Introduction

This clinical reminder update has two main functions. The first is to install a new national clinical reminder dialog for Beneficiary Travel. The second is to update two dialog elements contained within the previously released VA-EBOLA RISK TRIAGE TOOL reminder dialog.

Beneficiary Travel:
Due to Congressional inquiries, establishing five standardized national templates will satisfy the requirement to show VHA has an accurate and consistent means of documenting and tracking nearest appropriate facilities (exceptions to facilities other than closest), special mode transportation and for Veterans receiving Aid and Attendance (A&A) or Housebound Benefits (HB). The five templates have been merged into one Reminder Dialog for ease of use by providers at the point of care.

The following are current legislative, regulatory and VHA Manual guidelines for VA BENEFICIARY TRAVEL:

- United States Code (USC)
  - Payments or allowances for BENEFICIARY TRAVEL – 38 U.S.C. § 111
- Code of Federal Regulations (CFR)
  - Purpose and Scope – 38 C.F.R. § 70.1
  - Definitions – 38 C.F.R. § 70.2
  - Determination of Secretary – 38 C.F.R. § 70.3
  - Criteria for Approval – 38 C.F.R. § 70.4
  - Eligible persons – 38 C.F.R. § 70.10
  - Application – 38 C.F.R. § 70.20
  - Where to Apply – 38 C.F.R. § 70.21
  - Payment Principles – 38 C.F.R. § 70.30
  - Deductibles – 38 C.F.R. § 70.31
  - Reimbursement or Prior Payment – 38 C.F.R. § 70.32
  - Administrative Procedures – 38 C.F.R. § 70.40
  - Recovery of Payments – 38 C.F.R. § 70.41
  - False Statements – 38 C.F.R. § 70.42
  - Reduced fare requests – 38 C.F.R. § 70.50

PLEASE NOTE: <u>ALL facilities</u> are expected to install and activate the CBO approved BENEFICIARY TRAVEL (BT) - reminder dialog template, create the Beneficiary Travel consult service and Beneficiary Travel progress note title and to convert remaining locally developed BENEFICIARY TRAVEL consults to the standardized consult/referral template format.

Ebola Update:
It was discovered that two dialog elements within the VA-EBOLA RISK TRIAGE TOOL had dialog text referring to ICD-9. The dialog text in these elements was changed to read ICD-10.

Incorrect text:
DIALOG/PROGRESS NOTE TEXT:
Ebola risk triage (ICD-9 V73.5) - SECONDARY diagnosis for this encounter

Correct text:
DIALOG/PROGRESS NOTE TEXT:
Ebola risk triage (ICD-10 Z11.59) - SECONDARY diagnosis for this encounter

5. Your TIU Object "PATIENT WEIGHT" needs to be inserted into the following 2 elements:

       VA-BENE TRAV SPECIAL MODE BASIC LIFE SUPPORT
       VA-BENE TRAV SPECIAL MODE ADVANCED LIFE SUPPORT

       Navigate to Reminder Dialogs and change your view to ELEMENTS. Search for "VA-BENE TRAV SPECIAL MODE BASIC LIFE SUPPORT". Even though this element begins with "VA-", it is LOCAL, so you will be able to edit the DIALOG/PROGRESS NOTE TEXT field. Do this again with element "VA-BENE TRAV SPECIAL MODE ADVANCED LIFE SUPPORT"

       Before editing object

```
DIALOG/PROGRESS NOTE TEXT:
 Patient weight: |PATIENT WEIGHT|

  Edit? NO//
```

       Edit and add your facility's local data object for patient weight if it is different than |PATIENT WEIGHT|.
