Version 5.1

October 2000

Revised October 2011

Revision History

Initiated on 12/29/04

Date	Revision	Description	Author(s)
October 2011	5.0	Patch PRC*5.1*158 Modification of title for IFCAP VA Form 1358. See page 13-1.	Mary A. Anthony, C. Arceneaux
10/05/10	5.0	Added the Supply Employee type selection as 1. on page 3-2, per patch PRC*5.1*133.	T. Dawson (TW), A. Scott (PM)
05/31/07	5.0	Added information covering the use of the Logistics Data Query Tool (LDQT), per patch PRC*5.1*103; general update.	Deborah Lawson, Victor J McDonald
03/2007	4.0	Modified existing document for inclusion of on-demand functionality Patch PRC*5.1*98. Revisions made to bring document up-to-date.	Deborah Lawson, Pat Burgess, Mavis McGaugh
02/09/06	3.0	Updated with functionality included in PRC*5.1*79 (FPDS ICAR for VistA project).	Jan Blake, Mary Ellen Gray
06/23/05	2.0	Added essential information about DynaMed-IFCAP Interface.	VJ McDonald, Mavis McGaugh
12/29/04	1.0	Updated to comply with SOP 192-352 Displaying Sensitive Data; PDF file checked for accessibility to readers with disabilities.	Mary Ellen Gray
		Added new options and reports for the Clinical Logistics Report Server (CLRS)	Deborah Lawson, Victor J McDonald

Table of Contents

Preface

This document is for VA procurement personnel assigned the user category of Purchasing Agent in the Integrated Funds Distribution, Control Point Monitoring, Accounting and Procurement (IFCAP) system.

In IFCAP, VA employees request goods and services by creating electronic requests. Those requests are funded by an operating budget called a Control Point, and IFCAP sends transactions of those requests to Purchasing Agents, who are responsible for creating purchase orders to fulfill those requests. This document explains how to use IFCAP to create and amend purchase orders. Once accepted by a vendor, purchase orders become contracts between that vendor and the United States Government.

THIS PAGE INTENTIONALLY LEFT BLANK

Chapter 1. Introduction

1.1 The Role of the Purchasing Agent

Purchasing Agents are VA employees who have been appointed to procure goods for the VA from vendors. Purchasing Agents act as materials brokers and liaisons between VA employees that request goods and the vendors responsible for supplying the goods. Purchasing Agents are charged with the responsibility for procurement of supplies, equipment and services and for replenishment of warehouse stock. Purchasing Agents determine whether to obtain goods from vendors under General Services Administration or National Acquisition Center contracts, by purchase from Federal Prison Industries, the Government Printing Office, minority suppliers, suppliers in labor service areas or by purchase from the open market.

1.2 How to Use This Manual

This manual explains how to perform the role of the Purchasing Agent by dividing that role into small, manageable tasks. The authors of this manual have listed these tasks in successive order so that each instruction builds on the functionality and information from the previous instructions. This will allow new Purchasing Agents to use this manual as a tutorial by following the instructions from beginning to end. Experienced Purchasing Agents can use this manual as a reference tool by using the index and table of contents.

1.3 Reference Numbering System

This manual uses a special paragraph numbering system to allow users to understand how the sections of the manual relate to each other. For example, this paragraph is section 1.3. This means that this paragraph is the main paragraph for the third section of Chapter 1. If there were two subsections to this section, they would be numbered sections 1.3.1 and 1.3.2. A paragraph numbered 1.3.5.4.7 would be the seventh subsection of the fourth subsection of the fifth subsection of the third subsection of Chapter 1. All clear? Actually, all this means is that users that want to divide their reading into manageable lessons can concentrate on one section and all of its subsections, e.g., section 1.3.5.4 and all of its subsections would make a coherent lesson.

1.4 Package Management, Legal Requirements and Security Measures

In order to use IFCAP to create purchase orders, Purchasing Agents are given access to a set of IFCAP menu options designed for their use. Some of these menu options, e.g., the option to reprint purchase orders, are additionally controlled by the use of access "keys". These access

keys are administered to individual Purchasing Agents by the Information Resources Management Service at their facility. Also, each Purchasing Agent is assigned a "signature code" that functions legally as their signature. Purchasing Agents must enter this signature to create any form in IFCAP that would require an authorizing signature if they created the form manually.

1.5 Package Operation

This document explains how to use IFCAP to create and amend purchase orders. Novice Purchasing Agents will be unfamiliar with the information that some of the IFCAP prompts require. IFCAP provides three levels of explanations for the prompts. Enter a question mark at the prompt to read a description of the prompt, two question marks to read a more complex explanation of the prompt, and three question marks to read a complete description of the prompt and read a list of acceptable responses to the prompt.

1.5.1 Document Creation

IFCAP will create and transmit FMS documents instead of CALM code sheets.

1.5.2 Vendor Request/Vendor Update Functionality

To keep the IFCAP and FMS vendor files in sync, the Procurement Module automatically requests additions or edits to the FMS Vendor file. In turn, FMS automatically updates the IFCAP vendor file with new information FMS receives.

1.5.3 New Purchase Order/Requisition Processing

IFCAP prompts the user for required fields, which are passed to FMS upon obligation, as well as "rolling up" IFCAP commodity line data with the same accounting significance to the same FMS document "accounting" lines1.6.9 Required Fields File

1.5.4 FMS Document Creation

IFCAP creates and transmits FMS documents.

FMS Document	Purpose
Miscellaneous Order (MO)	Obligation of order for goods
Service Order (SO)	Obligation of order for services
Vendor Request (VRQ)	Vendor Request

Internal Voucher (IV)	Internal sale of goods (from Supply Warehouse to a service)
Receiving Report (RT)	Fiscal "sign-off" of Receiving Report indicating receipt of goods into Warehouse
None	Receipt of goods into primary

While these FMS documents are *initiated* by processes in the Procurement Module, they are not actually created by the Procurement Module. That is because they are sent to FMS upon obligation, or Fiscal approval. All relevant data for the FMS documents are collected and stored during the Procurement Module processing, but it is the Accounting Module (Fiscal/Accounting Technician) that actually triggers the creation and transmission of these documents. The only exceptions are the Vendor Request (VRQ) document and the obligation documents for Supply Fund orders, which *are* created and transmitted immediately upon adding or editing a vendor in IFCAP, but only through use of IFCAP options (i.e., *not* by using **VA FileMan**).

1.5.5 Sub-cost Center Change

IFCAP uses the last two digits of the cost center as the **sub-cost center**. Most cost centers currently end in "00", but, if they end in some other numerical combination, the value of the last two digits will be the sub-cost center that is sent to FMS. IFCAP will continue to have only one field (cost center), but will send FMS two values. For example, if the cost center in IFCAP were 870011, IFCAP would send FMS the value of 870000 as the cost center, and 11 as the sub-cost center. VA Central Office will define and provide any sub-cost centers to IFCAP stations.

THIS PAGE INTENTIONALLY LEFT BLANK

Chapter 2. How to Issue a Purchase Order

2.1   Introduction

As services create requests for supplies and services, IFCAP will display transactions of those requests for the lead Purchasing Agent or Chief of Purchasing and Contracting, who will assign the transactions to Purchasing Agents for processing. Purchasing Agents turn these request transactions into purchase orders.

2.2 Assign a Purchasing Agent

2.2.1 Menu Path

From the Purchasing Agent Menu, select Assign a Request to Purchasing Agent. Select a station number and a 2237 transaction number. If you do not know the entire transaction number, the last four digits of the transaction will do.

```
          Purchase Orders Menu ...

          Display/Print Menu ...

          P&C Utilities Menu ...

          Management Reports Menu ...

          Request Further Clarification or Return to Service

          Assign a Request to Purchasing Agent

Select Purchasing Agent Option: Assign a Request to Purchasing Agent

Select STATION NUMBER ('^' TO EXIT): 688//          WASHINGTON,DC

2237 TRANSACTION NUMBER: 0035  688-94-2-101-0035    OBL  IFAGENT,THREE
```

2.2.2 Prompts

IFCAP will display the name of the item on the transaction. If the transaction has already been assigned to a Purchasing Agent, it will list the Purchasing Agent's name. Hit the Return key to keep the name or enter a new name at the prompt.

```
TEST ITEM #10

          Assigned to Purchasing Agent

PURCHASING AGENT: IFAGENT,ONE// ?

     Must be a Purchasing Agent of Manager

 ANSWER WITH NEW PERSON NAME, OR INITIAL, OR SSN, OR NICK NAME

 DO YOU WANT THE ENTIRE NEW PERSON LIST? n  (NO)

PURCHASING AGENT: IFAGENT,ONE// IFAGENT,TWO
```

2.3 Assign a Purchase Order Number

2.3.1 Menu Path

From the Purchase Orders Menu, select New Purchase Order. At the Purchase Order: prompt, enter the common numbering series, which is a two- or three-character code for the category of the purchase. Generally, the second digit will be the last number of the fiscal year. These categories are based on the appropriation, the method of payment, and the source of procurement (vendor, GSA, etc.) IFCAP will assign a purchase order number to the transaction and ask you to verify it.

```
Select Purchasing Agent Option: PURCHase Orders Menu

          New Purchase Order

          Edit an Incomplete Purchase Order

          Amendment to Purchase Order

          Adjustment Voucher to Receiving Report

          Cancel an Unobligated Purchase Order

          Remove 2237 from P.O.

          Purchase Order Display

          Vendor Display
```

```
         Reserve a Purchase Order Number

         FPDS Data Edit

         EDI Retransmit

         Edit Direct Delivery Order for Purchase Card

         New Direct Delivery Order for Purchase Card

Select Purchase Orders Menu Option: NEW PURchase Order

Select STATION NUMBER ('^' TO EXIT): 688//      WASHINGTON, DC

ENTER A NEW PURCHASE ORDER NUMBER OR A COMMON NUMBERING SERIES

   PURCHASE ORDER: 4E  688-4E     PC AUTHORIZED BUYER

   Are you adding '688-4E0326' as a new Purchase Order number ? Y  (YES)
```

2.3.2 Prompts

1. Enter the date of the purchase order at the P.O. Date: prompt.

2. IFCAP will ask you for the method of processing, or how the vendor will be paid for the purchase. INVOICE/RECEIVING REPORT means that the order will be received by the warehouse, the warehouse will create a receiving report for the order, and the order will be paid via FMS. CERTIFIED INVOICE means that the order is for a service; the Control Point Official will certify that the service has been rendered, and the station that generated the purchase order will pay the vendor. PAYMENT IN ADVANCE is an order that Fiscal Service forwards to a vendor with a check included. GUARANTEED DELIVERY orders are for goods and services that go directly to a veteran. IMPREST FUNDS/CASHIER orders are paid with cash, a GELCO draft (third party check), or a credit card. Only vendors that are listed as guaranteed delivery vendors in the vendor file can receive guaranteed delivery orders.

3. IFCAP will ask you if the order is an estimated order. Estimated orders are orders that have an unknown cost at the time the Control Point Official transmitted the order. Orders for services, i.e., equipment repair, are often estimated orders, since the vendor doesn't determine the actual cost until the vendor completes the repair.

4. IFCAP will ask for the invoice address. The invoice address indicates where the vendor is to mail the invoice. Invoice/Receiving Report orders for subsistence (perishable food items) list the local VA facility as the recipient of the invoice. All other Invoice/Receiving Report orders will send the invoice to FMS. Certified Invoices are sent to Fiscal Service at the local VA facility. Guaranteed Delivery invoices are forwarded to FMS. Payment in Advance and Imprest Funds/Cashier orders do not require invoices, so you would accept the address shown on the order.

5. Enter a vendor name or number at the Vendor: prompt. You may add a new vendor if you wish. If you add a new vendor, IFCAP will create a vendor request (VRQ) document and transmit it to FMS, ensuring that IFCAP and FMS vendor records correspond.

6. Enter the source code for the purchase order. The source code identifies what type of source the vendor represents, e.g., a Government source, a private source, a contract source, etc. Source codes are listed in MP-4 Part V, Appendix B-1.

7. If you choose "Open Market" at the Source Code: prompt, IFCAP will display the Local Procurement Reason Code: prompt. Enter an explanation at this prompt as to why you're making the purchase from the open market, as opposed to purchasing it from a mandatory source.

8. IFCAP will ask for the "Request Worksheet 2237 Transaction Number", or the number of the transaction that you're turning into a purchase order. Enter the last four numbers of the transaction number. Enter the 2237 transaction number that lists the items you are going to purchase. If you do not know the 2237 transaction number, enter the Control Point, fiscal year and fiscal quarter (for example, 688-95-4) and IFCAP will list the available transaction numbers. If you do not know any part of the transaction number, enter three question marks and IFCAP will list the available transaction numbers.

9. Enter another 2237 transaction number if you like.

10. Enter the Fund Control Point for the purchase if IFCAP prompts you for it. Enter the cost center at the Cost Center: prompt if this purchase is assigned to a section or service that has a cost center defined in IFCAP for their expenses. Cost centers allow Fiscal staff to create total expense records for a section or service.

11. Enter the name of the service that will use the items you are purchasing at the Requesting Service: prompt.

12. Enter N at the Expendable/Nonexpendable: if the item is defined as nonexpendable property as per VA Catalog 3. Otherwise, enter E. Nonexpendable property is usually items that are not consumable and not a part of another item.

13. Enter the final destination of the purchase at the Delivery Location: prompt. Enter PATIENT at this prompt if the vendor will deliver the purchase directly to the patient.

14. If you enter PATIENT at the Delivery Location: prompt, IFCAP will display the Direct Delivery Patient: prompt. Enter the name of the patient at this prompt, or enter two question marks to see a list of available patients. Enter the address of the patient.

15. At the Verbal Purchase Order: prompt, enter Y if this purchase order was negotiated verbally with a vendor representative.

16. At the Confirmation Copy?: prompt, enter Y if you want IFCAP to print a copy of the purchase order for the vendor.

17. Enter O for origin at the F.O.B. (Freight On Board) Point: prompt if additional freight charges are due to the carrier at the time of delivery.

18. Enter the date that the purchase is due at the Delivery Date: prompt.

19. Enter the name of the vendor representative that quoted the purchase price, and the date of the quote or a quote number if they are available (for example, 'telephone quote John Doe quote #001 dated 3-10-95') at the Proposal: prompt.

20. Enter the method of purchase for these items at the Select Purchase Method: prompt. If you do not know the method category, enter three question marks and IFCAP will list the available purchase methods. You may enter multiple purchase methods if you like.

21. Enter the estimated shipping or handling charges for the order at the Est. Shipping And/Or Handling: prompt.

22. Enter the discount terms for prompt payment at the Prompt Pay Type: prompt.

23. Enter your name at the PA/PPM/Authorized Buyer: prompt.

24. Enter Y at the Certified P.O.: prompt if the receiving service has certified that the goods and services have been received and are satisfactory.

25. Enter the line item number of the item on the 2237 that you want to purchase at the Select Line Item Number: prompt.

26. Enter the item master file number of the item.

27. You may enter or edit the description of the item if you like.

28. Enter the quantity of units (boxes, cases, etc.) that you want to purchase at the Quantity: prompt.

29. Enter the unit of purchase (boxes, cases, etc.) If you do not know the unit of purchase, enter three question marks at the prompt and IFCAP will list the available units of purchase.

30. Enter the cost per unit at the Actual Unit Cost: prompt.

31. Enter the minimum number of units you can order per shipping package at the Packaging Multiple: prompt.

32. Enter the stock-keeping unit of the item at the SKU: prompt. The stock-keeping unit is the unit that the warehouse uses to store the item.

33. Enter the factor that you use to convert the SKU to the unit of purchase at the Unit Conversion Factor: prompt.

34. Enter the stock number supplied by the vendor for the item at the Vendor Stock Number: prompt.

35. Enter the national stock number (NSN) of the item at the NSN: prompt.

36. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.

37. At the Contract: prompt, enter a contract number if the purchase price and vendor is established by a purchasing contract with that vendor.

38. Enter the budget object code classification for the item at the BOC: prompt. If you do not know the budget object code, enter three question marks at the prompt and IFCAP will display the available budget object codes.

39. At the Enter/Edit Delivery Schedule for this Item?: prompt, press the Enter key or enter N if you want all of the items on your request delivered on the required delivery date of the RFQ. If you enter a delivery schedule for the item, you are notifying the vendor that you want them to deliver different amounts of the items on different days. Make sure that the total number of items among all of the delivery dates equals the total number of items you are ordering.

40. Enter another line item number if you like.

41. Enter any special administrative forms of payment at the Select Administrative Certifications: prompt. If you do not know the administrative certification categories, enter three question marks and IFCAP will list the available categories. You may enter additional administrative certifications if you like, and add comments to explain the certifications.

42. If there is a discount available for any item on the purchase order, enter the line item number at the Select Discount Item: prompt and enter the discount for the item.

43. If the entire purchase order is subject to a percent discount for prompt payment, enter the percent of the discount at the Select Prompt Payment Percent: prompt.

44. Enter the number of days before the prompt payment term expires at the Days (Term): prompt.

45. At the Is this P.O. to be reported to the FPDS system (Under $25,000 report)?: prompt, enter Y to report the order to the Federal Procurement Data System (FPDS) if the purchase order qualifies for reporting. Do not report the purchase order to FPDS for purchases over $25,000, unless the Source Code used is 4 (VA Decentralized Schedule), 6 (Fed. Supply Sched. or OGA Contracts), 7 (Consolidated Procurement), or B (a combination of 2, 4, & 6). Enter three question marks at the prompt to read the other exceptions to FPDS reporting. The General Services Administration uses FPDS data to compile statistics of compliance to minority and small business purchasing requirements as per the Competition in Contracting Act. Enter the appropriate business category codes at the prompts. If you do not know the category codes, enter three question marks at the prompts and IFCAP will list the available codes.

46. At the EXTENT COMPETED: prompt, enter a description of the acquisition method. Double question marks may be entered for a list.

47. Enter the REASON NOT COMPETED, if applicable. Double question marks may be entered for a list.

48. Enter the SOLICITATION PROCEDURE, if applicable. Double question marks may be entered for a list. Solicitation procedures should be entered for orders under and over $25K.

49. Enter an EVALUATED PREFERENCE, if applicable. This is a short name for the preference. Double questions marks may be entered for a list.

50. Enter a FUNDING AGENCY OFFICE CODE. Double questions marks may be entered for a list.

51. Enter Y at the Review Purchase Order?: prompt to have IFCAP display the order to your screen.

52. If the purchase order is ready for approval, enter Y at the Send To Fiscal Service:? prompt. If you need to make corrections to the purchase order before you send it to Fiscal Service, enter N at the Send to Fiscal Service? prompt and use the Edit an Incomplete Purchase Order option.

53. If you answered Y at the Send To Fiscal Service:? prompt, IFCAP will prompt you for your electronic signature code.

54. Enter a purchase order number at the Purchase Order: prompt to transmit another purchase order or enter a caret (^) at the prompt to return to the Purchase Orders Menu.

2.4 What Happens to Obligated Purchase Orders

After Fiscal obligates a purchase order, it comes back to the Purchasing Agent for distribution. Some stations have adopted a "paperless" method of tracking purchase orders, and the only hard copies used are copies sent to the vendor. At other stations, one copy of the purchase order is filed with the original 2237 transaction and one copy is returned to the Control Point.

Note: All copies of purchase orders sent to vendors must be signed by the Purchasing Agent. Signature codes are inadequate.

2.5 Amending a Purchase Order

2.5.1 Introduction

Occasionally, a purchase order will have to be amended. Control Points add items to requests, quantities change, and vendors ship greater quantities than the amount on the order. Follow the instructions in this section to make these changes to a purchase order.

2.5.2 Menu Path

Select Purchase Orders Menu from the Purchasing Agent Menu.

Select Amendment to Purchase Order from the Purchase Orders Menu.

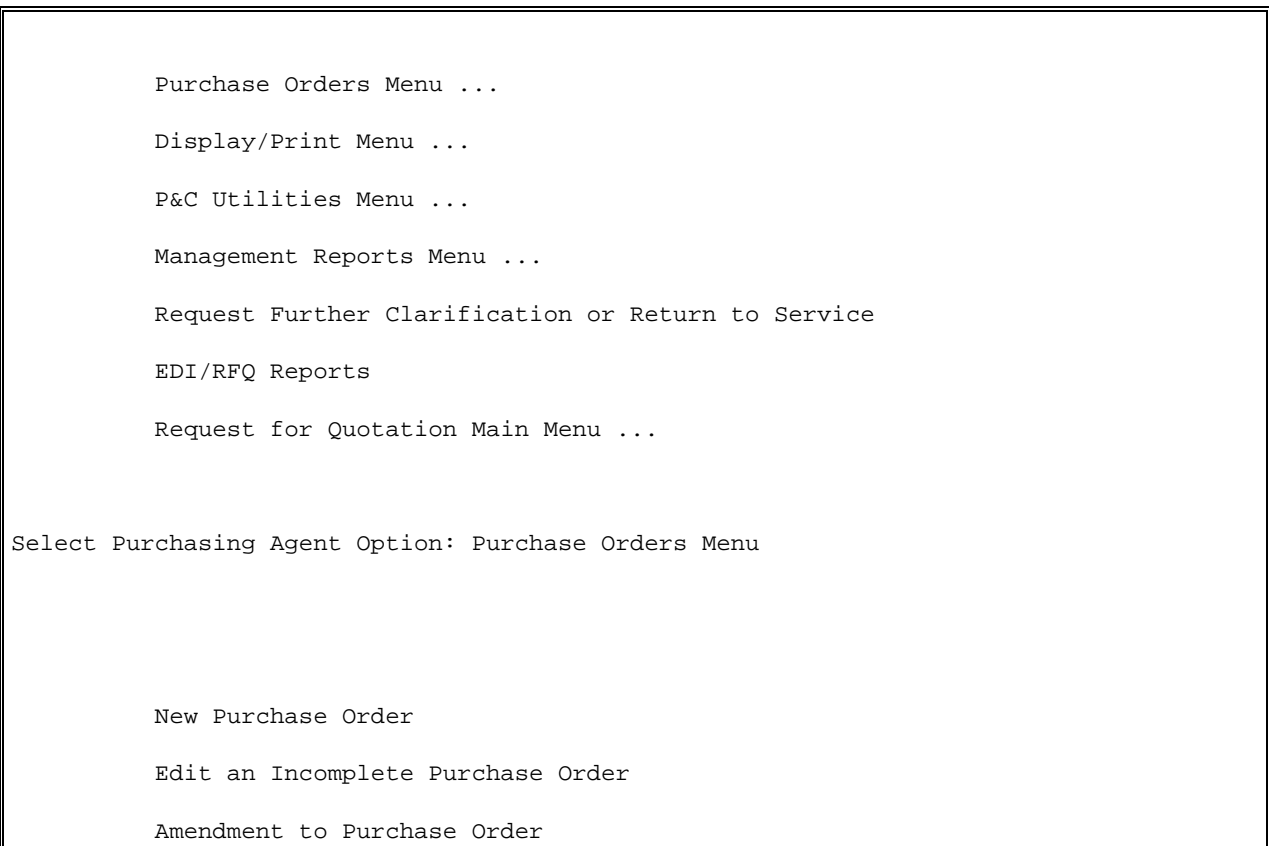

```

2.5.3 Prompts

Enter a station number. Enter a purchase order number. You may not use a purchase order with a status of 'Transaction Complete.' If you do not know the purchase order number, enter three question marks and IFCAP will list the available purchase orders. Enter the effective date of the amendment, or enter the default of T for today. Enter the authority by which you amend the purchase order. If you do not know the applicable authorization, enter three question marks and IFCAP will list the available authority categories. Enter comments about the amendment if you like at the Type Comments: prompt.

At the Contractor Required to Sign: prompt, enter Y if the contractor has to sign the amendment showing that they accept the terms of the amendment. Enter your name at the Purchasing/PPM Agent: prompt. Choose which type of amendment you are making to the purchase order. If you do not know which type is applicable, enter three question marks at the prompt and IFCAP will display the list of available amendment types. You may see additional prompts not described here, depending on which amendment type you choose.

IFCAP will display a set of prompts that allow you to make the amendment you specified. You may select another type of amendment if you like. You may change the status of the purchase order at the Amendment/Adjustment Status: prompt. The following is a table of each status that you can assign to the purchase order and its definition.

Cancelled Order (Amended)   You are creating the amendment to cancel the order.

Complete Order Received (Amended)   You are reporting that all items on the purchase order have been received. Also, if you cancel all outstanding items because they are unavailable from the vendor, this is the status you would choose.

Ordered and Obligated (Amended)   You are reporting that the items on the purchase order have been ordered, and that funds have been obligated from the Control Point for the purchase.

Partial Order Received (Amended)   You are reporting that one or more items have been received, but the complete order has not yet been received.

Transaction Complete (Amended)   The complete order has been received.

Enter a justification for the amendment. Edit the Federal Procurement Data System (FPDS) data if you like. You may also review the amendment you just created. Approve the amendment, print it if you want, and enter your electronic signature code. The amendment will print on your printer or your screen, and return to the Purchase Orders Menu.

Chapter 3. How to Expedite Purchase Orders

3.1 Introduction

This section will explain how to obtain a report that lists purchase orders either overdue for delivery or due for delivery within the next few days. You can use this report to contact all of the vendors with late or imminent delivery obligations.

3.2 Menu Path

Select Management Reports Menu from the Purchasing Agent Menu.

Select Statistics Menu from the Management Reports Menu.

Select Delinquent Delivery Listing from the Statistics Menu.

```
          Purchase Orders Menu ...

          Display/Print Menu ...

          P&C Utilities Menu ...

          Management Reports Menu ...

          Request Further Clarification or Return to Service

          EDI/RFQ Reports

          Request for Quotation Main Menu ...

Select Purchasing Agent Option: Management Reports Menu

          P.O. Registers Menu ...

          FPDS Reports Menu ...

          Statistics Menu ...
```
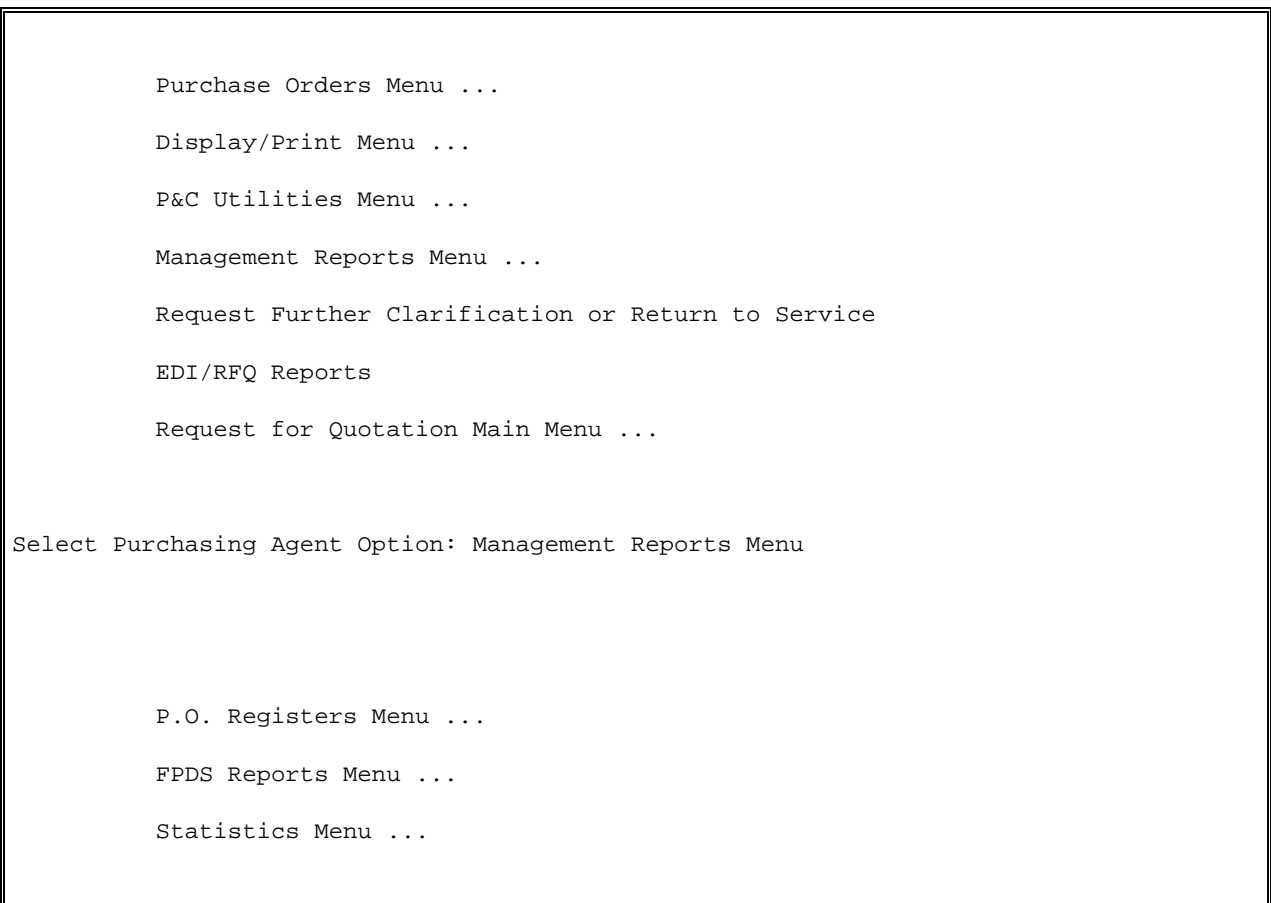

```
Select Management Reports Menu Option: Statistics Menu

        Purchasing Agents Statistics

        Outstanding 2237s

        Incomplete Purchase Orders

        Requesting Service Statistics

        Control Points per Month

        Delinquent Delivery Listing

        Warehouse Receiving Statistics

        Public Law 100-322 Report

        Transmit Public Law 100-322 Report to Austin

        P.L. 100-322 Local Procurement Reason Report

        Purchasing Agent Statistics by Date

Select Statistics Menu Option: Delinquent Delivery Listing
```

3.3 Prompts

1. Enter the Supply Employee type.

    Supply Employee type selection:

       1:WAREHOUSE
       2:PPM ACCOUNTABLE OFFICER
       3:PURCHASING AGENT
       4:MANAGER
       5:PURCHASE CARD HOLDER
       6:ALL OF THE ABOVE

2. Enter the earliest delivery date that you want the report to print at the Start With Delivery Date: prompt, or press the Enter key for IFCAP to print the oldest outstanding delivery date on record.

3. Enter the latest delivery date that you want the report to print at the Go To Delivery Date: prompt, or press the Enter key for IFCAP to print the latest delivery date on record. You can configure these two date entries to print overdue purchase orders and/or purchase orders with upcoming delivery dates. For example, if you enter T-30 at the Start With Delivery Date: prompt, and T+7 at the Go To Delivery Date: prompt, IFCAP will list all of the purchase orders that are 30 days late or less, due today, or due a week from today or less. IFCAP will print the 'Delinquent Purchase Orders' report, listing the purchase orders due for the range that you specified. The report will list the purchase orders for each purchasing agent separately. For each purchasing agent, the report will list the purchase orders for each vendor that are due in the date range that you specified. After printing the report, IFCAP will return to the Statistics Menu.

3.4 Contact the Vendor

Notify the vendor of delinquent shipments. Advise vendors that you may have to cancel orders that they cannot deliver within a reasonable amount of time. Some vendors that are late on delivery will pay for express delivery of their delinquent orders. Sometimes, vendors cannot ship the entire order, but can ship a partial quantity or a similar item that meets the specifications of the request. Fiscal Service at your station also may have a formal station policy for responding to delinquent purchase orders.

3.5 How to Change the Delivery Date of an Item

3.5.1 Introduction

Often, after you call a vendor to inquire about a delinquent item, you will have to change the delivery date and record an explanation of the delivery change. Follow the steps below to change a delivery date and record an explanation.

3.5.2 Menu Path

Select P&C Utilities Menu from the Purchasing Agent Menu.

Select Change Delivery Date on P.O. from the P&C Utilities Menu.
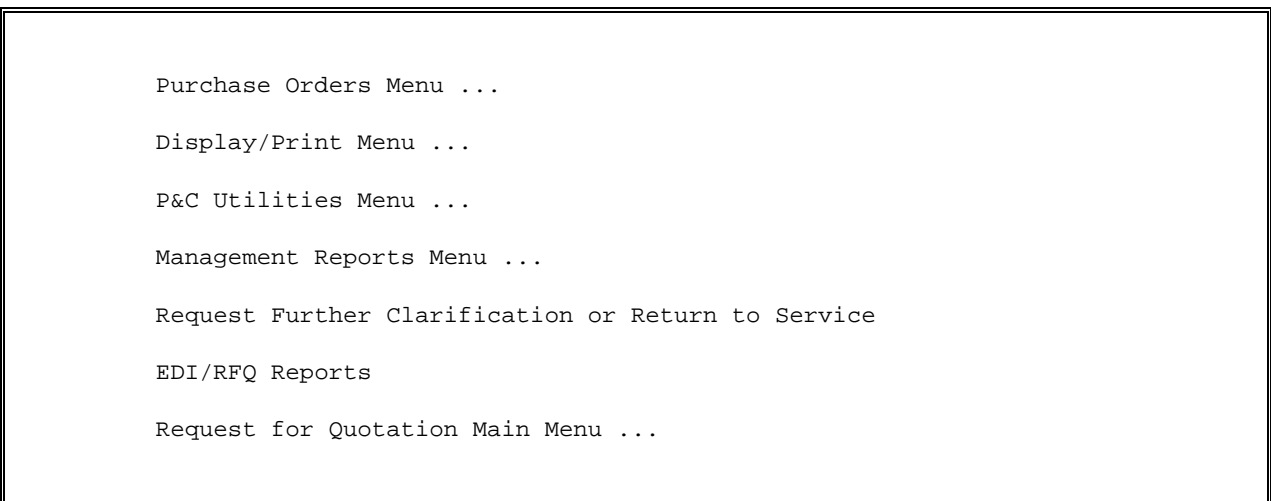

```
        Purchase Orders Menu ...

        Display/Print Menu ...

        P&C Utilities Menu ...

          Reactivate Vendor

          Setup AR selected vendors

Select P&C Utilities Menu Option: Change Delivery Date on P.O.
```

3.5.3 Prompts

Enter a station number. Enter a purchase order number. If you do not know the purchase order number, enter three question marks and IFCAP will list the available purchase order numbers.

Note: You will only be able to select purchase orders with outstanding items.

You may review the order or a receiving report if you like. Enter the new delivery date. Explain the reason for the new delivery date in the Comments: field. To change the delivery date on another purchase order, enter another purchase order at the Purchase Order: prompt or enter a caret (^) to return to the P&C Utilities Menu.

Chapter 4. Make Purchases Using Requests for Quotations

4.1 Introduction

This chapter will explain how to create, edit, delete, transmit and print requests for quotations (RFQs). RFQs are announcements of intent by the VA to buy products or services, and solicit vendors to present the VA with quotes of prices, item descriptions, and delivery schedules. There are two submenus under the Request for Quotation Main Menu. The first submenu, the **Process Menu,** contains the options for creating and editing a request for quotations. The second submenu, the **Evaluation and Award Menu,** contains options that allow you to create RFQ reports and evaluate quotes for an RFQ.

4.2 The Process Menu

4.2.1 Introduction

The Process Menu contains the options for creating and editing a request for quotations. Here are the options under the Process Menu, in the order they will be explained in this manual.

Add Text Message	This option enables the user to enter an 864 transaction Text Message, specify recipients, and transmit the message electronically to the recipients.
Cancel RFQ	This option sets the RFQ status to 'Cancelled', the Request Worksheet file's entry back to 'Sent to Purchasing & Contracting', and if the RFQ has been transmitted electronically, it sends a RFQ Cancellation 840 Transaction.
Close RFQ to Further Quotes	This option enables the Purchasing Agent to set the status of the RFQ to 'CLOSED'. If the RFQ has been transmitted electronically, this option also sends an 864 Message Text transaction informing vendors that the RFQ is now closed.
Edit Incomplete RFQ	This option enables the user to edit an existing, but still incomplete, RFQ.

Edit Mode Preference	This option enables the user to specify whether editing should be done via FileMan Input Templates or ScreenMan Forms. The user can alternately select to be prompted for edit mode within the editing options.
Manual Print of RFQ	This option is used to print a manual RFQ.
New RFQ	This option imports information from a 2237 and supporting documents into a Request for Quotation entry and enables the Purchasing Agent to edit the information.
Reopen Closed RFQ	This option enables the Contracting Officer/Purchasing Agent to reopen a closed Request for Quotation.
Retransmit RFQ	This option enables the user to retransmit an RFQ in 'PENDING QUOTES' status in the event of a transmission error during an earlier attempt.
RFQs Due Report	This option is used to create a report of your RFQs that are due on or before the current date.
Transmit Unsent / Retransmit 864 Message	This option enables the user to transmit an entered, but not sent, 864 Text Message or to retransmit an already sent 864 Text Message.
Unawarded RFQs by Status Report	This option is used to create a report of RFQs sorted by status, either among all RFQs or among RFQs associated with a specific purchasing agent.
View 864 Text Messages for RFQ	This option enables the user to view a range of text messages for a RFQ.
View RFQ	This option enables the user to view the request portion of a Request for Quotation (RFQ) entry.

4.2.2 New RFQ

4.2.2.1 Introduction

This option imports information from a 2237 and supporting documents into a Request for Quotation entry and enables the user to edit the information.

Note: Prior to using a 2237 to generate an RFQ, the Purchasing Agent must have split off any items which are not to be included in the RFQ. The "New RFQ" option imports all items on a 2237 into the RFQ entry.

4.2.2.2 Menu Path

Select Request for Quotation Main Menu from the Purchasing Agent menu.

Select Process Menu from the Request for Quotation Main Menu.

Select New RFQ from the Process Menu.

Enter I at the Enter Desired Input Mode: prompt if you want IFCAP to display the prompts for this option one at a time. Enter S at the Enter Desired Input Mode: prompt if you want IFCAP to display screens of prompts.

Select Process Menu Option: New RFQ

Enter Desired Input Mode: ?

Here you can indicate if you wish to edit in scroll mode with FileMan

  Input Templates or screen mode with ScreenMan

    Select one of the following:

        i        Input Template

        s        ScreenMan Form

Enter Desired Input Mode: i  Input Template
```

4.2.2.3 Input Template Prompts

Throughout the RFQ module the string '(W)' indicates that the field is a word processing field.

1. At the Enter Primary 2237 Transaction #: prompt, enter the form 2237 that you want to assign to the RFQ. If you do not know the 2237 number, you can enter the first set of digits that you remember, or enter three question marks to see a list of valid 2237s.

2. You may import items from as many 2237s as you like. Enter Y at the Do You Wish To Import Items From An Additional 2237?: prompt to continue assigning 2237s to the new RFQ.

3. Enter your electronic signature code.

4. Enter the date you want to assign to the RFQ at the Reference Date: prompt.

5. Enter the date that you want the items on the RFQ to be delivered at the Reqd Delivery Date: prompt.

6. Enter the date that quotes are due from the vendors at the Quote Due Date/Time: prompt.

7. Enter the priority associated with receipt of the RFQ items at the Priority of Request: prompt.

8. Enter the receiving location of the goods or services at the Ship To: prompt, or enter a question mark to see a list of available receiving locations.

9. Enter the individual's name and/or the room number for delivery at the Deliver To: prompt.

10. Enter D for destination or O for Origin at the FOB: prompt. An FOB (Freight on Board) of "Destination" means that the vendor's item price includes shipping and handling and that the vendor is responsible for the item up to its delivery at the facility. An FOB of "Origin" means that shipping charges are due to the shipper, and generally that the shipper, not the vendor, is responsible for the items in transit.

11. At the Set Aside?: prompt, enter Y for 'YES' if the award will be influenced by a set-aside (i.e. race or gender) program.

12. Enter the name of the Purchasing Agent processing this RFQ at the Contracting Officer: prompt. The Contracting Officer must be a Purchasing Agent or manager in Supply Service, and must have a commercial phone number on file.

13. Enter the line item number of the item on the 2237 that you want to purchase at the Select Line Item Nbr: prompt.

14. You can change the number assigned to the item at the Line Item Nbr: prompt.

15. If the item has an Item Master File number assigned to it, enter the number at the Item Master File Nbr: prompt.

16. Enter a one-line description of the item at the Description: prompt.

17. Enter the unit of purchase (boxes, cases, etc.) for the item at the Unit of Purchase: prompt. If you do not know the unit of purchase, enter a question mark at the prompt and IFCAP will list the available units of purchase.

18. Enter the quantity of units (boxes, cases, etc.) that you want to purchase at the Quantity: prompt.

19. Enter the Standard Industrial Classification code for the business providing this product at the SIC Code: prompt. The SIC code will help vendor systems direct the RFQ to potential vendors.

20. If the item is a drug, enter the drug code for the item at the National Drug Code: prompt.

21. Enter the national stock number for the item at the NSN: prompt.

22. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.

23. Enter the part number assigned to the item by the manufacturer at the Mfg Part No.: prompt.

24. Enter the lot number assigned to the item by the manufacturer at the Lot Nbr.: prompt.

25. Enter the serial number assigned to the item by the manufacturer at the Serial Nbr.: prompt.

26. Enter H at the Hazardous Material: prompt if the item qualifies as hazardous material.

27. Enter the Budget Object Code for the item at the BOC: prompt. The Budget Object Code is an accounting code that describes what kind of item or service is being procured.

28. Press the Enter key at the Select Delivery Schedule: prompt if you want all of the items on your request delivered on the required delivery date of the RFQ. To define a delivery schedule for the items on the RFQ, enter a number to represent the delivery schedule. If you enter a delivery schedule for the item, you are notifying the vendor that you want them to deliver different amounts of the items on different days. Make sure that the total number of items among all of the delivery dates equals the total number of items you are ordering.

29. Enter the delivery date of the item at the Delivery Date: prompt.

30. Enter the quantity you are ordering at the Quantity: prompt.

31. Enter the location for delivery of the item at the Location: prompt.

32. You can enter additional delivery schedules if you like.

33. You can enter another line item if you like at the Select Line Item Nbr: prompt.

34. Enter the vendor solicited for this RFQ at the Select Solicited Vendor: prompt.

35. Enter Y at the Transmit to 'Public': prompt if you want to broadcast the RFQ to all possible vendors for the item.

36. You can enter or edit special remarks for this RFQ if you like.

37. Enter Y at the Do You Wish To Add A Standard Administrative Certification Phrase?: prompt to add an administrative certification phrase to this RFQ. Administrative certification phrases are 'boilerplate' paragraphs that IFCAP users add to orders and requests.

38. Enter Y at the Do You Wish To View The RFQ?: prompt to view the new RFQ.

39. If you chose to view the RFQ, enter the output device at the Device: prompt. Enter a margin length (in characters) at the Right Margin: prompt. IFCAP will display the new RFQ on the output device you selected.

40. Inspect the RFQ for validity and correctness. If the RFQ is ready to transmit, enter Y at the Do You Wish To Transmit This RFQ To Vendors?: prompt. IFCAP will display the MailMan message number assigned to the RFQ transmission. Enter another RFQ number, or enter a caret (^) to return to the Process Menu.

4.2.2.4 ScreenMan Form Prompts

Note: required fields are underlined.

1. Enter the transaction number of the 2237 you wish to assign to the new RFQ at the Enter Primary 2237 Transaction #: prompt.

2. You can import items from additional 2237s if you like. IFCAP will create a new RFQ with cross-references to the 2237(s) you selected.

3. IFCAP will display an RFQ Enter/Edit Screen.

4. Use the tab key to move the cursor to the prompts on the screen. Required prompts are underlined. Word-processing prompts are followed by a (W).

5. At the RFQ Reference Date: prompt, enter the effective date for the RFQ.

6. At the Reqd Delivery Date: prompt, enter the date that you want to receive the goods or services.

7. At the Priority of Request: prompt, enter the priority of receipt of the goods or services. Valid priorities are Emergency, Special, and Standard. Consult your Supply Service for guidance regarding the use of request priorities.

8. At the Quote Due Date/Time: prompt, enter the date and time that quotes are due for receipt from the vendors.

9. At the Ship To: prompt, enter the receiving location of the goods or services, or enter a question mark to see a list of available receiving locations.

10. At the Deliver To: prompt, enter the individual's name and/or the room number for delivery.

11. At the FOB: prompt, enter D for destination or O for origin. An FOB (Freight on Board) of "Destination" means that the vendor item price includes shipping and handling and that the vendor is responsible for the item up to its delivery at the facility. An FOB of "Origin" means that shipping charges are due to the shipper, and generally that the shipper, not the vendor, is responsible for the items in transit.

12. At the Special Remarks: prompt, enter any remarks you want to make about this RFQ.

13. At the Do you wish to add a Administrative Certification?: prompt, enter Y if you wish to use predefined Administrative Certification phrases for inclusion in the RFQ. IFCAP will copy the phrases you choose to the Administrative Certifications word processing field.

14. At the Administrative Certifications(W) prompt, press the Enter key to enter the Administrative Certifications word processing field for editing.

15. At the Set Aside?: prompt, enter Y for 'YES' if the award will be influenced by a set-aside (i.e. race or gender) program.

16. At the Contracting Officer: prompt, enter the name of the Purchasing Agent processing this RFQ. The Contracting Officer must be a Purchasing Agent or manager in Supply Service, and must have a commercial phone number on file.

17. Enter N to see the next page of prompts. IFCAP will display a second edit screen, listing information about the new RFQ.

18. To edit an existing line item, move the cursor until it rests on the line item number and then press the Enter key.

19. To add another line item, move the cursor to the end of the line item list and enter a line number. To delete a line item, move the cursor over the line item number and enter @. If you want to renumber a line item, move the cursor over a line item number and enter a new number. IFCAP will display another edit screen with information about the line item. Most of the items on the RFQ will have probably been imported from a form 2237, but IFCAP allows users to add and delete line items.

20. Use the tab key to move forward through the prompts or the PF4 key to move back to the previous field. You may also enter a caret (^) and the name of a prompt to move to a field you wish to edit. <PF1>+H will display online help on how to navigate through the screens. Required fields are underlined. You can also enter a question mark at these prompts to read help text about each prompt.

21. At the Item Master File #: prompt, enter the item master file number of the item if this item is in the Item Master File. If you do not know the Item Master File number, enter a question mark at the prompt to see the item master list, or enter the first letters in the description of the item to see a list of items beginning with those letters.

22. At the Descr(W): prompt, enter a comprehensive description of the item. This is the description transmitted to the vendors.

23. At the Short: prompt, enter a brief description of the item. This description is displayed internally on some reports and data entry screens within the RFQ options.

24. At the Unit of Purchase: prompt, enter the unit of purchase (boxes, cases, etc.) If you do not know the unit of purchase, enter a question mark at the prompt and IFCAP will list the available units of purchase.

25. At the Quantity: prompt, enter the quantity of units (boxes, cases, etc.) that you want to purchase.

26. At the SIC Code: prompt, enter the Standard Industrial Classification code for the business providing this product. The SIC code will help vendor networks to direct the RFQ to potential vendors.

27. At the Natl Drug Code: prompt, enter the National Drug Code if the item is a drug.

28. At the Natl Stock #: prompt, enter the National Stock Number of the item.

29. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.

30. At the Mfg Part #: prompt, enter the manufacturer's part number.

31. At the Lot #: prompt, enter the lot number of the item.

32. At the Serial #: prompt, enter the serial number of the item.

33. At the Hazmat Code: prompt, enter the code for that hazardous material if the item is a hazardous material.

34. At the BOC: prompt, enter the Budget Object Code for the item. The Budget Object Code is an accounting code that describes what kind of item or service is being procured. IFCAP will use the BOC(s) you enter for the RFQ to generate the purchase orders after a vendor is awarded the purchase.

35. At the Select Delivery Schedule: prompt, press the Enter key if you want all of the items on your request delivered on the required delivery date of the RFQ. To define a delivery schedule for the items on the RFQ, enter a number to represent the delivery schedule. If you enter a delivery schedule for the item, you are notifying the vendor that you want them to deliver different amounts of the items on different days. Make sure that the total number of items among all of the delivery dates equals the total number of items you are ordering.

36. When you are done responding to the prompts, tab to the cursor at the bottom of the screen and select Close. IFCAP will display the item list. Tab to the cursor at the bottom of the screen and select Next Page. IFCAP will display another RFQ screen.

37. At the Select Solicited Vendor: prompt, enter the vendor you will solicit with this RFQ..

38. At the Solicitation Method: prompt, enter the code to indicate whether you want IFCAP to contact this vendor electronically or if you are going to provide information to the vendor manually.

39. At the Transmit to 'Public': prompt, enter Y if you want IFCAP to transmit the RFQ to all potential vendors for the items.

40. When you are finished entering vendors, tab to the Command: prompt at the bottom of the screen, type Close and press the Enter key. IFCAP will display the Command: prompt again, with different choices. Type Save and press the Enter key. Enter a caret (^) to return to the Process Menu.

4.2.3.3 Prompts

1. Enter an RFQ number or a question mark to see a list of available RFQs. Throughout IFCAP, you can enter the fiscal year and reference number (e.g., 96-00075) when IFCAP prompts you for an RFQ number. IFCAP will display an edit screen listing information about the new RFQ. Use the tab key to move forward through the prompts or the PF4 key to move back to the previous field. You may also enter a caret (^) and the name of a prompt to move to a field you wish to edit. <PF1>+H will display online help on how to navigate through the screens. Required fields are underlined. You can also enter a question mark at these prompts to read help text about each prompt. Throughout the RFQ module the string '(W)' indicates that the field is a word processing field.

2. At the RFQ Reference Date: prompt, enter the effective date for the RFQ.

3. At the Quote Due Date/Time: prompt, enter the date and time that quotes are due for receipt from the vendors.

4. At the Priority of Request: prompt, enter the priority of receipt of the goods or services. Valid priorities are Emergency, Special, and Standard. Consult your Supply Service for guidance regarding the use of request priorities.

5. At the Reqd Delivery Date: prompt, enter the date that you want to receive the goods or services.

6. At the Ship To: prompt, enter the receiving location of the goods or services, or enter a question mark to see a list of available receiving locations.

7. At the Deliver To: prompt, enter the individual's name and/or the room number for delivery.

8. At the FOB: prompt, enter D for destination or O for origin. An FOB (Freight on Board) of "Destination" means that the vendor item price includes shipping and handling and that the vendor is responsible for the item up to its delivery at the facility. An FOB of "Origin" means that shipping charges are due to the shipper, and generally that the shipper, not the vendor, is responsible for the items in transit.

9. At the Special Remarks(W): prompt, enter any remarks you want to make regarding this RFQ.

10. At the Do you wish to add a Administrative Certification?: prompt, enter Y if you wish to use predefined Administrative Certification phrases for inclusion in the RFQ. IFCAP will copy the phrases you choose to the Administrative Certifications word processing field.

11. Administrative Certifications(W): Press the Enter key to enter the Administrative Certifications word processing field for editing.

12. At the Set Aside?: prompt, enter Y for 'YES' if the award will be influenced by a set-aside (i.e. race or gender) program.

13. At the Contracting Officer: prompt, enter the name of the Purchasing Agent processing this RFQ. The Contracting Officer must be a Purchasing Agent or manager in Supply Service, and must have a commercial phone number on file.

14. Enter N to see the next page of prompts. IFCAP will display a second edit screen, listing information about the new RFQ.

15. To edit an existing line item, move the cursor until it rests on the line item number and then press the Enter key.

16. To add another line item, move the cursor to the end of the line item list and enter a line number. To delete a line item, move the cursor over the line item number and enter @. If you want to renumber a line item, move the cursor over a line item number and enter a new number. IFCAP will display another edit screen with information about the line item. Most of the items on the RFQ will have probably been imported from a form 2237, but IFCAP allows users to add and delete line items.

17. Use the tab key to move forward through the prompts or the PF4 key to move back to the previous field. You may also enter a caret (^) and the name of a prompt to move to a field you wish to edit. <PF1>+H will display online help on how to navigate through the screens. Required fields are underlined. You can also enter a question mark at these prompts to read help text about each prompt.

18. At the Item Master File #: prompt, enter the item master file number of the item if this item is in the Item Master File. If you do not know the Item Master File number, enter a question mark at the prompt to see the item master list, or enter the first letters in the description of the item to see a list of items beginning with those letters.

19. At the Descr(W): prompt, enter a comprehensive description of the item. This is the description transmitted to the vendors.

20. At the Short: prompt, enter a brief description of the item. This description is displayed internally on some reports and data entry screens within the RFQ options.

21. At the Unit of Purchase: prompt, enter the unit of purchase (boxes, cases, etc.) If you do not know the unit of purchase, enter a question mark at the prompt and IFCAP will list the available units of purchase.

22. At the Quantity: prompt, enter the quantity of units (boxes, cases, etc.) that you want to purchase.

23. At the SIC Code: prompt, enter the Standard Industrial Classification code for the business providing this product. The SIC code will help vendor networks to direct the RFQ to potential vendors.

24. At the Natl Drug Code: prompt, enter the National Drug Code if the item is a drug.

25. At the Natl Stock #: prompt, enter the National Stock Number of the item.

26. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.

27. At the Mfg Part #: prompt, enter the manufacturer's part number.

28. At the Lot #: prompt, enter the lot number of the item.

29. At the Serial #: prompt, enter the serial number of the item.

30. At the Hazmat Code: prompt, enter the code for that hazardous material if the item is a hazardous material.

31. At the BOC: prompt, enter the Budget Object Code for the item. The Budget Object Code is an accounting code that describes what kind of item or service is being procured.. IFCAP will use the BOC(s) you enter for the RFQ to generate the purchase orders after a vendor is awarded the purchase.

32. At the Select Delivery Schedule: prompt, press the Enter key if you want all of the items on your request delivered on the required delivery date of the RFQ. To define a delivery schedule for the items on the RFQ, enter a number to represent the delivery schedule. If you enter a delivery schedule for the item, you are notifying the vendor that you want them to deliver different amounts of the items on different days. Make sure that the total number of items among all of the delivery dates equals the total number of items you are ordering.

33. When you are done responding to the prompts, tab to the cursor at the bottom of the screen and select Close. IFCAP will display the item list. Tab to the cursor at the bottom of the screen and select Next Page. IFCAP will display another RFQ screen.

34. At the Select Solicited Vendor: prompt, enter the vendor you will solicit with this RFQ..

35. At the Solicitation Method: prompt, enter the code to indicate whether you want IFCAP to contact this vendor electronically or if you are going to provide information to the vendor manually.

36. At the Transmit to 'Public': prompt, enter Y if you want IFCAP to transmit the RFQ to all potential vendors for the items.

37. When you are finished entering vendors, tab to the Command: prompt at the bottom of the screen, type Close and press the Enter key. IFCAP will display the Command: prompt again, with different choices. Type Save and press the Enter key. Enter a caret (^) to return to the Process Menu.

METRIC PRODUCTS - Products manufactured to metric dimensions will be considered on an

equal basis with those manufactured using inch-pound units, providing they fall

within the tolerances specified using conversion tables contained in the latest revision

of Federal Standard No. 376 and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the

tolerances specified in the inch-pound units, a request should be made to the Contracting

Officer to determine if the product is acceptable.  The Contracting Officer, in concert

with COTR (Contracting Officer's Technical Representative) will accept
```

```
or reject the product.

    REPRESENTATIONS, CERTIFICATIONS, AND PROVISIONS

The following representation applies when the contract is to be performed inside

the United States, its territories or possessions, the Trust Territory

of the Pacific Islands, or the District of Columbia.

52.219-1 SMALL BUSINESS CONCERN REPRESENTATION (JAN 1991)

    The offeror represents and certifies as part of its offer that it

_ is, _ is not a small business conncern and that _ all, _ not all
```

```
end items to be furnished will be manufactured or produced

by a small business concern in the United States, its territories or

possessions, Puerto Rico, of the Trust Territory of the Pacific Islands.

"Small business concern,", as used in this provision, means a concern

including its affiliates, that is independently owned and operated

not dominant in the field of operation in which it is

bidding on Government contracts, and qualified as a small business

under the criteria and size standards in this solicitation.

Under 15 U.S.C. 645(d), any person who misrepresents a firms's

status as a small business concern in order to obtain a contract

to be awarded under the preference programs established pursuant

to section 8(a), 8(d), 9, or 15 of the Small Business Act

or any other provision of Federal law that specifically references

section 8(d) for a definition of program eligibility, shall--

 (1) Be punished by imposition of fine, imprisonment or both;

 (2) Be subject to administrative remedies, including

 suspension and debarment; and

 (3) Be ineligible for participation in programs conducted

 under authorty of the Act.

The following provision is applicable if required on the first page

of this form:

52.219-4 NOTICE OF SMALL BUSINESS-SMALL PURCHASE SET-ASIDE  (AUG 88)
```

```
     Quotations under this acquisition are solicited from small

business concerns only.  If this purchase is for supplies,

it will be made only from a small business concern furnishing

its own manufactured product, or from a small business concern

providing the product of another manufacturer.  In either case,

such product must be manufactured or produced in the United

States, its territories or possessions, Puerto Rico, or the

Trust Territory of the Pacific Islands.  Quotations that are not

from a small business shall not be considered and shall be rejected.

                              PAGE 3

852.219-70 VETERAN-OWNED SMALL BUSINESS (DEC 90)

     The offeror represents that the firm submitting this offer___is ___is

not, a veteran-owned small business, ___is ___is not, a Vietnam era

veteran-owned small business, and ___is ___is not, a disabled veteran-owned

small business.  A veteran-owned small business is defined as a small business, at

least 51 percent of which is owned by a veteran, who also controls and operates

the business.  Control in this context means exercising the power to make

policy decisions.  Operate in this context means actively involved in

day-to-day management.  For the purpose of this definition, eligible veterans

include:

 (a) A person who served in the U.S. Armed Forces and who was discharged

or released under conditions other than dishonorable.

 (b) Vietnam era veterans who served for a period of more than 180 days, any

part of which was between August 5, 1964 and May 7, 1975, and were discharged
```

```
under conditions other than dishonorable.

 (c) Disabled veterans with a minimum of compensable disability of 30 percent,

or a veteran who was discharged for disability.

Failure to execute this representation will be deemed a minor informality and the

bidder or offeror shall be permitted to satisfy the requirement prior to award

(see FAR 14.405)

Exception to SF-18                          SF-18 ADP (Rev 10-83)

4.2.6 Add Text Message

4.2.6.1 Introduction

This option enables the user to enter an 864 transaction Text Message, specify recipients, and transmit the message electronically to the recipients.

4.2.6.2 Menu Path

1. Select Request for Quotation Main Menu from the Purchasing Agent menu.

2. Select Process Menu from the Request for Quotation Main Menu.

3. Select Add Text Message from the Process Menu.

4.2.6.3 Prompts

1. Enter your electronic signature code.

2. Enter an RFQ number, or enter a question mark to see a list of available RFQs. You can also select an RFQ by entering the number of a Form 2237 associated with that RFQ. IFCAP will display a screen listing the RFQ number and the explicit recipients of the original RFQ. Use the tab key to move forward through the prompts or the PF4 key to move back to the previous field. You may also enter a caret (^) and the name of a prompt to move to a field you wish to edit. <PF1>+H will display online help on how to navigate through the screens. Required fields are underlined. You can also enter a question mark at these prompts to read help text about each prompt.

3. At the Message Description: prompt, enter the subject of the message.

4. At the Text(W): prompt, press the Enter key at this prompt to enter your message.

5. At the Public Transmission: prompt, enter Y to broadcast this message to all vendors on the network.

6. At the Explicit Recipients: prompt, enter any additional electronic vendors whom you want to receive this message.

7. Use the tab key to move to the Command: prompt at the bottom of the screen. Enter save at the prompt.

8. Enter Exit at the Command: prompt.

9. IFCAP will ask you if you want to transmit the message to the vendors. If you answer yes, IFCAP will display the MailMan message number assigned to your message. IFCAP will return to the Process Menu.

4.2.7 Cancel RFQ

4.2.7.1 Introduction

This option sets the RFQ status to 'Cancelled', and the worksheet file entry back to 'Sent to Purchasing and Contracting.' If the RFQ has been transmitted electronically, IFCAP sends an RFQ Cancellation 840 Transaction. The user can copy a cancelled RFQ into a new RFQ for editing and transmission. In this case, IFCAP attaches the 2237s to the new RFQ and applies the status 'Held in P&C Pending Return of Quotations' to the Request Worksheet file entries.

4.2.7.2 Menu Path

1. Select Request for Quotation Main Menu from the Purchasing Agent menu.

2. Select Process Menu from the Request for Quotation Main Menu.

3. Select Cancel RFQ from the Process Menu.

        Unawarded RFQs by Status Report

        Transmit Unsent / Retransmit 864 Message

        Edit Mode Preference

Select Process Menu Option: Cancel RFQ

```

4.2.7.3 Prompts

1. Enter the number of the RFQ you want to cancel. If you do not know the entire number, you can enter the suffix ('0625' in the example below) or enter a question mark and IFCAP will list the available RFQs.

2. Enter N at the Do You Wish To Review A Synopsis Of This RFQ?: prompt to skip the RFQ synopsis.

3. If you enter Y at the Do You Wish To Review A Synopsis Of This RFQ?: prompt, IFCAP will show the identification codes associated with the RFQ, the status of the RFQ, the delivery dates, and information about the items on the RFQ.

4. If you enter N at the Is This The Correct RFQ?: prompt, IFCAP will prompt you for another RFQ number.

5. If you enter Y at the Is This The Correct RFQ?: prompt, IFCAP will prompt you for your electronic signature code. Enter your signature code. If IFCAP transmitted the RFQ electronically, IFCAP will display the reason for cancellation that it generates from a template.

6. If you enter Y at the Edit?: prompt, IFCAP will display a word processing screen with the default cancellation message. IFCAP will display the MailMan message number of the cancellation message and ask you if you want to copy the RFQ into a new RFQ entry.

7. If you answer Y at the Do You Wish To Copy This RFQ Into A New RFQ Entry?: prompt, IFCAP will display the new RFQ number and allow you to edit the new RFQ (see the section in this chapter entitled 'Edit Incomplete RFQ'.)

8. If you answer N at the Do You Wish To Copy This RFQ Into A New RFQ Entry?: prompt, IFCAP will display the change in the status of the 2237 on which the cancelled RFQ was based.

9. If you answer N at the Do You Wish To Copy This RFQ Into A New RFQ Entry?: prompt, IFCAP will display the Select RFQ To Cancel: prompt. Enter another RFQ to cancel at the Select RFQ To Cancel: prompt, or press the Enter key to return to the Process Menu.

10. If you answer Y at the Do You Wish To Copy This RFQ Into A New RFQ Entry?: prompt, IFCAP will copy the RFQ into a new entry and display the number of the new RFQ. You may edit the new RFQ, or enter N at the Do You Wish To Edit This New RFQ Now?: prompt to return to the Process Menu.

4.2.9 Close RFQ to Further Quotes

4.2.9.1 Introduction

This option enables the Purchasing Agent to set the status of the RFQ to 'CLOSED'. If the RFQ has been transmitted electronically, this option also sends an 864 Text Message informing vendors that the RFQ is now closed.

Note: Information Resources Management Service can schedule a background task that will automatically close RFQs on their due dates.

4.2.9.2 Menu Path

1. Select Request for Quotation Main Menu from the Purchasing Agent menu.

2. Select Process Menu from the Request for Quotation Main Menu.

3. Select Close RFQ to Further Quotes from the Process Menu.

```

4.2.10.3 Prompts

1. Enter the number of the RFQ you want to reopen. If you do not know the entire number, you can enter the suffix ('0331' in the example below) or enter a question mark and IFCAP will list the available RFQs.

2. Enter N at the Do You Wish To Review A Synopsis Of This RFQ?: prompt to skip the RFQ synopsis.

3. If you enter Y at the Do You Wish To Review A Synopsis Of This RFQ?: prompt, IFCAP will show the identification codes associated with the RFQ, the status of the RFQ, the delivery dates, and information about the items on the RFQ.

4. If you enter N at the Is This The Correct RFQ?: prompt, IFCAP will prompt you for another RFQ number.

5. If you enter Y at the Is This The Correct RFQ?: prompt, IFCAP will prompt you to enter your electronic signature code.

6. After you enter your electronic signature code, IFCAP will prompt you to enter a delivery date for the items on the RFQ, and the date that quotes are due in response to the RFQ. The delivery date has to be later than the quote due date. You may also transmit an electronic notification to the vendors associated with the RFQ. IFCAP will display the default message that indicates that the RFQ is reopened.

7. Enter Y at the Edit?: prompt to edit the default message. After you edit the message, IFCAP will display the MailMan message number assigned to the message.

8. Enter another RFQ number at the Select RFQ To Reopen: prompt, or press the Enter key to return to the Process Menu.

4.3 The Evaluation and Award Menu

4.3.1 Introduction

The Evaluation and Award Menu contains options that allow you to create RFQ reports, evaluate quotes for an RFQ, and award an RFQ. Here are the options under the Evaluation and Award Menu, in the order they will be explained in this manual.

Note: Vendors must be listed in the VENDOR File (#440) to receive awards. If an award is to be made to a vendor who is not in the VENDOR File (#440), Use the Vendor File Edit option in the Evaluation and Award Menu to add the vendor.

Manual Entry of Vendor's Quote   This option enables the Purchasing Agent to enter a manually submitted vendor's quote so IFCAP can rank it and include it in the award process.

Line Item Abstract   Use this option to create a report of quotes sorted by RFQ line item, and within line item from lowest to highest price.

Aggregate Abstract   Use this option to create a report of vendor quotes for an RFQ, sorted from lowest to highest price.

View Single Vendor Quote   This option enables the Purchasing Agent to view the details of a quote.

Quote Vendor Inquiry   This option enables to user to view information about vendors on a selected RFQ. The information includes what is on file for ordering address, payment address, and socioeconomic factors.

View RFQ   This option enables the user to view the request portion of a request for quotation (RFQ) entry.

View 864 Text Messages for RFQ   This option enables the user to view a range of text messages for a RFQ.

Complete Quote Evaluation & Award   This option enables the user to assign vendors to items on the RFQ in preparation for the award.

Award an Evaluation Complete RFQ   This option enables the user to award an RFQ, which has previously been set to Evaluation Complete.

Vendor File Edit	This function allows Supply Service to maintain a file of vendors. For each vendor, data is specified for the address, phone number, account number, method of business, contract number, type of ownership and special factors. This file is maintained by Supply Service.
Item File Edit	This function is used to create or edit Purchase Request Cards. For each item, data is specified for the item name, a description of the item, the unit of purchase, NSN, source code and vendor.
Edit an Incomplete Purchase Order	Use this option to complete a purchase order that has not been signed by the contracting officer.

4.3.2 Manual Entry of Vendor's Quote

4.3.2.1 Introduction

This option enables the Purchasing Agent to enter a manually submitted vendor's quote so IFCAP can rank it and include it in the award process.

4.3.2.2 Menu Path

1. Select Request for Quotation Main Menu from the Purchasing Agent menu.

2. Select Evaluation and Award Menu from the Request for Quotation Main Menu.

3. Select Manual Entry of Vendor's Quote from the Evaluation and Award Menu.

```
            Purchase Orders Menu ...

```

4.3.2.3 Prompts

1. Enter the RFQ number of the manual quote you wish to enter. IFCAP will display a screen listing information about the quote.

2. Use the tab key to move forward through the prompts or the PF4 key to move back to the previous field. You may also enter a caret (^) and the name of a prompt to move to a field you wish to edit. <PF1>+H will display online help on how to navigate through the screens. Required fields are underlined. You can also enter a question mark at these prompts to read help text about each prompt.

3. At the Seller's Ref #: prompt, enter the reference number assigned to the quote by the vendor.

4. At the Effective Date: prompt, enter the date that the vendor offered the quote.

5. At the Receipt Date/Time: prompt, enter the time and date that the quote was received. Time is a required value for this prompt.

6. At the Govt Cont: prompt, enter the government contract number applicable to the entire quote.

7. At the Quote Contact: prompt, enter the contact name for the vendor providing the quote.

8. At the Phone#: prompt, enter the phone number of the contact name for the vendor providing the quote.

9. At the FOB: prompt, enter D for destination or O for origin. An FOB (Freight on Board) of "Destination" means that the vendor item price includes shipping and handling and that the vendor is responsible for the item up to its delivery at the facility. An FOB of "Origin" means that shipping charges are due to the shipper, and generally that the shipper, not the vendor, is responsible for the items in transit.

10. At the Estimated S/H Charges: prompt, enter the estimated shipping and handling charges for the item(s) on the quote. If there are no shipping and handling charges expected, enter a zero (0) at this prompt.

11. At the Prompt Pay Terms Term: prompt, enter the percent discount for prompt payment of the item(s) on the quote. Under the term 'header', enter a percentage or the word NET.

12. At the Prompt Pay Terms Days: prompt, enter the number of days of the prompt payment term. To add additional terms, move the cursor to the bottom of the term list and enter the next term. You can change terms by typing over the previous values. You can delete a term by moving the cursor over the term and entering the at symbol (@).

13. At the Line Item: prompt, assign a line item number to each line item on the quote.

14. If you add a new line item at the Line Item: prompt, IFCAP will display another screen with prompts that describe the item.

15. At the Vendor's Product #: prompt, enter the number assigned by the vendor to the product.

16. At the Description(W): prompt, enter a description of the item. This is the description that the vendor provides.

17. At the FOB: prompt, enter D for destination or O for origin. An FOB (Freight on Board) of "Destination" means that the vendor item price includes shipping and handling and that the vendor is responsible for the item up to its delivery at the facility. An FOB of "Origin" means that shipping charges are due to the shipper, and generally that the shipper, not the vendor, is responsible for the items in transit.

18. At the Hazmat Code: prompt, enter the code for the hazardous material if the item is a hazardous material.

19. At the Govt Contract: prompt, enter the government contract assigned to this item, if any.

20. At the Quantity: prompt, enter the quantity of units (boxes, cases, etc.) This is a required field.

21. At the Unit of Purchase: prompt, enter the unit of purchase (boxes, cases, etc.) If you do not know the unit of purchase, enter a question mark at the prompt and IFCAP will list the available units of purchase. This is a required field.

22. At the Unit Cost: prompt, enter the cost per unit.

23. At the Volume Discount %: prompt, enter the percent discount for purchasing this item in volume.

24. At the Volume Discount Amount: prompt, enter the dollar discount amount.

25. At the Natl Stock #: prompt, enter the National Stock Number of the item.

26. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.

27. At the Natl Drug Code: prompt, enter the National Drug Code for the item, as provided in the quote.

28. At the Mfg Part #: prompt, enter the number from the item quoted.

29. At the Lot #: prompt, enter the lot number assigned to the item by the manufacturer as provided in the quote.

30. At the Serial #: prompt, enter the serial number assigned to the item by the manufacturer as provided in the quote.

31. At the SIC Code: prompt, enter the Standard Industrial Classification code for the business providing this product as provided in the quote. This code is the code to which the vendor responded.

32. At the Select Delivery Schedule: prompt, enter the vendor's proposed delivery schedule. Press the Enter key if you want all of the items on your request delivered on the required delivery date of the RFQ. To define a delivery schedule for the items on the RFQ, enter a number to represent the delivery schedule. Enter the amounts and dates as repeated by the vendor.

33. Use the tab key to move the cursor to the Command: prompt at the bottom of the screen. Type C and press the Enter key. You may enter another line item or move the cursor to the Command: prompt, type S and press the Enter key.

34. Enter your electronic signature code.

35. Enter another vendor at the Select Quote's Vendor: prompt, or press the Enter key.

36. Enter another RFQ number at the Select Request for Quotation #: prompt, or press the Enter key to return to the Evaluation and Award Menu.

```

4.3.9 Complete Quote Evaluation & Award

4.3.9.1 Introduction

This option enables the user to assign vendors to items on the RFQ in preparation for the award.

4.3.9.2 Menu Path

1. Select Request for Quotation Main Menu from the Purchasing Agent menu.

2. Select Evaluation and Award Menu from the Request for Quotation Main Menu.

3. Select Complete Quote Evaluation & Award from the Evaluation and Award Menu.

Note: Prior to making an award, make sure that the vendor is in the Vendor File (file #440.) If any of the items on the award are in the Item Master File, those items must be associated with the vendor. The vendor must also have any referenced contract information recorded for it in IFCAP. Use the IFCAP options "Vendor File Edit," and "Item File Edit," explained in this chapter, to enter this data. Even if the vendor is listed in the RFQ temporary vendor file, you will have to add this vendor to the Vendor File.

```

4.3.9.3 Prompts

1. Enter the number of the RFQ you want to evaluate, or a sequence number and fiscal year, e.g., 65-97. If you do not know the entire number, you can enter the suffix ('0253 in the example below) or enter a question mark and IFCAP will list the available RFQs.

2. At the Selected: prompt, enter the number that corresponds to the quote that you want to select to receive the award, or enter a question mark to see a list of available quotes. IFCAP will display the name of the vendor(s) corresponding to the quote(s) you selected.

3. Enter a justification for the item(s) at the Justification(W): prompt.

4. Enter S at the Command: prompt to save your work.

5. Enter your electronic signature code.

6. Enter E at the Command: prompt to exit the input screen. IFCAP will change the status of the RFQ to Evaluation Complete.

7. Enter Y at the Do You Wish To Now Award Items Assigned To Vendors?: prompt. IFCAP will create a 2237 for the award.

8. At the Purchase Order: prompt, enter the common numbering series, which is a two- or three-character code for the category of the purchase. Generally, the second digit will be the last number of the fiscal year. These categories are based on the appropriation, the method of payment, and the source of procurement (vendor, GSA, etc.) After IFCAP generates purchase orders for all items on the RFQ, IFCAP will change the status of the RFQ from Evaluation Complete to Awarded.

9. Enter another RFQ to award at the Select Request For Quotation RFQ Nbr: prompt, or press the Enter key to return to the Evaluation and Award Menu.

Note: You do NOT have to wait until you have assigned vendors to all items before you award specific items on an RFQ to vendors.

4.3.11 Vendor File Edit

4.3.11.1 Introduction

This function allows Supply Service to maintain a file of vendors. For each vendor, data is specified for the address, phone number, account number, method of business, contract number, type of ownership and special factors. This file is maintained by Supply Service.

Note: **Many of the prompts in this option ask for information that you can derive from a recent quote supplied by the vendor.**

4.3.11.2 Menu Path

1. Select Request for Quotation Main Menu from the Purchasing Agent menu.

2. Select Evaluation and Award Menu from the Request for Quotation Main Menu.

3. Select Vendor File Edit from the Evaluation and Award Menu.

Select Evaluation and Award Menu Option: Vendor File Edit
```

4.3.11.3 Prompts

1. Enter a station number.

2. Enter the name of the vendor you wish to add or edit. If you want to edit an existing vendor, but do not know the name, enter as many of the first characters of the vendor name that you know. If you do not know the name at all, enter three question marks and IFCAP will list the available vendors. If you are adding a new vendor, enter the new vendor name. When IFCAP asks, 'Are you adding '(Vendor Name)' as a new vendor ?', enter Y.

Note: When you add or edit a vendor in IFCAP, IFCAP sends a Vendor Request (VRQ) document to FMS, ensuring that IFCAP and FMS vendor records correspond.

3. Enter or edit the name, the address where the purchase order is sent, and the fax number.

4. Enter or edit the tax identification number or social security number of the vendor.

5. Enter N at the Non-Recurring/Recurring Vendor: prompt if you anticipate that IFCAP will only use the vendor one time.

6. Enter or edit the address where the payment is sent.

7. Enter Y at the 1099 Vendor Indicator: prompt if a 1099 form is completed for the vendor. A 1099 form is an IRS form for reporting self-employed income.

8. Enter or edit the vendor type. If you do not know the vendor type, enter three question marks at the prompt and IFCAP will list the available vendor types.

9. Enter or edit the phone number for the vendor and the representative of the vendor that accepts telephone solicitations for Government purchase orders.

10. Enter or edit the account number.

11. Enter the contract number, the beginning date of the contract, and its expiration date.

12. Enter the terms of the contract. For example, if the vendor offers a 2% discount if the net payment is received in 10 days, and requires payment in full in 30 days, the terms of the contract are '2%/10 NET 30'.

13. Enter another contract number if you like.

14. Enter or edit whether the vendor is located in a designated Labor Surplus Area. Labor Surplus Areas are geographic areas defined by the Department of Labor as having a labor surplus. To determine whether the vendor is in a Labor Surplus Area, look up the city, county and state of the vendor in "Area Trends in Employment and Unemployment," published by the U.S. Department of Labor.

15. Enter or edit the Federal Procurement Data System (FPDS) business category that applies to the vendor at the Business Type: prompt.

16. Enter or edit the Federal Procurement Data System (FPDS) socioeconomic group that applies to the vendor.

17. Enter any applicable special factors to be considered when ordering from the vendor, for example, minimum or maximum order, written purchase orders required, whether the freight-on-board charges are charged to the origin or destination, etc.

18. Enter whether the vendor has entered into a guaranteed delivery agreement with the Government. Guaranteed delivery is applicable only to vendors who deliver to locations other than a VA receiving area, such as the home of a veteran. Guaranteed delivery is required in the vendor file before you place a direct delivery order with that vendor.

19. Enter or edit the synonym for the vendor.

20. Enter whether there is an SF-129 on file for the vendor, or if an SF-129 is not applicable for the vendor. An SF-129 is application from a vendor to be placed on a mailing list to receive announcements for bids. Vendor applicants submit these forms to Purchasing and Contracting, which keeps them on file for one year.

21. Enter a Dun & Bradstreet number for the vendor, if one is available.

22. Enter another station number at the Select Station Number: prompt, or enter a caret (^) to return to the Evaluation and Award Menu.

Note:The Dun and Bradstreet number is a unique number used to identify vendors in electronic communication and transactions. IFCAP users can communicate with vendors electronically using a Dun and Bradstreet number and registration with the EDI office in Austin or electronically through public broadcast.

Select Evaluation and Award Menu Option: Edit an Incomplete Purchase Order
```

4.3.13.3 Prompts

1. Enter a station number.

2. Enter the purchase order number.

3. IFCAP will ask you for the method of processing, or how the vendor will be paid for the purchase. INVOICE/RECEIVING REPORT means that the order will be received by the warehouse, the warehouse will create a receiving report for the order, and the order will be paid via FMS. CERTIFIED INVOICE means that the order is for a service; the Control Point Official will certify that the service has been rendered, and the station that generated the purchase order will pay the vendor. PAYMENT IN ADVANCE is an order that Fiscal Service forwards to a vendor with a check included. GUARANTEED DELIVERY orders are for goods and services that go directly to a veteran. IMPREST FUNDS/CASHIER orders are paid with cash, a GELCO draft (third party check), or a credit card.

Note: Only vendors that are listed as guaranteed delivery vendors in the vendor file can receive guaranteed delivery orders.

4. IFCAP will ask you if the order is an estimate order. Estimate orders are orders that have an unknown cost at the time the Control Point Official transmitted the order. Orders for services, i.e., equipment repair, are often estimated orders, since the vendor doesn't determine the actual cost until the vendor completes the repair.

5. IFCAP will ask for the invoice address. The invoice address indicates where the vendor is to mail the invoice. Invoice/Receiving Report orders for subsistence (perishable food items) list the local VA facility as the recipient of the invoice. All other Invoice/Receiving Report orders will send the invoice to FMS. Certified Invoices are sent to Fiscal Service at the local VA facility. Guaranteed Delivery invoices are forwarded to FMS. Payment in Advance and Imprest Funds/Cashier orders do not require invoices, so you would accept the address shown on the order.

6. Enter a vendor name or number at the Vendor: prompt. You may add a new vendor if you wish.

Note: If you add a new vendor, IFCAP will create a vendor request (VRQ) document and transmit it to FMS, ensuring that IFCAP and FMS vendor records correspond.

7. Enter the source code for the purchase order. The source code identifies what type of source the vendor represents, e.g., a Government source, a private source, a contract source, etc. Source codes are listed in MP-4 Part V, Appendix B-1.

8. If you choose "Open Market" at the Source Code: prompt, IFCAP will ask you to explain why you're making the purchase from the open market, as opposed to purchasing it from a mandatory source.

9. IFCAP will ask for the "Request Worksheet 2237 Transaction Number", or the number of the transaction that you're turning into a purchase order. Enter the last four numbers of the transaction number if you are adding another 2237 to the order other than the one already assigned to the purchase order by awarding the RFQ.

10. Enter the 2237 transaction number that lists the items you are going to purchase. If you do not know the 2237 transaction number, enter the Control Point, fiscal year and fiscal quarter (for example, 688-95-4) and IFCAP will list the available transaction numbers. If you do not know any part of the transaction number, enter three question marks and IFCAP will list the available transaction numbers.

11. Enter the line item on the 2237 that you want to purchase, or enter A for all of the items on the 2237. If the purchase is funded by a multi-year appropriation, IFCAP will ask you to specify the first year of the appropriation. If you do not select all of the items on the original 2237, IFCAP will create a new 2237 with the item(s) you specified and ask you if you want to print it.

12. Enter another 2237 transaction number if you like.

13. Enter the Fund Control Point for the purchase if IFCAP prompts you for it.

14. Enter the cost center at the Cost Center: prompt if this purchase is assigned to a section or service that has a cost center defined in IFCAP for their expenses. Cost centers allow Fiscal staff to create total expense records for a section or service.

15. Enter the name of the service that will use the items you are purchasing.

16. Enter the final destination of the purchase at the Delivery Location: prompt.

17. Enter where you want the VENDOR to deliver the purchase at the Ship To: prompt.

18. Enter Y at the Verbal Purchase Order: prompt if the order was made verbally, and no written purchase order will be sent to the vendor.

19. Enter O for origin at the F.O.B. (Freight On Board) Point: prompt if additional freight charges are due to the carrier at the time of delivery.

20. Enter the date that the purchase is due at the Delivery Date: prompt.

21. Enter the method of purchase for these items at the Select Purchase Method: prompt. If you do not know the method category, enter three question marks and IFCAP will list the available purchase methods. You may enter multiple purchase methods if you like.

Note: During the RFQ award, IFCAP populates the Proposal: field with the seller's reference number.

22. Edit the estimated shipping and handling charges.

23. If there are estimated shipping and/or handling charges, enter the budget object code (BOC) that will pay the charges at the Est. Shipping BOC: prompt.

24. Edit the discount terms for prompt payment at the Prompt Pay Type: prompt. Edit your name at the Purchasing/PPM Agent: prompt.

25. Edit whether the purchase order is certified.

26. Edit the line item number of the item on the 2237 that you want to purchase.

27. Edit the item master file number of the item.

28. Edit a description of the item.

29. Edit the quantity of units (boxes, cases, etc.) that you want to purchase.

30. Edit the unit of purchase (boxes, cases, etc.)

31. If you do not know the unit of purchase, enter three question marks at the prompt and IFCAP will list the available units of purchase.

32. Edit the cost per unit at the Actual Unit Cost: prompt.

33. Edit the minimum number of units you can order per shipping package at the Packaging Multiple: prompt.

34. Edit the stock-keeping unit of the item at the SKU: prompt. The stock-keeping unit is the unit that the warehouse uses to store the item.

35. Edit the factor that you use to convert the SKU to the unit of purchase at the Unit Conversion Factor: prompt.

36. Edit the stock number supplied by the vendor for the item.

37. Edit the national stock number (NSN).

38. Enter the Federal Supply Classification (FSC) for an item, or the Product Service Code (PSC) for a service. IFCAP might display some additional prompts based on your entry.

39. At the Contract: prompt, enter a contract number if the purchase price and vendor is established by a purchasing contract with that vendor.

40. Edit the budget object code classification for the item at the BOC: prompt. If you do not know the budget object code, enter three question marks at the prompt and IFCAP will display the available budget object codes.

41. At the Enter/Edit Delivery Schedule for this Item?: prompt, press the Enter key. If you enter a delivery schedule for the item, you are notifying the vendor that you want them to deliver different amounts of the items on different days. Make sure that the total number of items among all of the delivery dates equals the total number of items you are ordering.

42. Enter another line item number if you like.

43. Enter any special administrative forms of payment at the Select Administrative Certifications: prompt. If you do not know the administrative certification categories, enter three question marks and IFCAP will list the available categories.

44. Enter comments if you like.

45. If there is a discount available for any item on the purchase order, enter the line item number at the Select Discount Item: prompt and enter the discount for the item.

46. If the entire purchase order is subject to a percent discount for prompt payment, enter the percent of the discount at the Select Prompt Payment Percent: prompt.

47. Enter the type of prompt payment discount at the Prompt Pay Type: prompt.

48. Enter the amount of days that the payment has to be made to receive the discount at the Days (Term): prompt. IFCAP lists the business type of the vendor assigned to the vendor in the vendor file. You cannot edit the business type of the vendor here.

49. Report the purchase order to the Federal Procurement Data System (FPDS) if the purchase order qualifies for reporting. Do not report the purchase order to FPDS for purchases over $25,000. Enter three question marks at the prompt to read the other exceptions to FPDS reporting. The General Services Administration uses FPDS data to compile statistics of compliance to minority and small business purchasing requirements as per the Competition in Contracting Act. Enter the appropriate business category codes at the prompts. If you do

not know the category codes, enter three question marks at the prompts and IFCAP will list the available codes.

50. Review the purchase order if you like.

51. If the purchase order is ready for approval, send it to Fiscal Service and enter your electronic signature code. If you need to make corrections to the purchase order before you send it to Fiscal Service, enter N at the Send to Fiscal Service? prompt and use the Edit an Incomplete Purchase Order option

52. Enter a purchase order number at the Purchase Order: prompt to transmit another purchase order or enter a caret (^) at the prompt to return to the Evaluation and Award Menu.

```

5.2 Prompts

1. Enter a station number, or enter three question marks to see a list of available station numbers.

2. Enter the purchase order number at the P.O./Req. No.: prompt. If you do not know the purchase order number, enter three question marks (???) and IFCAP will display a list of the available purchase orders and requisitions.

3. Enter another purchase order number or requisition number at the P.O./Req. No.: prompt, or press the enter key to return to the Purchase Orders menu.

4. Find the status of the purchase order or requisition on the chart below. The first column on the chart lists each IFCAP status. The second column lists the node on the flowchart that represents that status. For example, if the status of the transaction is 'Assigned to PPM Clerk,' the request is pending action at node number 17 on the flowchart, 'Personal Property Management Requisition Clerk creates and submits a Requisition.' Contact the Personal Property Management Requisition Clerk and ask when they plan to create the requisition.

Status of Request, Transaction, or Purchase Order	The request is pending action at node number
Assigned to PPM Clerk	17
Assigned to Purchasing Agent	19
Awaiting Payment	37 through 42, depending on order
Cancelled - 1358	Rejected at 6. Start from scratch.
Cancelled Order	Purchasing Agent cancelled the request at 19.
Complete Order Received	35 or 36.
Complete Order Received (Amended)	Same as above, just that the Purchasing Agent has amended the Purchase Order.
Complete Order Received But Not Obligated	Past 32 or 33, but 23 or 24 has been skipped. Talk to the Accounting Technician.
Forward to Imprest Funds Agent	19
Held for Review in Personal Prop.	17
Held in P&C Pending Return of Quotations	19

Issue Pending Delivery From Warehouse	29, 46 or END.
Issue Request Pending Fiscal Action	This status is not used. Currently, Fiscal Service does not process issue book orders.
Obligated - 1358	20
Obligated - Awaiting Invoice	27
Order Not Completely Prepared	19. The Purchasing Agent has assigned a Purchase Order number to it, but has not transmitted it to the Accounting Technician yet.
Ordered (No Fiscal Action Required)	30. This status means that funds are not obligated for this type of Purchase Order, so it skipped node 23.
Ordered and Obligated	28 or 30. Talk to the vendor.
Ordered and Obligated (Amended)	Same as above, just that the Purchasing Agent amended the Purchase Order.
Partial Issue Delivered	Either 29 or END.
Partial Order Received	Either 35, 36, 37, 38, 40, 41 or END. Talk to the Accounting Technician if you want to know if they've sent the payment order.
Partial Order Received (Amended)	Same as above, just that the Purchasing Agent amended the Purchase Order.
Partial Received (No Fiscal Action Req)	Same as Partial Order Received, except that this status means that this Purchase Order will skip either 37 or 38, because no fiscal action is required.
Partial Received But Not Obligated	Same as Partial Order Received, except that this status means that funds are not obligated for this type of Purchase Order, so it skipped node 23.
Pending Accountable Officer Signature	14, 15 or 18.
Pending CP Official's Signature	7, 9 or 11.
Pending Completion by CP Clerk	4, 6 or 8.

Pending Completion by Requestor   5

Pending Contracting Officers Signature   19

Pending Fiscal Action   12, 23 or 24.

Pending PPM Clerk Signature   17 or 18.

Request Clarification by Service for P&C   19

Returned to Service by P&C   Died at 19; currently at 4. Ask the Purchasing
                                                Agent why they returned it, if the explanation is
                                                not in the Return to Service Comments: line on
                                                the request.

Returned to Service by Fiscal   Died at 12; currently at 6. Ask the Accounting
                                                Technician why they killed it, if the explanation
                                                is not in the Return to Service Comments: line
                                                on the request.

Returned to Service by PPM   Died at 14 or 17; currently at 4. Ask the PPM
                                                Accountable Officer and PPM Requisition Clerk
                                                which one of them killed it and why, if the
                                                explanation is not in the Return to Service
                                                Comments: line on the request.

Returned to Supply (Pending Signature)   Died at 23; currently at 19. The Accounting
                                                Technician returned the Purchase Order, usually
                                                because the Control Point does not have enough
                                                money to cover the Purchase Order.

Sent to Purchasing and Contracting   19

Transaction Complete   Certified Purchase Orders: your request could be
                                                at 30, 33, 36, 38, 41 or END; All other requests:
                                                40, 41, 42 or END.

Transaction Complete (Amended)   Same as above, just that the Purchasing Agent
                                                amended the Purchase Order.

5.3 EDI/RFQ Reports

5.3.1 Introduction

Occasionally, an RFQ or PHA transaction will be rejected by the Austin Automation Center system. Transactions can have the wrong vendor ID, lack-required data, or have invalid data. The EDI/RFQ Reports option allows the user to monitor EDI/RFQ transactions sent to and from Austin.

5.3.2 Menu Path

Select EDI/RFQ Reports from the Purchasing Agent Menu.

```
          Purchase Orders Menu ...

            Display/Print Menu ...

            P&C Utilities Menu ...

            Request Further Clarification or Return to Service

            EDI/RFQ Reports

            Request for Quotation Main Menu ...

Select Purchasing Agent Option: EDI/RFQ Reports
```
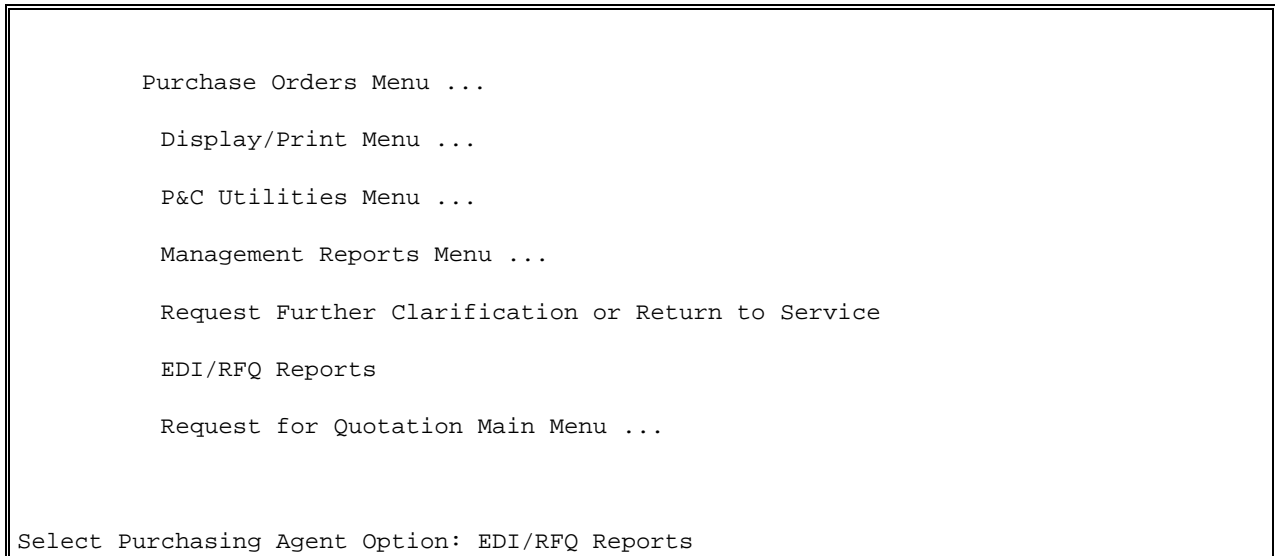

5.3.3 Prompts

IFCAP will display a set of transactions grouped by levels of processing. Level III transactions are reconciliations generated by vendors in response to an electronic order; these are listed first. Level II transactions are reconciliations generated by the Austin Electronic Data Interface (EDI) system; these are listed after the Level III reconciliations. Level I transactions are purchase orders, RFQs or RFQ-related text messages created by IFCAP or an IFCAP user; these are listed last. The report lists the purchase order number or request for quotation number assigned to the transaction, the transaction type, the vendor assigned to the transaction, and the date that the vendor sent the transaction (Level III), the date processed by the Austin EDI system (Level II), or the date that the purchase order, RFQ or text message was created (Level I). Below is a table that lists the transaction types for each level.

Level I	PHA, RFQ, TXT
Level II	ACT, PRJ
Level III	POA

The T/R column lists whether the transaction represents the original purchase order or RFQ (the letter 'O'), a cancellation transaction (the letter 'C'), or a text message in response to an RFQ (the number '1' represents the first response to an RFQ; the number '2' is the second response, etc.)

The RJ column lists the reason why a transaction was rejected. Here is the list of error codes, current to the date of this publication.

PRJ exception code (Level II transactions)	PRJ exceptions
1	Data exceeds maximum field length.
2	Required data elements missing.
3	Invalid data element. Blank field.
4	Number of line items does not equal total count.
5	Invalid vendor identification number.
6	Invalid ship to suffix.
7	Invalid telephone number.
8	Unauthorized purchase order (No E/S on order).
9	Invalid PO/RFQ number.
10	Number of description lines does not equal total count.
11	Number of text lines does not equal total count.
12	Invalid data. Contact EDI Help Desk.

POA exception codes (Level III	POA exceptions

transactions)	
AC	Item accepted and shipped.
AR	Item accepted and released for shippment.
BP	Item accepted, partial shipped, balance backordered.
IB	Item backordered.
IH	Item on hold pending receipt of a Drug Enforcement Agency (DEA) form.
IR	Item rejected, vendor unable to identify item requested or item discontinued.

The E column lists the reasons for errors on some Level III transactions. An A5 in the E column means that there is no reject reason code from the EDI system in Austin. An A6 in the E column means that the error code can not be found in the EDI error codes file (443.76). Only Level III error transactions will feature a code in the E column.

Chapter 6. How to Return a Purchase Order

6.1 Introduction

Sometimes, Control Point users will order the wrong item, order items that cost more than is in the Control Point, order an item that is no longer manufactured, enter incorrect information on a transaction, or enter information that you cannot interpret. In these situations, you may have to return the transaction to the Control Point. Follow the instructions in this chapter to return a transaction to the Control Point.

6.2 Prompts

1. Select Request Further Clarification or Return to Service from the Purchasing Agent menu.

2. Enter a station number, or enter three question marks to see a list of valid stations.

3. Enter a transaction number. If you do not know the transaction number, enter three question marks (???) at the 2237 Transaction Number: prompt and IFCAP will list the available purchase orders. IFCAP will display the current status and allow you to change the status of the purchase order.

4. Choose Request Clarification by Service for P&C if you have called the vendor and the vendor does not have exactly what you ordered, or the description that the Requestor gave is unclear or incomplete. Choose Returned To Service by P&C if the transaction is for the wrong fiscal quarter, the Control Point is out of money or the Control Point asks you to return it.

5. If you enter Returned To Service, IFCAP will display a Reason For Return: prompt. You may also see some other IFCAP messages that list the actions IFCAP is taking to return the purchase order.

6. If you want to change the status of another purchase order, enter another purchase order number at the 2237 Transaction Number: prompt. Otherwise, press the Enter key to return to the Purchasing Agent menu.

Chapter 7. Amending a Receiving Rreport

7.1 Introduction

Sometimes, receiving reports have to be corrected. As a Purchasing Agent, it is your responsibility to correct erroneous receiving reports. This chapter will explain how to use IFCAP to correct receiving reports.

7.2 Prompts

1. Select Purchase Orders Menu from the Purchasing Agent Menu.

2. Select Adjustment Voucher to Receiving Report from the Purchase Orders Menu.

3. Enter a Station number, or enter three question marks to see a list of valid stations.

4. Enter a purchase order number. If you do not know the purchase order number, enter three question marks and IFCAP will list the available purchase orders.

5. Enter the effective date of the adjustment (usually "T" for today).

6. Enter your name at the Purchasing/PPM Agent: prompt.

7. Enter the status you wish to assign to the purchase order at the Amendment/Adjustment Status: prompt. Each IFCAP status is defined elsewhere in this manual (see "Status of a Purchase Order" in the Index).

8. Select a date of a receiving report at the Select Partial Date: prompt. If you do not know the report date, enter three question marks and IFCAP will list the available dates.

9. Enter an item on the receiving report. If you do not know the item, enter three question marks and IFCAP will list the available items.

10. You may review the adjustment if you like.

11. You may edit the description of the receiving report if you like.

12. Approve the adjustment and enter your electronic signature code. IFCAP will print the adjustment voucher you created.

13. Press the Enter key at the Purchase Order: prompt to return to the Purchase Orders Menu.

Chapter 8. Maintaining Records of Vendors and Items

8.1 Introduction

As a Purchasing Agent, you will sometimes have to update information about vendors and the items that they sell. This chapter will explain how to edit this information in IFCAP.

8.2 How to Edit Item Information

8.2.1 Menu Path

1. Select P&C Utilities Menu from the Purchasing Agent Menu.

2. Select Item File Edit from the P&C Utilities Menu.

```
          Purchase Orders Menu ...

          Display/Print Menu ...

          P&C Utilities Menu ...

          Management Reports Menu ...

          Request Further Clarification or Return to Service

          EDI/RFQ Reports

          Request for Quotation Main Menu ...

Select Purchasing Agent Option: P&C Utilities Menu

          Item File Edit

          Vendor File Edit

          Change Delivery Date on P.O.

          Direct Delivery Patient Edit

          Administrative Certification Add/Edit
```

```
        Inactivate Item

        Reactivate Item

        Inactivate Vendor

        Reactivate Vendor

        Setup AR selected vendors

Select P&C Utilities Menu Option: Item File Edit
```

8.2.2 Prompts

1. Enter a station number, or enter three question marks to see a list of valid station numbers.

2. At the Select Item Master Number: prompt, enter the item master number of the item you wish to edit. You may also enter NEW at the Select Item Master Number: prompt and enter a new item.

3. Edit the description.

4. Edit the federal supply classification (FSC).

5. Edit the national stock number (NSN) and the date the national stock number was verified.

6. Edit the item name code (INC).

7. Edit the manufacturer's part number.

8. Edit the Stock-Keeping Unit of Measure (SKU).

9. Edit the vendor.

10. Edit the unit of purchase.

11. Edit the unit cost.

12. Edit the packaging multiple.

13. Edit the unit conversion factor.

14. Edit the contract.

15. Edit the vendor stock number.

16. Edit the minimum and maximum order quantity.

17. Edit the required order multiple.

18. Edit the mandatory source.

19. Edit the Budget Object Code (BOC).

20. Edit the Fund Control Point.

21. Edit the preferred vendor (the vendor from which you normally buy the item). You may also see other prompts related to the item, such as a Food Group: prompt for dietetic purchases.

22. You may enter another item to edit at the Select Item Master Number: prompt, or press the Enter key to return to the P&C Utilities Menu.

Select P&C Utilities Menu Option: Vendor File Edit
```

8.3.2 Prompts

1. Enter a station number, or enter three question marks to see a list of valid station numbers.

2. Enter the name of the vendor you wish to add or edit. If you want to edit an existing vendor, but do not know the name, enter as many of the first characters of the vendor name that you

know. If you do not know the name at all, enter three question marks and IFCAP will list the available vendors. If you are adding a new vendor, enter the new vendor name. When IFCAP asks, 'Are you adding '(Vendor Name)' as a new vendor ?', enter Y.

Note: When you add or edit a vendor in IFCAP, IFCAP sends a Vendor Request (VRQ) document to FMS, ensuring that IFCAP and FMS vendor records correspond.

3. Enter or edit the name of the vendor.

4. Enter or edit the address where the purchase order is sent.

5. Enter or edit the fax number of the vendor.

6. Enter or edit the tax identification number or social security number of the vendor.

7. Enter N at the Non-Recurring/Recurring Vendor: prompt if you anticipate that IFCAP will only use the vendor one time.

8. Enter or edit the address where the payment is sent.

9. Enter Y at the 1099 Vendor Indicator: prompt if a 1099 form is completed for the vendor. A 1099 form is an IRS form for reporting self-employed income.

10. Enter or edit the vendor type. If you do not know the vendor type, enter three question marks at the prompt and IFCAP will list the available vendor types.

11. Enter or edit the phone number for the vendor and the representative of the vendor that accepts telephone solicitations for Government purchase orders.

12. Enter or edit the account number.

13. Enter the contract number, the beginning date of the contract, and its expiration date.

14. Enter the terms of the contract. For example, if the vendor offers a 2% discount if the net payment is received in 10 days, and requires payment in full in 30 days, the terms of the contract are '2%/10 NET 30'.

15. Enter another contract number if you like.

16. Enter or edit whether the vendor is located in a designated Labor Surplus Area. Labor Surplus Areas are geographic areas defined by the Department of Labor as having a labor surplus. To determine whether the vendor is in a Labor Surplus Area, look up the city, county and state of the vendor in "Area Trends in Employment and Unemployment," published by the U.S. Department of Labor.

17. Enter or edit the Federal Procurement Data System (FPDS) business category that applies to the vendor at the Business Type: prompt.

18. Enter or edit the Federal Procurement Data System (FPDS) socioeconomic group that applies to the vendor.

19. Enter any applicable special factors to be considered when ordering from the vendor, for example, minimum or maximum order, written purchase orders required, whether the freight-on-board charges are charged to the origin or destination, etc.

20. Enter whether the vendor has entered into a guaranteed delivery agreement with the Government. Guaranteed delivery is applicable only to vendors who deliver to locations other than a VA receiving area, such as the home of a veteran. Guaranteed delivery is required in the vendor file before you place a direct delivery order with that vendor.

21. Enter or edit the synonym for the vendor.

22. Enter whether there is an SF-129 on file for the vendor, or if an SF-129 is not applicable for the vendor. An SF-129 is application from a vendor to be placed on a mailing list to receive announcements for bids. Vendor applicants submit these forms to Purchasing and Contracting, which keeps them on file for one year.

23. Enter a Dun & Bradstreet number for the vendor, if one is available.

24. Enter a caret (^) at the Select Station Number: prompt to return to the P&C Utilities Menu.

```

Chapter 9. How to Prepare for System Crashes

Control Points need medical supplies and copier paper regardless of the functioning state of IFCAP. With a bit of preparation, you can prevent system crashes from causing duplicate orders and inaccurate expense reporting.

One reason that system crashes caused inaccurate expense reporting is that Control Point Clerks reconciled their Control Point balances by entering the requests as No Form Requests. Using a No Form Request allowed clerks to enter the request into IFCAP without worrying that Fiscal or A&MM might fulfill their request again, duplicating the order. This was bad practice, however, because it misrepresented how the money for that Control Point was spent.

"No Form" requests no longer exist in IFCAP. However, you can still make orders without IFCAP and reconcile your IFCAP records later, if you create a logbook of emergency purchase order numbers.

Purchase Order Number	Item Description	Vendor Description	Date Ordered	Date rec'd in IFCAP

If IFCAP is not functioning, Control Point Clerks can telephone their requests. Assign one of the emergency purchase order numbers and place the order. When IFCAP is functioning again, the Control Point Clerks enter the requests with a special warning in the Comments field, like this.

```
Comments: // System Failure reconciliation -- DO NOT ORDER -- DO NOT ORDER
```

This tells you that you have already ordered and obligated this transaction manually. Change the status of the transaction to Ordered and Obligated.

Chapter 10. The Logistics Data Query Tool

The Logistics Data Query Tool is designed to assist Chief Logistics Officers:; Materiel Managers; Purchasing Agents; and members of the Facility Logistics Staff (including Inventory Managers; Supply, Processing, and Distribution (SPD) Technicians; Management Analysts; Warehouse Clerks; or Supply System Analysts). The Query Tool can be used to quickly access, analyze and verify IFCAP and Prosthetics procurement data and display it using a graphical user interface to the VistA data. You can sign-on to VistA, find data, view the data, or easily move the data into a Microsoft® Excel® spreadsheet.

The Query Tool is a Windows software application that acts as a "front-end" to enable you to more easily find, display, and export VistA data. The Query Tool is an alternative to the VA FileMan utility program which has traditionally been used to look directly at the MUMPS globals (files) which store VistA data. The Query Tool enables you to…

- Search for data and display data by a range of dates
- Sort and rearrange the view of the data; display the data in a custom view
- Export the data into a Microsoft Excel spreadsheet file

Information on what the Query Tool can do for you can be found in the Logistics Data Query Tool User Manual.

The Logistics Data Query Tool User Manual is available online: at…

 http://www.va.gov/vdl/application.asp?appid=42.

Chapter 11. Error Messages and Their Resolution

The following are errors that you may encounter when processing a purchase order. Each error is listed alphabetically by code. While some of the problems may be fixed by the user, many must be fixed by your Information Resources Management Service. If this is the case, record the error code and message and report the error immediately to your Information Resources Management Service.

11.1 Error Messages

The errors listed in Table 11-1 are error codes or messages that you or users may encounter when entering delivery orders, purchase orders, or purchase card orders. The errors are listed alphabetically by error code. You or the user may be capable of resolving some of the problems, and in other instances the assistance of IRM staff may be required.

If neither the user nor you can resolve the problem, record the error code and message and immediately report the error to IRM staff.

Table 11-1. Error Messages

Error Code	Error Message	Reason
NAUC^<LIN>	No actual unit cost for this ITEM.	There is no `Actual Unit Cost` entry for the `Line Item Number` (`<LIN>`) in the `Procurement & Accounting Transactions` (`#442`) file.
NCNO^<LIN>	This order requires a contract number but none was entered for this item.	The order is a Direct Order, but there is no contract number entered for this `Line Item Number` (`<LIN>`) in the `Procurement & Accounting Transactions` (`#442`) file.
NDD	No delivery date for this P.O. in file 442.	There is no `Delivery Date` in the `Procurement & Accounting Transactions` (`#442`) file.
NDP0	No record for direct delivery patient pointer.	The `DIRECT DELIVERY PATIENT` entered in the `Procurement & Accounting Transactions` (`#442`) file for this purchase order cannot be found in the `Direct Delivery Patients` (`#440.2`) file.
NES		There is no Electronic Signature entry in the `Procurement & Accounting Transactions` (`#442`) file.

Error Code	Error Message	Reason
NFT0^<SITE>	No entry in file 411.2 for facility type pointer from file 411.	There is no entry in the FACILITY TYPE (# 411.2) file for the Facility Type field of the Admin Activity Site Parameter (# 411) file.
NFT^<SITE>	No facility type pointer for site in file 411.	The Admin. Activity Site Parameter (#411) file has no entry in it.
NI2N^<ITEM>	No contract number for item on this P.O.	There are no ITEMS listed under the Item multiple in the Procurement & Accounting Transactions (#442) file.
NMIC	No mail invoice city in file 411.	The city listed for MAIL INVOICE could not be found in the Admin. Activity Site Parameter (#411) file.
NMIL	MAIL INVOICE LOCATION information in file 411 missing.	The location for MAIL INVOICE could not be found in the Admin. Activity Site Parameter (#411) file.
NMIS	No state file pointer in file 411.	No MAIL INVOICE STATE pointer in the Admin. Activity Site Parameter (#411) file.
NMIZ	No mail invoice ZIP CODE entry in file 411.	No MAIL INVOICE ZIP CODE in the Admin. Activity Site Parameter (#411) file.
NNET	No NET amount entry for this P.O.	There is no Net Amount entry in the Procurement & Accounting Transactions (#442) file.
NOPR	No PROPOSAL entry in file 442 for this P.O.	There is no PROPOSAL entry in the Procurement & Accounting Transactions (#442) file.
NOPT	No patient file entry for direct delivery patient pointer.	There is no entry in the Patient (#2) file matching the Direct Delivery Patient entered for this P.O. in the Procurement & Accounting Transactions (#442) file.
NP12	No node 12 in file 442 for this P.O.	No ELECTRONIC SIGNATURE in the Procurement & Accounting Transactions (#442) file.
NP12	INVOICE ADDRESS pointer is missing.	No INVOICE ADDRESS in the Procurement & Accounting Transactions (#442) file.
NPH	No phone number for this A&MM user in the person file.	The New Person (#200) file does not have a phone number listed for this A&MM user.
NPH	No phone number for this PPM in the person file.	The New Person (#200) file does not have a phone number listed for this PPM.
NPHN	No phone number node in the person file for this A&MM user.	The New Person (#200) file does not have a phone number node for this A&MM user.
NPIA	Invoice address missing.	There is no INVOICE ADDRESS in node 12 in the Procurement & Accounting Transactions (#442) file.

Error Code	Error Message	Reason
NPO0	Zero node of record missing. Unable to check further.	No `Procurement & Accounting Transactions (#442)` file entry exists.
NPO1	Node 1 missing in record.	No `VENDOR`, `SHIP TO` or `ACCOUNTING` information found for the `Procurement & Accounting Transactions (#442)` file record.
NPOD	No purchase order date in file 442 for this P.O.	There is no `PURCHASE ORDER DATE` in the `Procurement & Accounting Transactions (#442)` file.
NPPM	No purchasing agent entry in file 442 for this P.O.	There is no `Purchasing Agent/PPM Agent` entry in the `Procurement & Accounting Transactions (#442)` file.
NPPT	No prompt payment terms entered in P.O.	There are no `PROMPT PAYMENT TERMS` entries in the `Procurement & Accounting Transactions (#442)` file.
NQTY^<LIN>	No quantity listed for this ITEM.	There is no `QUANTITY` listed for the `Line Item Number (<LIN>)` in the `Procurement & Accounting Transactions (#442)` file.
NRL	No receiving location node in file 411.	No `RECEIVING LOCATION` node in the `Admin. Activity Site Parameter (#411)` file.
NSC	No Source Code for type of order for this P.O.	No `SOURCE CODE` entry in the `Procurement & Accounting Transactions (#442)` file.
NSIT	No site entry in file 442.	No `SITE` entry in the `Procurement & Accounting Transactions (#442)` file.
NSP0^<SITE>	No SITE information in file 411.	No `FACILITY TYPE` pointer in the `Admin. Activity Site Parameter (#411)` file that matches `SITE` in the `Procurement & Accounting Transactions (#442)` file.
NST0	No record in the state file	No `STATE` entry in the `State (#5)` file for Vendor Address State pointer in Vendor file.
NSTA	Abbreviation missing in state file entry.	No `Abbreviation` in the `STATE` file.
NSTA	No Abbreviation in State file.	There is no `Abbreviation` in the `STATE` file for this state.
NSTDP	No State file pointer in Direct Delivery Address in 440.2.	No `STATE` file pointer in `Direct Delivery Address` field in `Direct Delivery Patients` file.
NSTL	No Ship to pointer to entry in file 441.	No `SHIP TO` pointer to the `Admin. Activity Site Parameter (#411)` file.
NSTP	No Vendor Address pointer to the State file.	No `VENDOR ADDRESS` State file pointer in the `Vendor (#440)` file.

Error Code	Error Message	Reason
NSTS	There is no Ship To suffix for receiving location for this EDI P.O.	The SHIP TO entry for this purchase order in the Procurement & Accounting Transactions (#442) file cannot be found in the Admin. Activity Site Parameter (#411) file (Ship To Suffix). An EDI purchase order requires the Ship To suffix.
NSTT	No State file pointer in Receiving Location in file 411.	No State File pointer in the Receiving Location multiple in the Admin. Activity Site Parameter (#411) file.
NUNI^<LIN>	No name entry in unit of purchase file for unit of purchase pointer in ITEM entry in P.O. file.	No Name entry in the Unit of Issue file (file 420.5) for the Unit of Purchase entry for the Line Item Number (<LIN>) in the Procurement & Accounting Transactions (#442) file.
NUOP^<LIN>	No unit of purchase pointer for this ITEM.	No Unit of Purchase pointer entered for the Line Item Number (<LIN>) in the Procurement & Accounting Transactions (#442) file.
NUPN^<LIN>	No entry in unit of issue file for unit of purchase pointer in ITEM entry in P.O. file.	No entry in the Unit of Issue file (file 420.5) for the Unit of Purchase entry for the Line Item Number (<LIN>) in the Procurement & Accounting Transactions (#442) file.
NV0	No vendor record found in vendor file.	No Vendor (#440) file entry for the Vendor pointer from the Procurement & Accounting Transactions (#442) file.
NVID	Missing a vendor ID number for an EDI vendor.	There is no Vendor ID Number for an EDI Vendor in the Vendor (#440) file.

Chapter 12. Menu Outline

This chapter lists each menu option assigned to the standard menu configuration for a Purchasing Agent. Main menu options are flush left. Subordinate options are spaced to the right. For example, if you wanted to use the "New Imprest Funds Purchase Order" option, you would select "Purchase Orders Menu", then "Imprest Funds Processing Menu", then "New Imprest Funds Purchase Order".

```
Purchase Orders Menu

     New Purchase Order

     Edit an Incomplete Purchase Order

     Amendment to Purchase Order

     Cancel an Unobligated Purchase Order

Chapter 13. Glossary

0-9	
Term	**Definition / Discussion**
1358	VA Form 1358, *Estimated Obligation or Change in Obligation*
2138	VA Form 90-2138, *Order for Supplies or Services* (first page of a VA Purchase Order)
2139	VA Form 90-2139, *Order for Supplies or Services* (Continuation) (continuation sheet for Form 90-2138)
2237	VA Form 90-2237, *Request, Turn-in and Receipt for Property or Services* (used to request goods and services)

A	
Term	**Definition / Discussion**
A&MM	*See* **Acquisition and Materiel Management** (Service)
AACS	Automated Allotment Control System—Central computer system developed by VHA to disburse funding from VACO to field stations.
Accounting Technician	Fiscal employee responsible for obligation and payment of received goods and services.
Acquisition and Materiel Management (Service) (A&MM)	VA Service responsible for contracting and for overseeing the acquisition, storage, and distribution of supplies, services, and equipment used by VA facilities
Activity Code	The last two digits of the AACS number. It is defined by each station.
ADP Security Officer	The individual at your station who is responsible for the security of the computer system, both its physical integrity and the integrity of the records stored in it. Includes overseeing file access.

Glossary

A	
Term	**Definition / Discussion**
Agent Cashier	The person in Fiscal Service (often physically located elsewhere) who makes or receives payments on debtor accounts and issues official receipts.
ALD Code	Appropriation Limitation Department. A set of Fiscal codes which identifies the appropriation used for funding.
Allowance table	Reference table in FMS that provides financial information at the level immediately above the AACS, or sub-allowance level.
Amendment	A document which changes the information contained in a specified Purchase Order. Amendments are processed by the Purchasing & Contracting section of A&MM and obligated by Fiscal Service.
AMIS	Automated Management Information System.
Application Coordinator	The individuals responsible for the implementation, training and trouble-shooting of a software package within a service. IFCAP requires there be an Application Coordinator designated for Fiscal Service, A&MM Service.
Approve Requests	The use of an electronic signature by a Control Point Official to approve a 2237, 1358 or other request form and transmit said request to A&MM/Fiscal.
Approving Official	A user that approves reconciliations to ensure that they are correct and complete.
Authorization	Each authorization represents a deduction from the balance of a 1358 to cover an expense. Authorizations are useful when you have expenses from more than one vendor for a single 1358.
Authorization Balance	The amount of money remaining that can be authorized against the 1358. The service balance minus total authorizations.

B	
Term	**Definition / Discussion**
Batch Number	A unique number assigned by the computer to identify a batch (group) of Code Sheets. Code Sheets may be transmitted by Batch Number or Transmission Number.
Breakout Code	A set of A&MM codes which identifies a vendor by the type of ownership (e.g., Minority-owned, Vietnam Veteran Owned, Small Business Total Set Aside, etc.).
Budget Analyst	Fiscal employee responsible for distributing and transferring funds.
Budget Object Code	Fiscal accounting element that tells what kind of item or service is being procured. Budget object codes are listed in VA Handbook 4671.2
Budget Sort Category	Used by Fiscal Service to identify the allocation of funds throughout their facility.

C	
Term	**Definition / Discussion**
CC	Credit Charge entry identifier used by FMS and CCS for charges paid to Vendor thru Credit Card payment process.
CCS	The Credit Card System. This is the database in Austin that processes the credit card information from the external Credit Card Vendor system (currently CitiDirect), and then passes information on to FMS and IFCAP.
Ceiling Transactions	Funding distributed from Fiscal Service to IFCAP Control Points for spending. The Budget Analyst initiates these transactions using the Funds Distribution options.

C	
Term	**Definition / Discussion**
Chief Logistics Office (CLO)	The Chief Logistics Office (CLO) develops and fosters logistics best practices for the Veterans Health Administration. Through the VHA Acquisition Board the CLO develops the annual VHA Acquisition plan that forms the basis for VHA's acquisition strategy. This strategy seeks to procure high quality health care products and services in the most cost effective manner. This includes the attainment of socio-economic procurement goals. The CLO also develops and implements a comprehensive plan for the standardization of healthcare supplies and equipment. This includes the development and administration of clinical product user groups.
	The CLO is also responsible for developing improvements to supply chain management within VHA. This includes the establishment and monitoring of logistics benchmarking data. The CLO serves as liaison for logistics staff in each of the 21 VISNs.
	The head of CLO is the **Chief Prosthetics and Clinical Logistics Officer (CPCLO)**.
Chief Prosthetics and Clinical Logistics Officer (CPCLO)	The official in charge of the VHA **Chief Logistics Office (CLO)**, also called the Clinical Logistics Office.
CLA	*See* **Clinical Logistics Analyst**
Classification of Request	An identifier a Control Point can assign to track requests that fall into a category (*e.g.*, Memberships, Replacement Parts, Food Group III).
Clinical Logistics Analyst (CLA)	*Logistics* refers to how resources are acquired, transported and stored along the supply chain. By having an efficient supply chain and proper logistical procedures, an organization can cut costs and increase efficiency. *Clinical logistics* refers specifically to resources used for clinical purposes. A CLA is a person who examines processes, methods and data for clinical logistics operations.
Clinical Logistics Office	*See* **Chief Logistics Office (CLO).**

C	
Term	**Definition / Discussion**
Clinical Logistics Report Server (CLRS)	The CLRS project allows the extraction of selected procurement and inventory data from VHA facilities to a centralized Clinical Logistics Report Server. The server supports the collection, tracking, and reporting of National Performance Measures, assisting the Under Secretary for Health (USH) in evaluating facility performance in the areas of consolidation of high tech equipment, standardization, socioeconomic goal accomplishment, acquisition, and inventory management.
CLRS	*See* **Clinical Logistics Report Server (CLRS)**.
Common Numbering Series	This is a pre-set series of Procurement and Accounting Transaction (PAT) numbers used by Purchasing and Contracting, Personal Property Management, Accounting Technicians and Imprest Funds Clerks to generate new Purchase Orders/Requisitions/Accounting Transactions on IFCAP. The Application Coordinators establish the Common Numbering Series used by each facility.
Control Point	Financial element, existing ONLY in IFCAP, which corresponds to a set of elements in FMS that include the Account Classification Code (ACC) and define the Sub-Allowance on the FMS system. Used to permit the tracking of monies to a specified service, activity or purpose from an Appropriation or Fund.
Control Point Clerk	The user within the service who is designated to input requests (2237s) and maintain the Control Point records for a Service.
Control Point Official	The individual authorized to expend government funds for ordering of supplies and services for their Control Point(s). This person has all of the options the Control Point Clerk has plus the ability to approve requests by using their electronic signature code.
Control Point Official's Balance	A running record of all the transactions generated and approved for a Control Point from within IFCAP and also. Effects changes to the control point that are initiated directly from within the FMS system. Provides information that shows the total amount of funds committed, obligated and remaining to be spent for a specified fiscal quarter.

Glossary

C	
Term	**Definition / Discussion**
Control Point Requestor	The lowest level Control Point user, who can only enter temporary requests (2237s, 1358s) to a Control Point. This user can only view or edit their own requests. A Control Point Clerk or Official must make these requests permanent before they can be approved and transmitted to A&MM.
Cost Center	Cost Centers are unique numbers which define a service. One cost center must be attached to every Fund Control Point. This enables costs to be captured by service. Cost centers are listed in VA Handbook 4671.1.

D	
Term	**Definition / Discussion**
Date Committed	The date that you want IFCAP to commit funds to the purchase.
Default	A suggested response that is provided by the system.
Deficiency	When a budget has obligated and expended more than it was funded.
Delinquent Delivery Listing	A listing of all the Purchase Orders that have not had all the items received by the Warehouse on IFCAP. It is used to contact the vendor for updated delivery information.
Delivery Order	An order for an item that the VA purchases through an established contract with a vendor who supplies the items.
Direct Delivery Patient	A patient who has been designated to have goods delivered directly to him/her from the vendor.
Discount Item	This is a trade discount on a Purchase Order. The discount can apply to a line item or a quantity. This discount can be a percentage or a set dollar value.

E	
Term	**Definition / Discussion**
EDI	*See* **Electronic Data Interchange (EDI).**
EDI Vendor	A vendor with whom the VA has negotiated an arrangement to submit, accept and fill orders electronically.
EDI X12	"X12" is the U.S. standard ANSI ASC X12, which is the predominant standard used in North America. Thus, "EDI X12" refers to electronic data interchanges which meet the X12 standard. Also seen as "X12 EDI."
Electronic Data Interchange (EDI)	Electronic Data Interchange is a method of electronically exchanging business documents according to established rules and formats.
Electronic Signature	The electronic signature code replaces the written signature on all IFCAP documents used within your facility. Documents going off-station will require a written signature as well.
Expenditure Request	A Control Point document that authorizes the expenditure of funds for supplies and/or services (e.g., 2237, 1358, etc.).

F	
Term	**Definition / Discussion**
FCP	Fund Control Point (see Control Point).
Federal Tax ID	A unique number that identifies your station to the Internal Revenue Service.
FileMan	The FileMan modules are the "building blocks" for all of VistA. FileMan includes both a database management system (DBMS) and user interface. *Source:* http://www.hardhats.org/fileman/FMmain.html
Fiscal Balance	The amount of money on a 1358 and any adjustments to that 1358 that have been obligated by Fiscal Service. This amount is reduced by any liquidations submitted against the obligation.
Fiscal Quarter	The fiscal year is broken into four three month quarters. The first fiscal quarter begins on October 1.

Fiscal Year	Twelve month period from October 1 to September 30.
FMS	Financial Management System, the primary accounting system for administrative appropriations. FMS has a comprehensive database that provides for flexible on-line and/or batch processing, ad-hoc reporting, interactive query capability and extensive security. FMS is concerned with budget execution, general ledger, funds control, accounts receivable, accounts payable and cost accounting.
FOB	**Freight on Board.** An FOB of "Destination" means that the vendor has included shipping costs in the invoice, and no shipping charges are due when the shipper arrives at the warehouse with the item. An FOB of "Origin" means the Vendor has paid shipping costs directly to the shipper and then will include them on their Invoice.
FPDS	Federal Procurement Data System.
FTEE	Full Time Employee Equivalent. An FTEE of 1 stands for 1 fiscal year of full-time employment. This number is used to measure workforces. A part-time employee that worked half days for a year would be assigned an FTEE of 0.5, as would a full-time employee that worked for half of a year.
Fund Control Point	IFCAP accounting element that is not used by FMS. See also control point.
Funds Control	A group of Control Point options that allow the Control Point Clerk and/or Official to maintain and reconcile their funds.
Funds Distribution	A group of Fiscal options that allows the Budget Analyst to distribute funds to Control Points and track Budget Distribution Reports information.

G	
Term	**Definition / Discussion**
GBL	Government Bill of Lading. A document that authorizes the payment of shipping charges in excess of $250.00.
GL	General Ledger.

G	
Term	**Definition / Discussion**
Globals	Globals are variables which are automatically and transparently stored on disk and persist beyond program, routine, or process completion. Globals are used exactly like ordinary variables, but with the caret character prefixed to the variable name. Globals are stored in highly structured data files by MUMPS, and accessed only as MUMPS globals. VistA file definitions and data are both stored in globals.

I	
Term	**Definition / Discussion**
Identification Number	A computer-generated number assigned to a code sheet.
Imprest Funds	Monies used for cash or 3rd party draft purchases at a VA facility.
Integrated Supply Management System (ISMS)	ISMS is the system which replaced LOG I for Expendable Inventory.
ISMS	See Integrated Supply Management System.
Item File	A listing of items specified by A&MM service as being purchased repetitively. This file maintains a full description of the item, related stock numbers, vendors, contract numbers and a procurement history.
Item History	Procurement information stored in the Item File. A history is kept by Fund Control Point and is available to the Control Point at time of request.
Item Master Number	A computer generated number used to identify an item in the Item File.

Glossary

J	
Term	**Definition / Discussion**
Justification	A written explanation of why the Control Point requires the items requested. Adequate justification must be given if the goods are being requested from other than a mandatory source.

K	
Term	**Definition / Discussion**
Kernel	The Kernel is the software "scaffolding" that supports all VistA applications. The Kernel system permits any VistA software application to run without modification to its base structure no matter what hardware or software vendor the application was built on. The Kernel includes a number of management tools including device, menu, programming, operations, security/auditing, task, user, and system management. Its framework provides a structurally sound computing environment that permits controlled user access, menus for choosing various computing activities, the ability to schedule tasks, application development tools, and numerous other management and operation tools. *Source:* http://hardhats.org/kernel/KRNmain.html

L	
Term	**Definition / Discussion**
Liquidation	The amount of money posted to the 1358 or Purchase Order as a payment to the vendor. They are processed through payment/invoice tracking.
LOG I	LOG I is the name of the Logistics A&MM computer located at the Austin Automation Center. This system continues to support the Consolidated Memorandum of Receipt.

M	
Term	**Definition / Discussion**
M	The Massachusetts General Hospital Utility Multi-Programming System, or alternatively M, is a programming language originally created for use in the healthcare industry. M is designed to make writing database-driven applications easy while simultaneously making efficient use of computing resources. The most outstanding, and unusual, design feature of M is that database interaction is transparently built into the language. Many parts of VistA are written in M.
MailMan	Mailman is an integrated data channel in VistA for the distribution of: • Patches (*Kernel Installation and Distribution System* or *KIDS* builds) • Software releases (*KIDS* builds) • Computer-to-computer communications (HL7 transfers, Servers, etc.) • Person-to-person messaging (email) *Source:* http://www.hardhats.org/cs/mailman/MMmain.html
Mandatory Source	A Federal Agency that sells supplies and services to the VA, Defense Logistics Agency (DLA), General Services Administration (GSA), etc.
MSC Confirmation Message	A MailMan message generated by the Austin Message Switching Center that assigns an FMS number to an IFCAP transmission of documents.
MUMPS	*See* **M.**

O	
Term	**Definition / Discussion**
Obligation	The commitment of funds. The process Fiscal uses to set aside monies to cover the cost of an Order.
Obligation (Actual) Amount	The actual dollar figure obligated by Fiscal Service for a Purchase Order. The Control Point's records are updated with actual cost automatically when Fiscal obligates the document on IFCAP.

Glossary

O	
Term	**Definition / Discussion**
Obligation Data	A Control Point option that allows the Control Point Clerk and/or Budget Analyst to enter data not recorded by IFCAP.
Obligation Number	The 6 character number assigned to orders, requisitions and 1358s. (ie C prefix number that Fiscal Service assigns to the 1358.)
Option	A Vista Option is an application component defined in VA Kernel to control user and remote server access to VistA applications. Options can appear on menu "trees" of options, through which the user navigates to execute application software. Types of options include menu (to allow grouping of options); edit (to edit application files via VA FileMan); inquire (to query the database via VA FileMan); print (to execute reports via VA FileMan); run routine (to execute custom application software); server (to process remote procedure calls via MailMan); and Broker (to process GUI remote procedure calls via Kernel Broker).
Organization Code	Accounting element functionally comparable to Cost Center, but used to organize purchases by the budget that funded them, not the purposes for spending the funds.
Outstanding 2237	A&MM report that lists all the IFCAP generated 2237s pending action in A&MM.

P	
Term	**Definition / Discussion**
Partial	A Receiving Report (VA document that shows receipt of goods) for only some of the items ordered on a Purchase Order.
Partial Date	The date that a warehouse clerk created a receiving report for a shipment.
PAT Number	Pending Accounting Transaction number – the primary FMS reference number. See also Obligation Number.

P	
Term	**Definition / Discussion**
Personal Property Management	A section of A&MM Service responsible for screening all requests for those items available from a Mandatory Source, VA Excess or Bulk sale. They also process requisitions for goods from Federal Agencies and equipment requests. In addition, they maintain the inventory of Warehouse stocked items and all equipment (CMRs) at the facilities they support.
POA	Purchase Order Acknowledgment. The message received electronically from an EDI vendor acknowledging the placement of an order.
PPM	Personal Property Management, now referred to at most sites as Acquisition and Materiel Management Service.
Program Code	Accounting element that identifies the VA initiative or program that the purchase will support.
Prompt PaymentTerms	The discount given to the VA for paying the vendor within a set number of days (e.g., 2% 20 days means the VA will save 2% of the total cost of the order if the vendor is paid within 20 days of receipt of goods).
Purchase Card	A card, similar to a credit card, that Purchase Card Users use to make purchases. Purchase Cards are not credit cards but debit cards that spend money out of a deposited balance of VA funds.
Purchase Card Coordinator	A person authorized by a VA station to monitor and resolve delinquent purchase card orders, help VA services record, edit and approve purchase card orders in a timely manner, assign purchase cards to IFCAP users, and monitor the purchase card expenses of VAMC services.
Purchase Card Orders	Orders funded by a purchase card.
Purchase Card User	A person who uses a purchase card. Purchase Card Users are responsible for recording their purchase card orders in IFCAP.
Purchase History Add (PHA)	Information about purchase orders which is automatically sent to Austin for archiving. This same transaction is also used to send a PO for EDI processing.

Glossary

P	
Term	**Definition / Discussion**
Purchase History Modify (PHM)	Information about amendments which is automatically sent to Austin for archiving.
Purchase Order	A government document authorizing the purchase of the goods or services at the terms indicated.
Purchase Order Acknowledgment	Information returned by the vendor describing the status of items ordered (e.g., 10 CRTs shipped, 5 CRTs backordered).
Purchase Order Status	The status of completion of a purchase order (e.g., Pending Contracting Officer's Signature, Pending Fiscal Action, Partial Order Received, etc.).
Purchasing Agents	A&MM employees legally empowered to create purchase orders to obtain goods and services from commercial vendors.

Q	
Term	**Definition / Discussion**
Quarterly Report	A Control Point listing of all transactions (Ceilings, Obligations, Adjustments) made against a Control Point's Funds.
Quotation for Bid	Standard Form 18. Used by Purchasing Agents to obtain written bids from vendors. May be created automatically and transmitted electronically within the Purchasing Agent's module.

R	
Term	**Definition / Discussion**
Receiving Report	The VA document used to indicate the quantity and dollar value of the goods being received.
Reconciliation	Comparing of two records to validate IFCAP Purchase Card orders. Purchase Card Users compare IFCAP generated purchase card order data with the CC transaction sent from the CCS system in Austin.

R	
Term	**Definition / Discussion**
Reference Number	Also known as the Transaction Number. The computer generated number that identifies a request. It is comprised of the: Station Number-Fiscal Year-Quarter - Control Point – 4-digit Sequence Number.
Repetitive (PR Card) Number	See **Item Master Number**.
Repetitive Item List (RIL)	A method the Control Point uses to order items in the Item File. The Control Point enters the Item Master Number, the quantity and vendor and IFCAP can sort and generate 2237 requests from the list. A RIL can be created by using the Auto-Generate feature within the Inventory portion of the package.
Requestor	See **Control Point Requestor**.
Requisition	An order from a Government vendor.
Running Balance	A running record of all the transactions generated and approved for a Control Point. Provides information that shows the total amount of funds committed, obligated, and remaining to be spent for a specified fiscal quarter.

S	
Term	**Definition / Discussion**
Section Request	A temporary request for goods and/or services entered by a Control Point Requestor. These requests may or may not be made permanent by the Control Point Clerk/Official.
Service Balance	The amount of money on the on the original 1358 and any adjustments to that 1358 when created by that service in their Fund Control Point. This amount is reduced by any authorizations created by the service.
SF-18	Request for Quotation.
SF-30	Amendment of Solicitation/Modification of Contract.

Glossary

S	
Term	**Definition / Discussion**
Short Description	A phrase which describes the item in the Item Master file. It is restricted to 3 to 60 characters and consists of what the item is, the kind of item, and the size of item (e.g., GLOVE-SURGICAL MEDIUM).
Site Parameters	Information (such as Station Number, Cashier's address, printer location, etc.) that is unique to your station. All of IFCAP uses a single Site Parameter file.
Sort Group	An identifier a Control Point can assign to a project or group of like requests. It is used to generate a report that will tell the cost of requests.
Sort Order	The order in which the budget categories will appear on the budget distribution reports.
Special Remarks	A field on the Control Point Request that allows the CP Clerk to enter information of use to the Purchasing Agent or vendor. This field can be printed on the Purchase Order.
Stacked Documents	The purchase orders, receiving reports, and 1358s which are sent electronically to Fiscal and stored in a file for printing at a later time rather than being printed immediately.
Status of Funds	Fiscal's on-line status report of the monies available to a Control Point. FMS updates this information automatically.
Sub-control Point	A user defined assignment of all or part of a ceiling transaction to a specific category (sub-control point) within a Control Point. Transactions can then be posted against this sub-control point and a report can be generated to track use of specified funding within the overall control point.
Sub-cost Center	A subcategory of Cost Center. IFCAP will not utilize a 'sub-cost center' field, but will send FMS the last two digits of the cost center as the FMS 'sub-cost center' field.

T	
Term	**Definition / Discussion**
Tasked Job	A job, usually a printout, that has been scheduled to run at a predetermined time. Tasked jobs are set up to run without having a person watching over them.
TDA	See "Transfer of Disbursing Authority."
Total Authorizations	The total amount of the authorizations created for the 1358 obligation.
Total Liquidations	The total amount of the liquidations against the 1358 obligation.
Transaction Number	The number of the transaction that funded a Control Point (See Budget Analyst User's Guide). It consists of the Station Number – Fiscal Year – Quarter – Control Point – Sequence Number.
Transfer of Disbursing Authority	The method used to allocate funds to a VA facility.
Transmission Number	A sequential number given to a data string when it is transmitted to the Austin DPC; used for tracking message traffic.
Type Code	A set of A&MM codes that provides information concerning the vendor size and type of competition sought on a purchase order.

U	
Term	**Definition / Discussion**
Unit of Issue	A description of the quantity/packaging combination in which the item is issued to the end user; it may be different from the Unit of Purchase, which is the combination used when the item is procured from the vendor. For example, a vendor may sell an item in cases of 24 cans, but the end user receives individual cans from that case.
Unit of Purchase	A description of the quantity/packaging combination in which VA purchases the item from the vendor; it may be different from the Unit of Issue, which is the combination used to actually issue the item to the end user. See also Unit Conversion Factor.

U	
Term	**Definition / Discussion**
Unit Conversion Factor	A number which expresses the ratio between the unit of measure and the unit of issue. Among other things, the conversion factor (which is part of the vendor data) is used at order release to calculate the due-ins and due-outs. Supply stations receive the conversion factor at the time of order release and use it to translate the order quantities into supply station amounts. If an item is procured, stocked and issued using the same units, then the conversion factor would be 1.

V	
Term	**Definition / Discussion**
Vendor file	An IFCAP file of vendor information solicited by the facility. This file contains ordering and billing addresses, contract information, FPDS information and telephone numbers. The debtor's address may be drawn from this file, but is maintained separately. If the desired vendor is not in the file, contact A&MM Service to have it added.
Vendor ID Number	The ID number assigned to a vendor by the FMS Vendor unit.
VRQ	FMS Vendor Request document. When a new vendor is added to IFCAP a VRQ message is sent electronically to the Austin FMS Vendor unit to determine if the vendor exists in the central vendor system. If the vendor is not in the system, Austin will confirm information and establish the vendor in the central file. If vendor exists in central file already, Austin will verify the data. *See also* **VUP**.
VUP	Vendor Update Message. This message is sent electronically from the FMS system to ALL IFCAP sites to ensure that the local vendor file contains the same data as the central vendor file in Austin. This message will contain the FMS Vendor ID for the vendor and also the Alternate Address Indicator if applicable. *See also* **VRQ**.

X	
Term	**Definition / Discussion**
X12 EDI	*See* **EDI X12.**
