85	Institutional Inpatient Domiciliary
86	Institutional Inpatient Domiciliary
87	Institutional Inpatient Domiciliary
88	Institutional Inpatient Domiciliary
96	Institutional Inpatient Hospice

Clinic Stop (Outpatient)	Type of Care
190	Non-institutional Outpatient ADHC
319	Non-institutional Outpatient GEM

Patch IB*2*176

The purpose of patch 176 is to implement the Long Term Care (LTC) Copayment requirement as mandated by the Veterans Millennium Health Care and Benefits Act, Public Law 106-117, Section 101. It is designed to perform LTC copayment calculations. It introduces the capability to start and maintain a LTC Billing Clock for patients, and to display LTC related information.

This patch also introduces a background job that runs on the first day of each month; however, the first time this background job will run is on the first night after the patch is installed. Therefore, expect to see the first LTC related messages and charges the day after installation. The monthly job runs automatically as part of the IB MT NIGHT COMP job, and is invisible to the end user. This monthly job performs calculations to determine LTC copayments for the previous month. The first time the monthly job is run, any prior months that have not been billed since the LTC Billing effective date (JULY 5, 2002) will also be calculated. The monthly job checks patients' LTC status, applies LTC exemptions and special LTC business rules, and uses the patients' Monthly Calculated LTC Copayment Cap (obtained from Enrollment Package) to compute the proper LTC copayment amount (if any) for the patient.

The LTC Billing Menu

BILS	Billing Activity List
CHRG	Cancel/Edit/Add Patient Charges
CLOL	LTC Billing Clock Maintenance
INQL	LTC Billing Clock Inquiry
PROL	LTC Single Patient Billing Profile

This patch adds a new menu, the LTC Billing Menu. This menu is included on the Billing Clerk's Menu and the Billing Supervisor Menu. It includes three new options: LTC Billing Clock Maintenance, LTC Billing Clock Inquiry, and LTC Single Patient Billing Profile; and two modified options: Billing Activity List (formerly the Category C Billing Activity List option) and Cancel/Edit/Add Patient Charges.

New Options

LTC Billing Clock Maintenance

This option allows you to open or edit a LTC Billing Clock for a patient. You can edit the Start Date or Days Not Subject To LTC Copay (Free Days).

If you enter a patient who does not already have a LTC Billing Clock open, you will be asked if you want to add one. If you answer yes, you will be asked for the start date.

```
Select PATIENT NAME: IBPATIENT, ONE      IBPATIENT, ONE      6-1-43  000450000
07-18-00      NSC VETERAN
Enrollment Priority:                Category: NOT ENROLLED  End Date: 07/18/2000

The patient IBPATIENT, ONE has no LTC clock on file.
Do you want to add one? No// y (Yes)
You need to specify the clock start date
Enter a date: 1/1/02
```

Once you enter the Start Date for a new patient or the name of a patient who already has a LTC billing clock open, the billing clock information for that patient is displayed.

```
IBPATIENT, ONE      000-45-0000      06/01/1943      NSC VETERAN
=====
LTC Copay Clock Start Date: Jan 01, 2002      Clock Status: OPEN
LTC Copay Clock End Date  : Dec 31, 2002
Free Days Remaining: 21
Days Not Subject To LTC Copay: none

User Added Entry : MARY ELLEN      May 13, 2002 3:24 pm
User Last Updated:

-----
You can edit Start Date OR Days Not Subject To LTC Copay (Free Days)

Select one of the following:

      S      Start Date
      F      Free Days

Enter response: S Start Date
Enter a date: Jan 01, 2002// 2/1
```

If you edit the Start Date, the End Date is automatically re-calculated (for one year).

```
IBPATIENT, ONE          000-45-0000      06/01/1943      NSC VETERAN
=====
LTC Copay Clock Start Date: Feb 01, 2002          Clock Status: OPEN
LTC Copay Clock End Date  : Jan 31, 2003
Free Days Remaining: 21
Days Not Subject To LTC Copay: none

User Added Entry : MARY ELLEN          May 13, 2002 3:24 pm
User Last Updated: MARY ELLEN          May 17, 2002 3:33 pm
```

When you choose to edit the Free Days, you can add, edit, or delete the days not subject to LTC copay. Dates prior to the start of the patient's billing clock or after the current date may not be entered. Up to 21 Free Days may be entered.

Adding a Free Day

```
Enter response: Free Days
Days Not Subject To LTC Copay: none

Select one of the following:

      A      Add
      E      Edit
      D      Delete

Enter response: a Add
Enter a date: 2/4          ... Feb 04, 2002 was added.
Enter a date: 2/7          ... Feb 07, 2002 was added.
Enter a date:
Days Not Subject To LTC Copay:
  1 Feb 04, 2002          2 Feb 07, 2002
```

Editing a Free Day

```
Days Not Subject To LTC Copay:
  1 Feb 04, 2002          2 Feb 07, 2002

Select one of the following:

      A      Add
      E      Edit
      D      Delete

Enter response: e Edit
Enter a number (1-2): 1
Enter a date: 2/5
Days Not Subject To LTC Copay:
  1 Feb 05, 2002          2 Feb 07, 2002
```

Deleting a Free Day

```
Days Not Subject To LTC Copay:
  1  Feb 05, 2002          2  Feb 07, 2002

Select one of the following:

  A      Add
  E      Edit
  D      Delete

Enter response: d Delete
Enter a number (1-2): 2
Are you sure you want to delete this date? No// y (Yes)
Days Not Subject To LTC Copay:
  1  Feb 05, 2002
```

As Free Days are added and deleted, the “Free Days Remaining” and “Days Not Subject To LTC Copay” fields are re-calculated. In the following example, four free days have been entered, which leaves 17 days remaining.

```
IBPATIENT, ONE          000-45-0000    06/01/1943    NSC VETERAN
=====
LTC Copay Clock Start Date: Feb 01, 2002          Clock Status: OPEN
LTC Copay Clock End Date  : Jan 31, 2003
Free Days Remaining: 17
Days Not Subject To LTC Copay:
  1  Feb 05, 2002          3  Mar 07, 2002
  2  Mar 01, 2002         4  Mar 08, 2002
```

LTC Billing Clock Inquiry

The LTC Billing Clock Inquiry option allows users to view the details of the LTC Billing clock for a specific patient. No changes can be made through this option.

```
Select LTC Billing Menu Option: INQL LTC Billing Clock Inquiry

Select PATIENT NAME: IBPATIENT, TWO   5-1-25   000450000   NSC VETERAN
