# HCPCS Update and Read Only 2319

## Patch RMPR\*3\*70 Release Notes

### Overview

---

#### Introduction

The purpose of this patch is to update a list of HCPCS in Prosthetics HCPCS file (#661.1) and to transport two Prosthetics options as follows:

- RMPR View 2319 Read Only (User option)
- RMPR Auto Fix (IRM option)

This HCPCS correction will take place during the post-init. Due to CPU intensive processing, it is recommended to schedule the RMPR AUTO FIX option to run on the weekend, once a week.

---

#### RMPR View 2319 Read Only

The option, View Prosthetics Item Transactions (RMPR VIEW 2319 READ ONLY) can be added to a menu for use mainly by non-Prosthetics users. It can be given to any user who has the need to see the Prosthetics patient's transactions or items issued.

This option allows you to view or print the patient's Item Transactions and Home Oxygen Items issued to a particular patient.

---

#### RMPR Auto Fix

The option, NPPD Auto Fix (RMPR AUTO FIX) is a taskman option for checking the RECORD OF PROS APPLIANCE/REPAIR file (#660), and switch Transaction Type Initial Issue (New) to Repair or Repair to Initial Issue (New).

This option will send a mailman message to the RMPR INVENTORY mail group for all patient's transactions that have been switched. It is recommended to task this option on the weekend, once a week.

---

#### Contents

This document contains the following topics:

---

| Topic                                   | See Page |
